Oshawa, Ontario

CANADIAN UNION COLLEGE

CANADIAN

Higher Scholastic Attainments

W. A. NELSON, *President
Canadian Union Conference*

The Canadian Union College is the senior college for the Seventh-day Adventist Church in Canada. Through the years hundreds of young people from our churches in this field have graduated from Canadian Union College and have found their place in the leadership of the work in many lands.

Canadian Union College has endeavored to keep pace with the increasing demands for higher scholastic attainment in order to meet the challenge in the field. It is recognized that the education of the past will not suffice in meeting the challenge of opportunities today.

The Canadian Union College in its purpose to match the hour and the need has adopted a million-dollar programme of expansion to be carried out over a period of a few years. This programme has been authorized by the Canadian Union Committee. The local conference committees have voted to approve the programme and to co-operate in the raising of the fund.

We know that our churches are eager that Canadian Union College present the highest quality of Christian education that our young people deserve. We believe that our church members are one with the Board that we should make available to our young people all the courses that they can receive in our colleges in the States.

We want to hold our young people for Canada and all of us believe that this is the time to take definite steps to bring Canadian Union College to full scholastic collegiate standing.

Opportunity is hereby given to our members and churches everywhere across the field to have an important part in the raising of the needed one million dollars.

The General and Union Conferences have already voted specific appropriations for 1959 in the amount of \$54,000.00 from the General Conference and \$10,000.00 from the Union.

To ensure raising the needed funds an individual goal of \$10.00 has been suggested for each member each year. Many members will give in considerably larger amounts. With all of our members co-operating with the programme we can

W. A. NELSON

can know that the administrations and the faculties in our two colleges are burdened to serve to the very fullest in the giving of their dedicated service to this end.

FLASH

First \$2,000 given for Canadian Union College expansion!

Already approaching the college with \$1,000 gifts, J. G. Lieske and an anonymous donor, have begun the expansion fund before the actual C.U.C. drive has gotten under way.

These two gifts are the first of a series of donations that are to launch the C.U.C. of the future.

Marlene Dalk and Rose Goerlitz share an attractive room in Maple Hall.

be sure of receiving all the funds that are needed for this important development.

There are, as well, specific needs at Oshawa Missionary College. The conferences and members in the East will work in the interests of OMC and our churches and members in the West will make their contribution for Canadian Union College. For 1959 and 1960 Oshawa Missionary College will devote funds received on the development programme to the building up of its industries.

The time has come to take this step of advancement in our educational programme and we solicit the full co-operation and support of everyone. We believe that the Lord is pleased to have us enlarge the opportunities in both training and service to our young people. You

UNION COLLEGE

Forward Again!

H. T. JOHNSON, *College President*

Around the world movements are intensified in political, social and religious fields to capture and mould the minds of the youth, for the leaders in these fields well know that the future will be what the nation makes of its youth today. The key to this accomplishment is largely in the hands of the teachers of the children and the young people. As Bernard Baruch has said, "Our teachers do most for our society and are recognized least. They moulded the character and conscience of the nation and have implanted our people with ethics, decency, character and will to do the very best. With education we can accomplish almost anything. Without it, we are sterile morally, spiritually, economically and socially."

This statement is no more striking than

H. T. JOHNSON

Sherrill Andrews, Jean Anderson and Leona Tadla relax for a few minutes in the Girls' Parlour.

those that come to us from the pen of inspiration. We think of this one from *Ministry of Healing*: "Throughout the world, society is in disorder, and a thorough transformation is needed. The education given to the youth is to mold the whole social fabric."

In order to give this kind of education, Canadian Union College has passed through three distinct eras of expansion. During the early war years, the first real expansion was made in the agricultural field, as advocated by Mrs. White. At that time more than a thousand acres were added to the school farm.

During the post-war years, the scholastic programme and the physical plant were given unusual promotion. The school was established as a senior college in the field of theology and many build-

ings were added to the plant. Next came the industrial development to complete the three-dimensional programme which is the basic philosophy of the Seventh-day Adventist educational work.

Now we must move forward again, for these advances, good as they are, will not suffice for the years to come. Recognizing the inadequacy of the present programme to meet the growing need of our Canadian young people, the far-sighted Board of Directors and the Survey Committee of the General Conference have recommended that we launch this million-dollar programme. Thus we can properly house our young people and teachers, and build up the scholastic programme so that we can look for recognition from the University of Alberta, whose standards are among the highest

in the educational world. It has been my privilege to visit with the officials of the University and they have instructed us to measure up to their expectations and then make application for affiliation. This must be our first step in reaching out for still higher scholastic attainments for our students.

It is a stupendous task, but the faculty have enthusiastically joined in this objective and are giving it their financial as well as moral support. Now we are looking to you to give us your whole-hearted support to bring to realization in Canada that which the young people have a right to expect and which the constituency have long demanded.

Remember

JUNE 20!

SPECIAL C. U. C. EXPANSION OFFERING

Follow the lead of our first
two donors and give liberally
to make the goal of

\$100,000

for the future of Canada's

YOUTH

**Keep our young people in
our schools in Canada!**

Mrs. Leroy Hirschhorn helps put her husband through College by working in the sewing department of the College Furniture Factory.

