# The Work of Soul-Saving. No. 1

If any work is more precious than another, it is the work of soulsaving. The same intensity of desire for the salvation of souls that marked the life of the Saviour, marks the life of His true follower. He has no desire to live for self. He delights to consecrate all he has and is to the Master's service. He is filled with an inexpressible desire to win souls to Christ. Those who have nothing of this desire might better begin to feel concerned for their own soul's salvation. Let them wrestle with God in the name of Jesus Christ of their birth I must do all in my Nazareth for the spirit of labor.

To secure your present and future good, Christ gave Himself as a sacrifice. Will you draw back from making a covenant with God by sacrifice? Christ died on the cross to save the world from perishing in sin. He asks your cooperation in His work of soulsaving. You are to be His helping hand, to do in this world the work that needs to be done, to place the truth before as many as possible. "Ye are not your own; for ye are bought with a price; therefore glorify God in your body, and in your spirit, which are God's."

Refuse to admit the worldy interests that strive for supremacy in your life. Regard yourself as pledged to Christ's service for time and for eternity. Enter into no business that will make you indifferent to His claims. Say to those who seek to draw you from His work: "I am not my own; Jesus has house may be filled."

bought me. I belong to Him. Every particle of my influence is to be used to magnify the principles of His law. God is mine, and I am His, united to Him by a perpetual covenant of service. I must devote myself wholly to the service of the Lord God of hosts. He has put it out of my power to give Him anything that is not already His. Every part of my being, every talent, every faculty, belongs to Him. If I had more than one life, I would give it to Him; for it would be His. My children belong to God. From power to train them for Him, that in their lives He may be glorified."

I have a message for all our people. They must awaken, spread their tents, and enlarge their borders. Men and women must act an earnest part in saving souls. The present state of things must be changed. Our church-members must awake to the situation, and begin work where they are. Everywhere are persons who know not the truth.

We are living in solemn times. The world is to be warned. Workers are needed. The money God has entrusted to men of the world. is needed. The truth is to be taken to these men, that they may see the duty the Lord has placed on them. Those belonging to the class called moneyed men have been neglected. # The Situation in Barbadoes

Affairs are in a most terrible state just now in this poor, stricken, quivering, throbbing isle of the sea. Ruin stares the whole West Indies in the face, owing to the sugar crisis. Everyestate is being worked at a heavy loss, and complete ruin, panic, and starvation have only been averted by imperial grants and Many formerly well-to-do loans. and even wealthy people have been ruined, and the suffering of the masses is entirely beyond description.

All this is now intensified by an epidemic of smallpox that is raging. The community seems to be hopelessly in the clutches of the dread disease. There are now more than one hundred cases and a number of new ones develop daily. Deaths are frequent, and the bodies are thrown into the sea. The people are very ignorant of the disease. They hide their friends who take it, spite all these forbidding circumthus spreading it, and mob the doctors and the sanitary officers who try to take the patients from them to the pest-house. Oh, that we might be able to point them all to the only Source of complete deliverance! But, alas, so few will listen to the message of hope!

All our canvassers are at present in Barbadoes, and of course are shut up here with nothing to do, and we do not know when they will be able to get away, as no other colony will allow any one from Barbadoes to land. Our meager means is all that stands between some of our own people and starvation. It is only a drop in the bucket compared with the misery, but, as far as it goes, is dedicated to the cause of the Master in the persons of His suffering ones. Our people throughout the states, many of them lacking nothing on their fruitful farms, or earning good wages, would pour out of their means to help the cause in these needy fields if they could see and hear what we do.

Brethren, it drives sleep from our eyes as we realize that within a radius of a mile from our home many thousands are enduring the most crying want, hunger, and sickness, and we are powerless to help

them. Words are absolutely inade- South America as a Mission Field quate to describe the existing conditions here. We are sent for from all directions by total strangers to pray for and with them in their wretchedness and misery. Last night we responded to two such calls after dark, and what we saw will never fade from our minds. Nine persons, some of them sick, were crowded together in one hovel eight by nine feet, and this is only one of thousands of similar circumstances-dark, narrow, foulsmelling alleys, literally swarming with human beings, beings for whom Christ died, and whom God loves, some of whom we are snatching as brands from the burning, to be trophies of His saving grace and power.

None of our people have taken the disease so far, and we are hoping and praying to be spared to the honor and glory of His name and cause. I am glad to say that, destances, our work is prospering and ignorance by the Catholic religion. making some advancement. The church-members are almost all earnest and active in the various lines of church missionary work. No phase of our work has as yet been interrupted. The church is packed and surrounded by interested listeners on Sunday nights, and some are deciding almost every week to obey God, and many more are studying. There will be quite a large class to be baptized at the next quarterly meeting.

#### W. A. Sweany.

This letter from Brother Sweany only shows one phase of the experience of our missionaries. By faithfully using our little envelopes each week, we may share in this glorious work of giving the message of deliverance and hope to these benighted souls.-Mission Board.

# **Our Prayer**

"More purity give us, More strength to o'ercome, More freedom from earth stains, More longings for home; More fit for the kingdom, More used would we be,

More blessed and holy. More. Saviour, like Thee."

All who have watched the movements of the third angel's message in South America have no doubt as to the truth of its being a missionary field.

In 1894 Brother Bishop and myself landed in Valparaiso, Chile, to enter the book work. Not being acquainted with the people or their language, it was not smooth sailing at first, but God gave us faith to go forward. We soon found that God had sent His agencies before us, and we were "entering into other men's labors." More than thirty years ago the Presbyterians entered Chile and have been successful in selling thousands of Bibles and establishing churches and book depositories.

One young man from the higher class who became interested in the Bible gave me his order for "Patriarchs and Prophets." He soon afterward became convinced of the fallacy of the Roman religion and was baptized with his wife. This was quite a sacrifice for him, as he had been brought up under the Roman doctrine. His mother being an intimate friend of the archbishop of Chile and of the richer class, it took him some while to decide.

He is now one of the leaders of our little church in Iqueque. During his stay in Europe he visited the Vatican, to see the pope. One young man who had traveled as colporter in several of the South American republics embraced the truth in Santiago, the capital of Chile, established a good congregation, and is at present in Lima, the capital of Peru, having good success. Peru and Bolivia have only been touched, and thousands of places know nothing of the Protestant religion, only as the priests have taught them to hate it. # How Young Teachers May Be Trained for Effective Work

How young teachers may be trained for effective work is not a question of little importance, but it is a question of vital import. For the Sabbath-school is the nursery of the church, where the children of the kingdom are prepared for the weightier struggles and heavier responsibilities that come with the advancing years of Christian experience. Another has expressed it thus: "Let the Sabbath-school nest be a delightful place, and the little resting upon them. The teachers birds will not be likely to fly far from the home church."

# California Librarians. Attention

We have just prepared new statement report and remittance blanks for the use of our librarians. Please note carefully the changes that have been made in the same.

According to present arrangements, the church librarian will handle only the moneys received for publications,-books, papers, magazines, and tracts, -the moneys received from the sales of "Christ's Object Lessons," and the moneys to be sent to the California Tract Society as donations to the Fund for the Free Distribution of S. D. A. Literature, and to the Fund for the Aid of Worthy S. D. A. Canvassers.

All moneys for foreign missions, first-day offerings, Sabbathschool offerings, annual offerings, Christiania Publishing House, Home of the Friendless, southern field, Australia, etc.; all moneys for "Christ's Object Lessons" Material Fund (Relief of the Schools); all moneys for special donations not connected with the work of the California Tract Society, should be paid to the church treasurer, and forwarded by him, not to the tract society, but to the California S. D. A. Conference, Oakland, California.

We are thankful that these arrangements have been made, for our librarians will now be able to devote their whole energy to the circulation of our literature, and to the work of encouraging our churchmembers everywhere to engage in the same with all their strength.

The work in the interests of

In the Santa Clara Valley Elder pushing the work, with good results. Something over a thousand books have been placed with the church-members there. And for the sale of each book some one has become responsible. These books are being disposed of right along. With the members of the Oakland church Professor Derby has been doing faithful work, assisted by Brother Albrecht. Something over 1,000 books have been taken by the members of the Oakland church, Brother C. G. Marchus has been accomplishing a good work among the members of the Laguna Street church, of San Francisco. Some 700 books have been taken by the members of Elder Richards has the church. brought his flock at the Valencia Street church up to the mark of a full quota. About 1,000 books have been taken in the Napa Valley. In Humboldt County, through the efficient work of Elder Gardner and Brother Marchus, 1.480 books have been taken. which is the full quota for that In Sonoma Valley there district. are something over 1,500 books placed with the churches. A good work has also been done in the San Joaquin Valley by Brethren Thurston, Gauterau, and Bond. Something over 1,000 books are also placed in the churches of this valley.

About 9,000 books have been placed with the churches during this last campaign; still no aggressive work has as yet been undertaken in the Sacramento Valley. Brother Halliday has done a splendid work in going right out selling the book. He has thus been able to sell about 150 volumes. We are by no means discouraged in this work, but can see that God is blessing in a remarkable way the work and workers.