Canadian Union College was founded as Alberta Industrial Academy in 1907. The idea of training our youth to work with their hands as well as their minds has always been the philosophy of Christian education at Canadian Union College, but never has it played such an important part as it does today. Many more youth are desiring a Christian education today than ever before. We in Canada have found that the blessings of physical labour go hand in hand with the education of the whole man. "That which trains the hand to helpfulness, and teaches the young to bear their share of life's burdens, is most effective in promoting the youth of mind and character." *Education*, p. 215.

This year our students at Canadian Union College will earn approximately \$116,000 in student labour. We are so thankful that our leadership has enlarged our vocational programme to such an extent in the last few years that we have been able to double our student labour programme in just four years. Our furniture manufacturing industry employs up to ninety students each year. Our farm also employs about thirty students. It takes many hours of work to properly care for 2,200 acres of farm land as well as feed some 400 head of dairy and beef cattle. The cafeteria, book bindery and laundry give work to over 50% of the girls. For those who would rather work with their minds instead of with their hands, we have work opportunities in the offices and in the teaching departments in assisting the teachers in correcting assignments and as readers. Some are able, by taking a smaller class load, to work their entire expenses, while 80% work from 25% to 50% of their way through college. In all we feel we have almost any work opportunity that a student may desire—from digging ditches to nurses' aides, from monitoring to dairying. And the beauty of it all is that "you earn as you learn."

Canadian

Student Labour Opportunities

at

Canadian Union College

M. S. FISHER, *Business Manager*

Ivadelle Beaton of Ontario earns a good share of her expenses working in the College Bindery.

M. S. FISHER

Back in 1936 it cost approximately \$360 for a full year's expenses at Canadian Union College. In order for a student to work his whole way through school, it was necessary under the student labour rate that year, to work 3,000 hours. Costs have climbed considerably since then, and in 1958-59 it costs a college student almost \$1,000 to meet all expenses for a year. But the amazing thing is that if a college student today would work 3,000 hours at the present rate of pay, he would earn enough money for two whole years' expenses, and have more spending money left over than the whole year's expenses in 1936!

Dear youth of Canada, in these tremendous and trying times of the twentieth century, you need a Christian education. The education that trains the heart, the hand, and the mind can be had at Canadian Union College. If you are interested in our "Earn as you Learn Plan", please write to us.

Union College

Goals Must

Be Reached

R. L. HAMMILL, *Associate Secretary*
Department of Education
General Conference

Twice during the past year it has been my privilege to visit Canadian Union College and to participate with the promotion committee in studying its problems and planning for its future. On one of these visits I conducted the spring Week of Prayer during which time I had the privilege of getting acquainted with many of the wonderful young people pursuing their education on the campus of CUC.

As a result of my visits with these youth, I find that our young people want to receive their education in Canada—an education geared to the Canadian situation, and accredited by Canadian authorities. Our youth are not expecting too much when they look to their parents and church leaders to provide them such an education. In fact, Canadian Adventist parents and church leaders ought to be glad that their young people think this way. In many lands around the world we have found to our sorrow that it is not best to send youth from one country to another year after year for their edu-

cation. Experience has shown that too often the most talented and consecrated youth marry in those other countries, enter the work there, and their services are lost to their home conferences. Time and again we have found that when a good school system has been developed within a field, that our work in that field begins to grow and become established on a stronger basis than ever thought possible before.

Our Adventist people in Canada ought to unite in an all-out effort to build up the faculty and physical plant at Canadian Union College to that degree necessary in order (a) to offer stronger and more diversified junior college courses, and (b) to get these courses accredited by the educational authorities of the Province of Alberta. When these two steps have been achieved, we must plan how to provide for our youth accredited upper division college work. This must wait for the time being until the first two goals have been reached.

Boys enjoy a musical moment.

Gerry Klam, Vivian Emerson and Ada Domke find working in Registrar's Office pleasant and profitable.

Train Our Youth For Christ

**Surely \$10 per member is not
asking too much for this**

Conference High Lights

Alberta—

Farewell

There's a place where the trail of men divides,

*Through the mist of earth-born days;
Where the infinite mind of God decides
And directs who goes, who stays.*

*Somewhere we meet, in this earthly span,
For a purpose that the heavens know;
And then again in heaven's plan
Some stay and others go.*

It is now nearly two months ago that we arrived in our new field of labour in the Ontario-Quebec Conference. Time has passed very swiftly during the period of our busy moving activities. It is less than two years ago that we returned to the Alberta Conference after an absence of more than twenty years. However, it was like a home coming to us because of the hearty welcome which we received from our fellow workers, believers and friends. We did not realize that our sojourn with you would be of such short duration. We had hoped to stay longer for we were happy in service for the Master in the Alberta Conference.

We wish to take this opportunity to thank you all — Conference workers, church members and friends—for your kindness shown, your interest and co-operation in all the activities of the conference, and the inspiration that you gave us while working with you.

We hope that if you should ever come to Eastern Canada that you will come to visit us at 61 Grandview North, Oshawa. We shall be happy indeed to see you.

May God continue to abundantly bless His work in your fine conference, and may we all be faithful to God and the message until the day of final reunion at the coming of Jesus.

ELDER AND MRS. H. D. HENRIKSEN

Welcome to New Educational Secretary

Members of the Alberta Conference will be happy to learn that Elder Emerson Hillock and his family have arrived in Calgary. Elder Hillock has been asked to serve as Secretary for the Missionary Volunteer, Education, and Temperance Departments.

Elder Hillock comes to us with a rich background of experience having largely devoted his ministry to the needs of our young people. He was born in Hamilton, Ontario, and attended Oshawa Mission-

ary College and later Atlantic Union College. After graduating with a Bachelor of Arts degree in Religion, he entered the ministry in the Ontario-Quebec Conference. For the past ten years he has laboured in the Newfoundland Mission serving as academy principal and associate pastor. While working in Newfoundland he was granted the privilege of attending our Theological Seminary and the School of Graduate Studies in Washington, D.C. He now holds a Master of Arts degree in Education.

We are happy to welcome Elder and Mrs. Hillock, their son, Bobby, and twin daughters, Barbara and Betty, to our conference.

J. W. BOTHE, President
Alberta Conference

Sedgewick Choir

Upon entering the Sedgewick Church one is immediately impressed with the large number of children and juniors. Shown here is the Girls' Choir in their white surplices and red bows. The same girls (all Andersons) sing the responses at church services and give special numbers from time to time. They sing in four-part harmony from memory and without accompaniment. They are all members of the Pathfinder Club and at the fair last fall they won first prize in the vocal class. The group is under the direction of Mrs. John Anderson.

These same girls are also receiving instruction in violin from Mrs. L. Grovet, a church member. They perform in various arrangements: trios, duets, solos, or a double trio; they even took their violins to Junior Camp. A string quartette consisting of two violins, a viola, and cello represented the Pathfinders at the fair and again they took first prize (a tie) in the instrumental class.

All the girls are presently studying for Toronto Conservatory Piano Examinations in grades ranging from VI to IX and all but the youngest have Theory Two.

Occasionally at an MV meeting the whole church enters into the musical programme. Here everyone has an opportunity to join—younger piano students, both girls and boys, and several adults. Just to have some statistics, we counted the musical instruments in use at the Sedgewick Church and found nine violins, two clarinets, two accordians, and one each of the following: viola, cello, saxophone, trombone, electric guitar, vibraphone, piano, and organ.

Besides the girls' group shown here there is much other singing talent in this little church of forty-five members, so there is special music at every Sabbath service.

"We are just amateurs," says Mrs. Anderson, who seems to be always practising something with somebody, "but we like to feel that we are doing something worthwhile for our young people. Besides, we all enjoy it."

The choir members pictured on the left are all Andersons: Back row; Carol, Joan, Shirley. Front row; Mary Lane, Nellie, Janey.

Investment Stories

Brother W. Olsson of the Peoria church in the Peace River country relates two interesting Investment experiences that he and his two daughters had.

"When other farmers took out hail insurance I decided to pay 50 cents an acre for all my crop that grossed \$20.00 or more an acre. The result in 1958 was \$62.00 for Sabbath School Investment.

"I gave Vallerie a small piece of land I had seeded to flax. It was only half an acre but after she had paid tithe on it she had \$29.95 for her Investment. It is interesting to note that my own flax right next to Vallerie's averaged about \$23.00 or \$24.00 per acre whereas hers for Investment yielded twice as much. In the same district there was a flax crop that grossed only \$8.00 per acre.

"Merlo's Investment was bottles. We picked up and sold many bottles. With a couple of dollars from me she had almost \$15.00 for her Sabbath School Investment."

This is a price too fair
To be the child of chance, and not of care
No atoms casually together hurl'd
Could e'er produce so beautiful a world.

JOHN DRYDEN

News Notes

★ Dr. Ernest S. Booth, head of the Department of Biological Sciences at Walla Walla College for twenty years, is now devoting his time solely to the making of motion pictures and giving illustrated lectures. He was presented at Canadian Union College on Saturday night, April 18, as their lyceum feature. On Sunday night he gave an illustrated lecture to the Edmonton Church and on Monday night, April 20, he showed the beauties of the Canadian Rockies in his illustrated lecture called "Glacier Land" at the Gas Auditorium in the city of Calgary.

★ On April 22 a programme was put on at the College of Medical Evangelists to interest future doctors in coming to Alberta to set up their practices. Those participating in the programme were Elder J. W. Bothe, Conference President, Dr. Hervey Gimbel, and Dr. Jack Jennings of Calgary and Dr. Wilford Tetz of Lacombe.

★ Elder James B. Scully, Associate Secretary of the International Temperance Association of Seventh-day Adventists from Washington, passed through Calgary on Tuesday, April 14. While here he lectured to the church school on temperance. He came to Calgary from the northern part of the province where he had lectured at Canadian Union College and also in Edmonton. From Calgary Brother Scully went to British Columbia where he carried forward his work of temperance.

★ It is reported that the Peace River area has seventeen young people at Canadian Union College.