#### Canvassers' Items

Brethren Steel and Coy, students from the Walla Walla College, did a good work in Montana this season.

Sister Stem and Brother Drake, of the California Conference, are doing an excellent work in and around Fresno.

Brother and Sister H. E. Loop, of Western Washington, have had excellent success in taking orders for the medical books, "Home Time hastens on. The souls I see Handbook," and "Ladies' Guide."

P. R. Albrecht, state agent of the California Conference, has charge of the "Object Lessons" work in the city of Oakland, and is pushing the Time hastens on. The names are sown work forward as rapidly as possible. Upon the page of death and doom.

### Send Me

Time hastens on. The noonday's heat Is softening into eventide,

The reapers bind amid the wheat, And yet the fields unreaped are wide. The harvesters are weary. Say, Why do we stand in long delay? Master, see. Here are hands for Thee.

Can'st Thou not use them? Oh, send me!

Time hastens on. The battle strife Is fierce I hear the clash of arms, With shouts of combat all is rife,

My heart is faint with dire alarms. The Captain calls for volunteers; Why do we stand apart with fears? Master, no coward's part be mine. Send me to aid this cause of Thine.

Faint for the bread of life divine,

Yet there's a fountain flowing free That pours with love's unfiltered wine.

The vessels stand with flowing brim. Say, shall the dying eyes grow dim ? Master, I will no longer wait, Send me before it be too late.

Can one more name be traced upon

The book of life? Time's settling gloom Is thickening. Is there one more soul

Who'll turn before the trumpet's roll? Master, if one Thou seest, see,

Time hastens on. And yet there waits A day, an hour, a moment's space. What is it so our step belates

To speak the Saviour's loving grace? J. W. Posey, state agent of the Here, though He needs not me or you, We need the work He has to do. -Selected.

#### Consecration

Are you satisfied with your experience? Your pleasant pursuits, your harmless recreations, your nice occupations, even your improving ones, what fruit are you having from them? Your social intercourse, your daily talks and walks, your investments of all the time that remains to you over and above the absolute duties God may have given you, what fruit that shall remain have you from all this?

Day after day passes on, and year after year, and what shall the harvest be? What is even the pres-ent return? Are you getting any real and lasting satisfaction out of it all? Are you not finding that things lose their flavor, and that you are spending your strength day after day for nought, that you are no more satisfied than you were a year ago, rather less so, if anything? Does not a sense of hollowness and weariness come over you as you go on the same round, perpetually getting through things only to begin again? It can not be otherwise. Over even the freshest and purest earthly fountains the hand that never makes a mistake has written, "He that drinketh of water shall thirst again." this Look into your own heart and you will find a copy of that inscription already traced, "Shall thirst again." And the characters are being deepened with every attempt to quench the inevitable thirst and weariness and rested in full consecration to God. For "Thou hast made us for Thyself, and the heart never resteth "Shall never thirst"-a life that is no dull round-and-round in a circle There will no soul appear in the of unsatisfactoriness, but a life that

A comparatively little effort done at a part of the education of youth. once may be better for the cause of religion than ten times as much labor ten years afterward. If one soul is saved and set on the road to heaven, it is better than to wait in uncertainty for an opportunity to save ten. The condition of sinners is desperate, and what is done for them must be done promptly. Like shipwrecked men, they must be rescued soon or it will be too late. # The Use of Ears

The need of this age is for more listeners and fewer talkers. Youth and inexperience are more anxious to air their own opinions than to listen to the opinions of those who counsel, and are deaf to entreaties from those who seek to turn them from dangerous paths.

Many keep their best thoughts to themselves "for lack of listeners," and "were we as eloquent as angels, we should please some men, some women, and some children much more by listening than

The art of listening should be They should be trained to fix their attention, to lend their ears, and to put themselves into a receptive condition.

It is difficult to remember the sermon, or even so much as the text, because the mind wanders and the attention is easily diverted. The habit of listening enables us to overcome these evils, or at least to control our thoughts; and as an attentive listener is a great inspiration to a speaker, the audience may deserve some credit for the successful delivery of a discourse.

We all know how difficult it is to express ourselves to those who do not care to hear the sound of any voice but their own. What a comfort and help it is to find a sympathetic listener! Fortunately, there are a few of this sort who lend a willing ear, whose eyes kindle, whose cheeks flush, whose lips are silent, and who listen as if under a spell. It is safe to assume that those who have paid such rapt attention will grow in knowledge, will profit by what they hear, and be able to repeat a message with accuracy.-Our Young Folks.