★ The Alberta Conference is well staffed with district leaders now since we have fourteen districts instead of the twelve that the conference was formerly divided into.

★ The Loyalist Company is working toward completing their church that was recently moved to a new site and they are looking forward to its dedication.

★ The Alberta Government is constructing a new and modern school just across the road from the Rosebud Church. This school will be taught by two Seventh-day Adventist teachers and ninety percent of the students will be Seventh-day Adventists. This new school takes the place of the old Government school, which they have been using for a number of years, located one-half mile south.

Lacombe Dorcas Aids Needy Families

The Canadian Union College school paper, the *Aurora*, recently reported some very practical and helpful work done by the Lacombe Dorcas Society. The report reads:

Former Lacombe residents, Mr. and Mrs. Sidney Healing and five-year-old son, were recipients of clothing, bedding, and furniture from the Lacombe Dorcas Society.

Wednesday afternoon, February 11, fire destroyed the home of the Healings in the Sundre district. Two daughters lost their lives in the blaze, but the small boy escaped unharmed.

A family also assisted by the local organization was that of Mr. and Mrs. John Byzitter and five children who lost all clothing and home furnishings in a blaze that destroyed their home. Gifts to them consisted of clothing and bedding.

Dorcas leader, Mrs. Chris Griek of Lacombe, reports that 15 families have been helped by the local organization this year. Lacombe Dorcas members are kept busy in the weekly meetings tying quilts, making foot stools, packing boxes and doing other welfare work in readiness for similar needy cases.

Work Bee

The Calgary kindergarten Sabbath school department had a real boost recently when a work bee was called for preparing material for the spring decoration of the kindergarten and cradle roll room. Mrs. H. W. Gimbel, kindergarten department leader, is standing and inspecting some of the decorative material that is being shown to her by Mrs. John Tarangle. Other members of the bee are, left to right: Mrs. Ivan Klam, Mrs. Harvey Bechthold, Mrs. Clancy Whitehead, Mrs. J. P. Herald, Mrs. W. E. Kuester.

British Columbia—

Notes of Evangelical Progress in British Columbia

★ Elder H. E. Lohr of the Langley district baptized four candidates on Sabbath, March 28.

★ Elder W. R. Archbold baptized six Finnish people on Sunday evening of March 29, in the Vancouver Central Church. Miss Elsa Luukkanen and Miss Aino Lehtolunto of Finland were instrumental in bringing the message to these people.

★ I was present Sabbath afternoon, April 4, in the Vernon Church to witness the baptism of five candidates from the Vernon district. This is the result of Elder L. R. Krenzler and Brother George Reid's labours. Many were present from neighbouring churches.

★ Elder M. H. Philbrick plans a baptism early in May. He hopes to have ten or more ready by that time.

★ Elder C. S. Cooper of the Okanagan Valley churches is now completing studies with several families and expects to have a baptism in the near future.

★ Brother Harold Keehn and his wife have been preparing six for baptism in the Kootenays. Elder F. T. Balmer, retired minister, will officiate at this baptism in the little Ione Church in Washington state, just across the border on the last Sabbath of this month.

★ Elder John Holstein and Brother Alex Hall are planning baptisms in their respective districts of Dawson Creek in the northern part of the province and Alberni on Vancouver Island, within the next two months.

★ Elder W. R. Archbold is trying out the new plan for Operation United Evangelism in the Vancouver Church. The laymen are fully behind this programme. The conference will be much interested to see how this develops for it could well set the pattern for all of our churches throughout the conference.

R. ALLEN SMITHWICK, *President*

Friends, fortune, fame,
Or what might come to me—
I count all loss
If I find not
Companionship
With Thee!

Rest Haven

Church School Temperance Programme

ALMA R. FOOTE

The Rest Haven Church School is 100% behind the temperance programme. The accompanying picture shows the happy group of students with their teachers, David Crook, principal, and Winnifred Roberts. Every student has signed the temperance pledge again this year as did all the students last year. This is not surprising as the teachers have promoted temperance at morning worship and in other ways.

The students have access to the temperance leaflets, "Activities" and "The Winner." A club of *Listen* magazines provides a copy for each family represented at school. The children are encouraged to pass *Listen* on to their neighbours and friends when the family is finished reading it. As a result of this programme and the sharing of *Listen*, Sharon Postles, a grade eight student reports a young lady has given up smoking.

In the upper classroom (grades 5-9), all are enthusiastic readers of *Listen*. In addition to learning the evil results of smoking and drinking, they are reading of prominent leaders and sportsmen who have courage to say "No". May our boys and girls ever have this same courage when principle is at stake.

As they read and see pictured the horrible results of degrading habits, they cannot help but be thankful for the protecting influence of Christian homes and schools.

New Venture in British Columbia

Literature Evangelist Wives' Club.

Every Literature Evangelist's wife who attended the Colporteur Institute in Vancouver carried home with her the inspiration of the meetings held especially for the wives. The high light of the series was the first meeting in which Elder Botimer told of the important position the woman holds in the home and the encouragement she should be to her husband. On the following days Elder Biy, Mrs. Fell and Mrs. Smithwick stressed the importance of being courageous at all times, learning all one can about her husband's work in order to be more helpful and sympathetic, and managing household finances efficiently. All but three of the colporteur wives were present; each one in attendance expressed appreciation for the meetings and a desire to be of more help to their husbands in the future.

The Literature Evangelists Wives' Club

was organized last year at camp meeting under the direction of the late Mrs. Hoag, wife of our former Union Publishing Leader, with the object of sharing ideas on how to be more efficient co-workers with our husbands and encouraging each other in this work. Once a month a page is printed in the Colporteur newsletter just for the ladies.

Inspiration says that when men go into the work of God, "leaving their wives to care for the children at home, the wife and mother is doing fully as great and important a work as is the husband and father. While one is in the missionary field the other is a home missionary, whose cares and anxieties and burdens frequently far exceed those of the husband and father."—*Gospel Workers*, page 203.

SERVICE NOT FAME

Our Canadian Youth Need

The Heart of Christian Education Lies in the Heart of Canada

W. A. NELSON, *Chairman
Board of Trustees*

In the centre of Canada's economic, industrial and population heartland, Oshawa Missionary College is an important monument to the educational programme of the Seventh-day Adventist Church in Eastern Canada.

The need for such an educational institution to serve the youth of this strategic section is beyond question. That this school must offer the very best is also beyond doubt. Oshawa Mis-

the education and development of our greatest asset—Seventh-day Adventist youth.

The first phase of this development programme calls for a bold approach toward industrial and vocational expansion. This will mean greater economic saving for the parents of our students. It will provide additional and improved facilities enabling our young people to earn more while they learn. This industrial expansion will furnish a firm foundation for the overall development of this important educational centre.

The Spirit of Prophecy emphasizes over and over again the importance of the student, while taking his scholastic

course, also learning a trade. This will be possible for our young people under the industrial expansion programme.

We believe that there is a special advantage to our young people in their securing all of their college education in Canada. It is the purpose of the administration to make the offerings of the college so attractive that all of our young people will want to remain here for their training.

The measure of growth and development to be undertaken will be largely determined by the size of your "vote-of-confidence" on June 20. Please keep Sabbath, June 20, in mind and bring at that time a substantial offering for a "new Oshawa."

OUR INDUSTRIES:

The Shop

For many years the woodwork factory has been our largest supplier of student labour, exceeding \$15,000 each year. Last year our sales amounted to over \$180,000. This has made it possible for many students to attend a Christian school who otherwise would have been denied this privilege. At the present time 33 students are employed in this industry. In addition to the students we employ 11 full-time workers. Though not well adapted to the employment of girls, there are some types of work they can do, making it possible to use about six.

At present we produce step-ladders and ironing boards; unfinished bookcases, chests of drawers and bed headboards for the retail furniture trade. We need a department in which we can finish our furniture. With the present scale of liv-

ing in Canada, furniture buyers are not as interested as they once were in buying their furniture unfinished. A finishing department would enable us to increase our sales.

The factory is located in an old stone house that has had extension upon extension added to it. Space is now at a premium. In order to maintain full and efficient production, we need additional factory and warehouse space.

We believe that a new, modern, well equipped factory would enable us to expand our production and add new items to meet the highly competitive prices in today's market. Such a new and modern plant would enable our present supervisory personnel to care for twice as many students. This would make it possible for us to use many more worthy students in an income producing industry.

W. A. Nelson looks at the heartland of Canada.

sionary College is here to stay as long as there are youth to be educated for the church in Eastern Canada.

To keep pace with the expected growth of the denomination in this part of the country in the days ahead we must recognize an even greater need for this institution. It is imperative that this college grow and improve along with the growth and development of Canada and our church.

For this reason the launching of a "Decade of Development" plan of comprehensive enlargement that will call for new buildings, modern equipment, a strengthened curriculum, academic accreditation and campus improvement should commend itself to every member of the church concerned with

The O.M.C. Woodwork Shop. While it is our principal employer of students, we need a new enlarged building in which to house this important industry.

Oshawa Missionary College

Opportunity! A Priceless Gift

PERCY W. MANUEL, *College President*

The realization that "the foundation of every state is the education of its youth" is causing the great nations of the world to make unprecedented efforts to expand and improve their educational facilities and programmes.

This trend has special significance for Seventh-day Adventists in view of the statement from the pen of inspiration that, "Of all the institutions in the world the school is the most important."—*Fundamentals of Christian Education*, p. 226.

For over half a century Oshawa Missionary College has served as a foundation stone of Adventist education in East-

ern Canada. It is time for us to expand and improve our facilities to meet the challenge of our changing times. Thirty-four years ago when I first enrolled as a student at OMC the administration building admirably served the needs of the small student body. The graduating class for years averaged about a dozen members. Today our enrollment has tripled and each year we graduate about 50 students, but we are crowded into the some old frame classroom building.

Not only are we crowded now but the prospects indicate that the enrollment will double again within the next 10 years. The two Oshawa churches alone have 350 children below academy age. The Branson Hospital is also making a tremendous impact on Adventist growth

nearby. To keep pace with such rapid growth we must "arise and build" a "new Oshawa."

Oshawa Missionary College serves six of the ten provinces of Canada. Within our territory we have 73% of the population of Canada. Ontario is the fastest growing area in North America. It absorbs 50% of all Canadian immigration and is growing at the rate of 150,000 a year. Adventist growth in Eastern Canada must more than keep pace with our dynamic and rapidly growing territory.

We are appealing to our members to give liberally on June 20, to help Oshawa Missionary College provide for the Adventist youth of Eastern Canada the *priceless gift* of educational opportunity.

Their Contribution and Needs

Albert Worden receives a board from the planer. This piece will later become the top for a chest.

Largest Enrollment Necessitates Largest Work Offerings

We have the highest enrollment in the history of OMC this year, which has necessitated the giving of additional labour, as the great majority of these students need work to enable them to finance a Christian education.

Unfortunately, we do not have sufficient industries to profitably employ all these students. Our student labour this year will reach \$53,000, which will set a new record. But almost two-thirds of this labour has not been of the cash income-producing type.

The addition of two more cash producing industries would naturally change the picture. We especially need productive employment for girls.

Maintenance and Farm

Due to the type and age of our buildings, extensive repairs have become necessary, requiring an abnormal amount of labour. While this does furnish student employment, it is not income-producing labour.

Since the opening of OMC it has always operated a school farm. In conjunction with this industry we now maintain a dairy herd of approximately thirty head. Due to the changing of farm methods with the advent of modern machinery, however, the farm now requires the employment of only about three or four boys, and is not proving a financial asset to the school.

Gunter Holzer applies finishing touches to chest of drawers. Such chests account for much of our sales.

Edward Craig cuts out pieces of furniture on the large band saw in the woodwork shop.

Cafeteria

Myrna Young, Linda Beckwith and Marlene Turner prepare a Sunday meal.

Three times a day with very little coaxing most of the resident students gather for a pleasant rest and a good meal. This provides opportunity for twenty to twenty-five girls to earn toward their school expenses a yearly total that exceeds \$5,000.

Maracle Press

Manford Simcock pours and skims linotype metal at the Maracle Press.

While not a part of our industrial programme our sister institutions "Maracle Press" and "Kingsway Publishing" play an important part in providing part-time work for several students. At the present time eleven students are employed there.

Student Laundry

Janet Toop operates one of the laundry machines. The building, equipment and working conditions are in need of improvement in this department.

Our laundry is now housed in one of the oldest buildings on the campus. This building has been used as dormitory, administration building and bakery, all of which have moved to more desirable quarters.

The extractor and large washing machines are worn out, almost beyond repair. Several years ago a new mangle and dryer were purchased and have proved a great blessing to the four girls who have the responsibility of keeping the students clean, trim and neat.

A new location, new washer and new extractor are pressing needs in this industry.

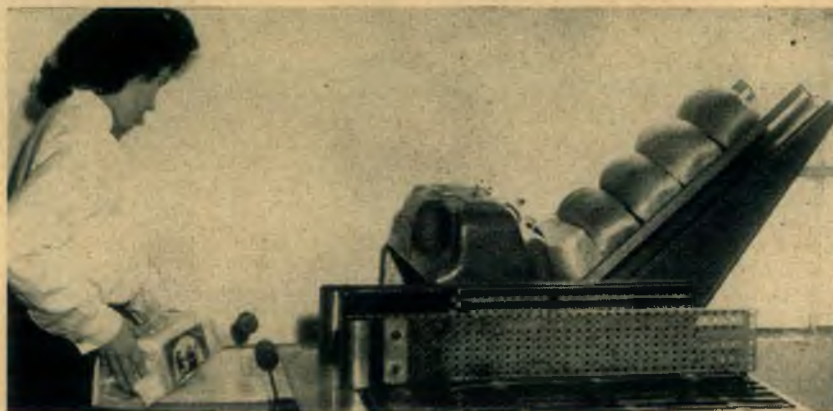

building is not insulated and so difficult to heat that working conditions for the students are very undesirable in winter. Space is available in a good location on the campus for a new and adequate store building.

The College Store and Bakery. This building is located at the back of the campus. We hope to replace it with a better building in a more advantageous location.

Bakery-Store

The store serves as outlet for our bakery and farm products, as well as retailing miscellaneous grocery items, and employs about seven students. While this industry has possibilities, one of the pressing necessities is for a completely new and relocated building where our school products could be retailed to the general public. Our present store is small and in a poor location to effectively serve the community. The OMC board has already authorized the purchase of a new oven for the bakery, which is now housed in the store. But this purchase must wait until we have adequate housing as it would not be practical to set up the new oven in the old building. The present

Linda Craig operates the bread-wrapping machine. O.M.C. is famous for its white, 60% and 100% whole wheat bread.

Help Build A New O. M. C.

New Industries

For a number of months the administration has been negotiating with Gates and Sons Inc., an Adventist firm in Denver, Colorado, which manufactures concrete form ties. Last year this firm did one and one-half million dollars worth of business in the United States.

With their eye on the rapidly expanding industrial market of Eastern Canada they have opened sales offices in Toronto, Montreal, Halifax and St. John's, Newfoundland. The company is making definite plans to open a production plant in Oshawa in the next few weeks. We hope to be able to make a co-operative arrangement with this firm that will enable them to establish a factory on our campus to employ several boys.

Our greatest need, however, is for industries that employ girls. Many of our schools successfully operate book binderies, and we feel that up to 20 girls could be profitably employed at income-producing work in a congenial, pleasant, supervised industry such as this. Therefore we hope to start a bindery as soon as funds are available.

Our "Decade of Development" Should Bring —

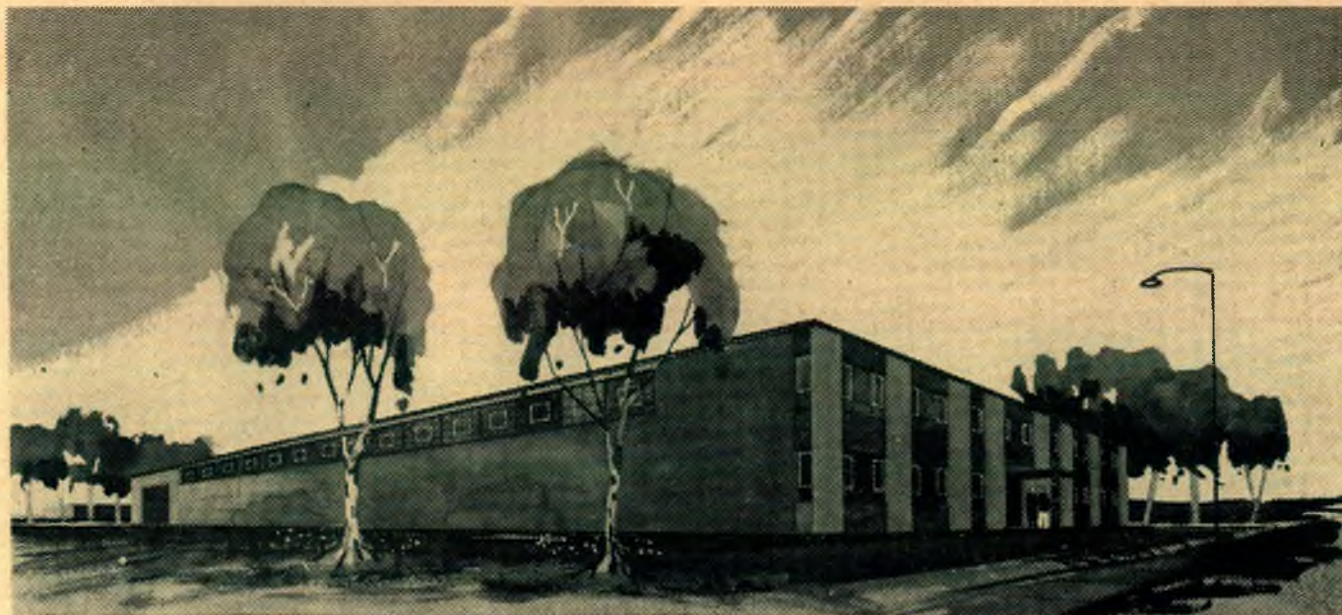

- Industrial Expansion
 - A New Bakery and Store
 - A New Woodwork Shop
 - A New Laundry
- New Ladies' Residence
- New Administration Building
- Additional Course Offerings
- Accreditation
- A Beautified Campus

GIVE ON JUNE 20

- \$40,000.00 Goal for Eastern Canadian Conferences
- \$10.00 Individual Church Member's Goal
- All funds raised in Eastern Canada are for O.M.C. Development

OUR FIRST OBJECTIVE . . .

A NEW INDUSTRIAL CENTRE

A new industrial building similar to the one pictured above will enable the College Woodwork to expand and also house light industries designed to provide maximum earning opportunities for students.

Conference High Lights

Newfoundland—

A Warm Welcome to the New President

On March 20 and 22 the Newfoundland Mission Conference committee held its annual Spring session and audit. We were happy to welcome a full representation from the Field. In addition, we were blessed with the guidance of W. A. Nelson and E. L. Green, Canadian Union Conference President, and Treasurer. Pastor F. B. Wells, our youth leader for Canada, was also present, together with Pastor Philip Moores, President of the church in the Maritimes.

Attending the session for the first time was Pastor D. E. Tinkler, recently appointed President of the Seventh-day Adventist Church in Newfoundland. Pastor Tinkler brings to this field a rich experience in the departments of our work, and a most successful pastoral and evangelistic ministry. We welcome him warmly, and pledge again our wholehearted interest and participation in the work of the church and pray for him the Lord's continued blessing.

We were heartened by the encouraging reports from the various sections of our Island Field. Church buildings are being completed and being made ready for dedication later this year. The school programme is advancing. The evangelistic endeavours are producing results through public meetings, radio and television ministry, as well as through personal work.

We rejoice in a \$5,000.00 increase in tithe in 1958 over 1957, and this in face of the fact that 1958 was not a very

prosperous year for the Island. Accordingly the brethren are laying plans to increase the working force. We pray that this may be brought about very soon, for the harvest is awaiting the reaping.

Let me take this opportunity to thank each of you for the splendid work you have done. We appreciate the opportunity of having worked with you. As we leave we shall take with us a continued interest in the work here, and will pray for heaven's richest blessings upon the whole membership. May the Lord keep us all faithful to the task until He comes.

G. O. ADAMS

Our many friends who are acquainted with the beginnings of Adventism in Newfoundland will be happy to learn of the recent renovation of our church in the quaint and prosperous community of Catalina.

Back in the years 1914 to 1916 Pastor R. A. Hubley, at present a retired worker in British Columbia, commenced a very energetic work in Catalina. Among the first to be baptized in the salt water of the Bay were Sister Rebecca House and Sister Sarah Granger. These are still faithful members in the St. John's Church. Sister Rogers, at present living with relatives in Windsor, was also a charter Catalina member. It is encouraging to listen to her accounts of the beginning of our work in that section of Trinity Bay.

The old church, erected during those early years, had fallen into a disreputable state. However, it is now fully restored, inside and out, painted and varnished, and ready for public meetings.

We are indebted to Mr. James House, a recent convert through radio and Bible correspondence ministry, for his able efforts in reconditioning our Catalina property. We thank all who have had a part and solicit the prayers of all our members for the interests in and around Catalina.

New Sabbath Keepers

At our latest baptism in our new Bay Roberts Church, it was our joy to baptize into church fellowship Brother and Sister James House.

These faithful members received first knowledge of the Message through some literature distributed by Brother Chesley Batten, deacon of our Bay Roberts Church. The scattered papers suggested that readers listen to the *Voice of Prophecy* over radio. The House family did that. They learned that Elder Richards' messages were Bible-centered. They soon enrolled in the correspondence course and read themselves into the Truth. At that time they lived in a small village called Old Bonaventure on Trinity Bay.

After having kept the Sabbath for some time, and suffering much inconvenience at the hands of his neighbours, Brother House decided to move to Bay Roberts where his family could enjoy the benefits of a Seventh-day Adventist school. The Bay Roberts Church now enjoys the fellowship of the House family. We

Brother and Sister James House, recently baptized in Bay Roberts—direct converts through literature and radio ministry.

praise the Lord for the blessings of radio and the rich ministry of the *Voice of Prophecy*. May we all be more faithful in inviting our friends and relatives to listen to the Message for these last hours.

G. O. ADAMS

Rich in Years

It was a pleasure for the brethren and sisters in our St. John's Church to help Sister Mann celebrate the 90th anniversary of her birthday, March 14.

Sister Mann was born in Carbonear, Newfoundland, March 14, 1869, the daughter of a head constable in the Newfoundland police force. After some years the family moved to St. John's where Sister Mann married and made her home.

"Aunt Jenny", as the membership and community know her, accepted the teachings of Adventism back in 1897 under the ministry of Pastor Hersum. She, with a few others, were baptized in a lake near St. John's. She recalled the beginnings of our work on this Island—the meetings up on the second floor over the store, some of the first Lord's Supper services, the construction of our church on Cookstown Road which church has been the centre of our work in this area since the turn of the century—and through the years has rejoiced to see the Message grow throughout the world field.

Sister Mann not only rejoices but takes an active part in promoting the preaching of the Message. She is one of the most faithful attendants at all church services. She enters into the Investment Sabbath school programme every year. Last year the Lord blessed her with \$227.00. That was in her 89th year. Already this year she has raised two Minute man Ingathering goals and will with-

"Aunt Jenny" Mann, 90 years of age—rich in years, faith and service.

out doubt be instrumental in bringing more funds into the treasury through her faithful witness. We take this opportunity to say that we appreciate Sister Mann's faithfulness, and wish for her the Lord's continued blessing in her work with Him.

Dear Parents:

Last year your children had a wonderful time at camp.

May I invite them to another ten-day adventure in character building.

Entrust your child to us and we promise:

1. Experienced counsellors
2. Spiritual enrichment
3. Recreation
4. Fellowship

Plans already under way lead me to believe that July 23 to August 2 will be a wonderful experience for your camper.

Most sincerely
J. W. WILSON

LOVE UNLIMITED

It has a beautiful four-color cover and has some four-color illustrations inside. These two books, bound separately in cloth bindings, have sold for \$5. "Love Unlimited" during the rest of the year 1959 will be

ONLY ONE DOLLAR EACH
plus mailing charges.

In the past few years Seventh-day Adventists have used millions of copies of the special dollar missionary books—"Bible Readings," "God Speaks to Modern Man," "What Jesus Said," "The Desire of Ages," "The Great Controversy," and "Patriarchs and Prophets." The new book for 1959 is now ready for you. It is written by Ellen G. White, is filled with gripping and interesting truths, will not arouse prejudice, will open doors for other missionary work, will make many friends, and will point many to the Saviour. The new book is a combination of two well-known books, "Steps to Christ" and "Thoughts From the Mount of Blessing."

Use this coupon in ordering from your Church Missionary Secretary or your Book and Bible House.

Here is my order for LOVE UNLIMITED:
