MAPLEWOOD (MINN) ACADEMY

O. O. BERNSTEIN

Maplewood Academy, which is located at Maple Plain, Minnesota, twenty miles west of Minneapolis, was founded,

The discipline and government of our school is the best and the thoroughness of our work is shown by the fact that in the ninety-one state examinations taken by our students last June over eighty per cent passed.

A farm of ninety-three acres is connected with the school. Forty acres of this is covered with thick timber, a large portion of which is sugar maple—hence our name "Maplewood."

Fruit growing is the main industry of this locality. The school-farm has seven acres of raspberries, four acres of strawberries and an orchard of about four hundred trees.

Two hours' industrial work is required daily of each student for which an allowance of five dollars is made thus reducing the student's monthly expense to ten dollars. Board (three meals per day), tuition, rooms, light, heat, laundry work etc., is covered by the ten dollars.

Our main building is 40 x 44 feet, three

MAPLEWOOD ACADEMY

without debt, by the State Conference of the Seventh-day Adventists in the year 1904.

The grade of work done here is similar to that of other intermediate schools. We complete such subjects as are necessary to secure a first grade teacher's certificate.

RICE LAKE AS VIEWED FROM TOP OF ACADEMY

and a half stories high. The basement contains the kitchen, dining room, store room, and furnace room.

The girls' dormitory, soon to be finished, containing twenty-seven rooms besides the basement laundry room, is 30 x 24 feet three and a half stories high. We are planning for a boys' dormitory later.

The buildings are heated by hot water. The timber protects us in winter from the cold north winds. We have a lake view southward.

The Academy entered upon its second year's work October 4. Our enrolment is forty-five. We have forty-five additional applications for admission by students who will enter during the next six weeks.

The aim of our School is to prepare students for college or for immediate usefulness in advancing the Third Angel's Message. The following named persons compose the Maplewood faculty:—

O. O. Bernstein, Principal; Harold J. Sheldon, Preceptor; Miss Caroline Hopkins, Preceptress; Miss Wavie Tubbs, fourth teacher; Mrs. Myrtle Berastein, Instructor in Instrumental Music; Miss Lena Rosenthal, Matron; Charles L. Emerson, Farm Superintendent.

UNION COLLEGE SPECIAL COURSE

Union College expects to hold a Special Course for Christian Workers sometime during the present school year. Until recently it was thought the time would be December 1; but the week of prayer and the missionary campaign would prevent the attendance of a large number of the very workers for whom the course is intended. January would be a good time, but the meeting of the Central Union Conference beginning a little after the middle of the month would prevent the workers from attending the school. Hence it has been decided that February and March will be the

most favorable time. In due season a descriptive circular will be issued giving full information in regard to the school. Keep the matter in mind, and lay your plans to attend.

ENROLMENT OF STUDENTS FOR 1905-1906

(Continued)

COLORADO: Eugene Rowell, Nora D. Hoover. IOWA: Earl Lower, Curtis C. Rentfro, Floyd Fraser. ILLINOIS: Hugh Teesdale, William H. Teesdale. KANSAS: Sarah Gaede, L. E. Westermeyer, Isaac Schmidt, Augusta Schneider, Hannah Reinhardt, Emma Schmidt, Arthur C. Dick, Peter Kraus, Raleigh K. Andrews, M. Jeanette Hardiman, Mollie Meier, Will J. Maxson, Mrs. B. E. Huffman. LOUISIANA: O. K. Frank. MICHIGAN: Mrs. Jessie M. Murphy. MISSOURI: J. F. Allen, C. Elmer Hough, Ferdinand: Kugel, Arthur R. Smith. NEBRASKA: LeRoy Nicola, Martin Anderson, Henry Anderson, Bernhard Peterson, O. E. Johansen, Emma Pease, Lulu Pease, Ural Schmaltz, Julius Johnson, James Johnson, Ray Hill, Nellie Orr, Etta Bickert, Bessie Russell, Otto H. Black, William Eden, Andrew C. Nelson, D. L. Friend, Richard Glatter, Hattie Valentiner. NEW YORK: LeRoy Mattson, Anna Anderson. NORTH DAKOTA: Esther Hanson. SOUTH DAKOTA: Leslie Christy, Nathan J. Aalborg, Eugene Hinds, Ethel Carrier, Elmer R. Nelson, Geo. N. Nelson. TEXAS: Walter E. Hancock, John P. Lorenz. WYOMING: Thos. C. Nethery, Carrie Berglund.

"It is not the highest work of education to communicate knowledge merely, but to impart that vitalizing energy which is received through the contact of mind with mind, and soul with soul. It is only life that can begot life."—*Great Controversy*, p. 250.

REPORT OF CANVASSING WORK

I have looked over the published canvassing reports of the Missouri Conference for the past four weeks and observe that a number of the workers are meeting with remarkably good success in selling our books. I can not insert the entire report in this letter, but have selected the names of seven persons from the report showing the number of hours work and the value.

NAME.	HRS.	VALUE.
Mrs. E. A. Halladay,	138	\$718.75
G. C. Stephens,	135	364.75
Mrs. C. G. Bellah,	76	241.00
C. G. Bellah,	108	607.00
H. W. Stein,	49	128.00
R. S. McLain,	83	133.50
Flossie Foster,	125	114.50
	714	\$2307.50

The people who entertain the idea that our books can not be sold certainly would be convinced otherwise if they should see this report. These seven persons average nearly three dollars and twenty-five cents per hour for the time put in. With the exception of possibly one, the parties above named make the book work a business. Some of them have done nothing else but sell books for the last four or five years.

I am of the firm conviction that herein lies the secret of their success, or largely so. They entered the work with the intention of remaining with it, and the Lord is greatly blessing them. We have scores of brethren and sisters in all our conferences who can do just as well as the parties herein named.

Yours in the work,

JAS. COCHRAN.

WORD FROM ENTRE RIOS, ARGENTINA

The following extracts from a personal letter from Prof. Arthar Fulton, a former Union College student and now a missionary teacher in South America,

will be of special interest to many of our readers.

M. E. K.

"Our school here is just drawing to a close, while your school year has just begun. It would seem pleasant to step back into old Union College again, but with so many strange faces it would be quite different from '98. Our class is quite well scattered; most of them are active in giving the message to this last generation, however.

"I am planning a campaign with our Spanish paper this vacation.

"We have put up two more rooms this year, and are building a cellar and store room, also a shed for the bees. Our orchard has grown wonderfully this past year; our peach trees are full of young peaches.

"We were glad to meet Miss Segebartt last week. The school gave her and Prof. Lude a nice wedding last Sunday night.

"We have so many remembrances here of Union College. Two of our young men are being helped by the fund sent by the young peoples' society there. We are led to think of you all often, and I plan to write to so many, but never get started. After the printing press came this year I helped in the office from four to seven hours a day until the first papers were out, then began the campaign selling the papers and taking subscriptions on Sunday, holidays, and evenings. In this campaign we have done a good work. Our little girl was sick for some time. She is now seven months old and a great comfort to us.

"Give my regards to all the old friends."

"ADDRESSES FOR YOUNG PEOPLE"

The new book for the youth, entitled "Addresses for Young People," by President C. C. Lewis, of Union College, is ready for delivery. The titles of the addresses are as follows: 1. Christian Manliness. 2. Reason, Revelation, and

Faith. 3. Manual Training in the Public Schools. 4. Ideals and Ambitions. 5. The Sure Foundation. 6. A Higher Standard of Christain Education. 7. Workmen Approved of God. 8. The Art of Questioning. 9. Acquaintance with God. 10. Habit and Education. 11. Behold He Cometh. 12. The True Sabbath. 13. The Keeping of the Heart. The book is handsomely and durably bound in dark blue cloth, with side and back titles in white. No more appropriate birthday or holiday present for a young woman or man could be procured.

Price, postpaid, \$1.00. Five copies for \$4.00, carriage prepaid. Liberal terms to agents. Address all orders and inquiries to—

UNION COLLEGE PRESS,
College View, Nebraska

DEATH OF CLARA GEORGE

Miss Clara E. George died at the home of her father, L. A. George, in College View, Neb., Oct. 30, at the age of 23 years, 8 months, 27 days. She was born at Canton, Kans., and moved to College View with her parents when a young girl. She attended school continuously and graduated from the Scientific Course of Union College with the class of '04. Previous to her graduation she taught in the Art Department of the College, and continued in that position till failing health called her from her work.

A year ago last summer indications of tuberculosis appeared, and a few months later it was thought best to change to the climate of Colorado. Consequently she went to Fruita of that state. Unfortunately, she contracted typhoid fever there, which greatly aggravated her condition. Later she went to Buena Vista Colo., and when it became apparent that there were no hopes of recovery, Mrs. George brought her daughter home to College View, where she has been for the past two months.

A few days before the close, she said, "I am hoping for my life to be spared that I may gather a few sheaves for the Master, but am willing that His will be done. He knows the future and what is best for me."

The immediate relatives are the parents, Mr. and Mrs. L. A. George, three brothers, Dr. W. A. George, of the Nebraska Sanitarium, Dr. A. W. George, of Constantinople, Turkey, and Glenn George of Crawford, Neb., and two sisters Mary George of College View, and Zada George, of Battle Creek, Mich. All except Glenn George, who visited his sister a short time previous to her death, and Dr. A. W. George, were present at the funeral.

The services were conducted by Pres. C. C. Lewis of Union College, assisted by Eld. J. S. Hart and Prof. M. E. Kern. The faculty and students of Union College adopted the following memorial:

"As the hand of death has taken from our midst Miss Clara E. George, we, the teachers and students of Union College express our appreciation of the privilege of past associations with her and of her years of faithful work as a student and teacher in our school. Especially her love and zeal for the cause of Christ have left their impress upon our minds and hearts, and though her life of usefulness is seemingly cut short we believe its influence for good will still live on. We extend to the sorrowing relatives our heartfelt sympathy and condolence, and join with them in mourning the loss of one whose patient, kindly, and ennobling example will be missed by all who knew her."

"Men are reasoning rather than reasonable animals, for the most part governed by passion."—*Hamilton*.

"Pleasure worth the name must be innocent, and must come only as a relaxation from work. To give one's self to it is to miss it in any true sense."—*Geikie*.

SHE COULD AND SHE COULDN'T

She was up in hydrostatics, had her own views of dogmatics,

She could talk to you of Sanskrit and in Hebrew was not slow;

She had theories artistic, she had dabbled in things mystic;

She could point out flaws in Darwin which a tyro ought to know.

Kant and Hegel, Comte and Spencer—before these she swung her censor,

While she told in radiant rapture of the truths she'd learned from them;

But she didn't know beef from mutton, and she couldn't sew on a button;

Neither could she tell the difference twix a featherstich and hem!

—*Indianapolis News.*

THE CAUSE OF ONE SOCIETY'S SUCCESS

The following extract from a personal letter from the leader of one of our large young people's societies strikes a key note in this work.

"Our young people's band is on a pretty firm foundation, I think, and we are beginning to see some results in our own church. I felt as though our first work should be among our own people, our young people who had become indifferent. I urged strongly *individual work*, and I believe that was the one thing that started them on the right track. I am very glad you recommended Trumbull's book 'Individual Work for Individuals' to me. I read it through and received much help from it. Another book I found of great help, and which I left with the band to read was Havergal's 'Kept for the Master's Use.'"

M. E. K.

CARD OF THANKS

TO THE STUDENTS AND TEACHERS OF UNION COLLEGE: We wish to give our sincere thanks and heartfelt appreciation for their thoughtful cheer and comfort during the sickness and death of our loved Clara.

MR. AND MRS. L. A. GEORGE AND FAMILY,

REMEMBER THE SPECIAL NUMBERS

OF OUR FOREIGN PAPERS

The International Publishing Association, at College View, Nebraska, will concentrate their whole effort in one number of the German, Danish-Norwegian, and Swedish papers, instead of four numbers, for the missionary campaign this fall. They are planning to get them out about the time of the second numbers of the series of the *Signs of the Times*. The foreign papers will have a choice collection of articles from our best writers on The Second Coming of Christ, Saints' Inheritance, Last Message, State of the Dead, the Sabbath, Sunday Laws, Characteristics of the Last Church, etc. These special numbers will be finely illustrated, containing twenty-four pages and cover, which will make them valuable papers for circulation and good sellers. All of our readers should order a supply of these papers for their friends and neighbors who read either of these languages. Price, five cents each; ten or more, three cents each. Order of your Tract Society, or of the Publishers.

SUPPLY AND DEMAND

A rich man sat him down one night to dine.

Rare was his food, superb his priceless wine.

A poor man, hungry, lurked without the gate,

And craved a crumb from off the rich man's plate,

Yet neither rich nor poor man ate that night;

One had no food, and one no appetite.

—*Selected.*

"There are great problems confronting our work. But how few have had their minds trained to grapple with problems, or have a foundation of knowledge sufficient as a basis for logical conclusions."

—*Anon.*

SCHOOL CHILDREN'S NUMBER OF "LIFE AND HEALTH"

The special November number of *Life and Health* is so called, because it contains matter pertaining to their health, habits, and conduct; also other topics naturally associated with their interests.

The following partial outline of contents reveals its practical mission to the public in connection with the health and development of the millions of children and youth in school:—

The Health of Children from a Physician's Standpoint; Play, or Useful Recreation Necessary to Perfect Development of School Children; The Daughter in the Home—setting forth the importance and power of early home training; The Teacher's Boarding Place—illustrating the principles of health reform and the power of influence; School Lunches—of what they are to consist and how to prepare them; The School a Home, and the Home a School; My Lost Baby—a beautiful poem; At What Age Should a Child Begin to go to School? The Primary School Teacher—emphasizing that old and true saying, "The hand that rocks the cradle is the hand that rules the world;" Should Schoolgirls Receive Attention from Young Men?—reasons for not doing so, with remedies and suggestions; Sparkling Editorials on School Hygiene; Loss of Appetite—how to restore it; Lack of Proper Nourishment resulting from "pick-up" lunches; Useful Work and Recreation Necessary Out of School Hours; Prevention of Diseases in the School-room; Tobacco Using; News Notes—containing information on important advancement in sanitary science and public health; Questions and Answers—on such topics as Glasses for Small Children, enlarged Tonsils, Playing Crossed-eyed, Cause of Crossed Eyes, Catarrh, Consumption, Cause of Chorea, Is Chorea Contagious? Chorea in Public Schools, etc.

A thousand bright boys and girls can

find remunerative occupation in selling this number. Those handling it report an average profit of 25 cents an hour. The average profits of adult agents is reported at 37 cents an hour.

PRICES

Single copy, 5 cents, twenty-five or more copies to one address, 2½ cents a copy, or \$2.50 a hundred. A liberal commission is allowed agents on yearly subscriptions. Correspondence is solicited. Address any State Tract society, or Life and Health, 222 North Capitol St., Washington, D. C.

UNION COLLGE BLACKSMITH SHOP

We are glad to be able to announce the reopening of the College blacksmith shop, which has been closed since last spring for want of a blacksmith. Arrangements have been made with Brother J. W. Logan, of Stanley, Wisconsin, to conduct the shop for the next two years, while he is pursuing a course of study in the College. Brother Logan has worked at his trade twelve years in and around Boston, Mass., and seven years at Stanley, Wisconsin. He is a specialist in horse-shoeing, and gives careful attention to the shoeing of lame horses. He is a practicing student of the McKillip Veterinary College, Chicago, Ill. The shop will be open from one to six p. m., except on the Sabbath (Saturday). The shop is being enlarged, and fitted up for general work.

We bespeak for him a liberal and growing patronage.

A GOOD EXAMPLE

The young people of the Pacific Press have set other young people a good example in this missionary campaign work. A report from Mountain View says:—

"A week ago Wednesday our publishing house closed down the larger part of the day, and nearly all of our employees spent the time soliciting subscrip-

tions for the *Signs*. Every town and village between South San Francisco and San Jose was thoroughly worked. A wheel brigade took the country between the mountain and the bay, and between Palo Alto and San Jose." M. E. K.

A SOUL DESTROYER

A deadly enemy is abroad in the land,—the cigarette. It wrecks our boys and young men, physically, mentally, and morally. Efforts are being made in many states to stop the work of this soul destroyer by law, but the fight is a hard one.

Seventh-day Adventist young people ought to be in the forefront of this great educational campaign against liquor and tobacco. No doubt many of our youth, could do a good work with the little paper *Save the Boys*. The November number has many good things in it, and is offered for \$1.50 per 100. The paper sells for 5 cents. Address "*Save the Boys*," Washburn Park, Minneapolis, Minn.

OPPORTUNITY FOR TEACHERS IN CHILE

In a recent letter from Eld. F. W. Westphal, he says:—

"One thing I can say, the way is open in this country for missionary teachers. Brother Bishop says that if he understood the grammar well he could command good wages teaching English, for there are many who want to learn that language.

"The way to give private instruction is always open. I was reminded of that fact a few days ago when I was in Victoria. There were a number of articles that appeared through one of the secular papers on the church and school question. The infidel blazed away at those who profess Christianity, and the professors of religion responded in much

the same spirit. I wrote an article on religious liberty and church and school, and they published it; and it won for us many friends. I met some of the school board in Victoria, and they wanted me to teach English in their school. It is quite a large private school. I told them that I could not be there enough to satisfy the demands of the students, for I had to travel a good deal." M. E. K.

GOOD WORDS FOR THE "MESSENGER"

The publishers, (the Union College Press), quote the following from the November issue of the *National Printer-Journalist*, one of the foremost typographical journals of the United States. While the wording is a little technical, as it considers the MESSENGER from a purely typographical standpoint, yet we think our readers will catch the meaning, and excuse a little pardonable pride which we take in publishing these extracts.

"The MESSENGER has improved since we last saw it, and the typographical styles therein are now all quite commendable. Especially is the cover page neatly arranged, each issue enjoying a change. We like the face employed in the MESSENGER'S dress, and the omission of punctuation in the heads shows good taste. The plain rule dashes between articles beat any ornament to our eye, and the general make up is neat and all right."

TRANSFER OF SANITARIUM PROPERTY

Early last summer a plan was proposed for raising several thousand dollars to make necessary and long-neglected improvements at Union College. Some steps had been taken to carry this plan into operation throughout the Central Union Conference, and a few donations had been received, when the suggestion was made that the building and grounds

which a few years ago had been leased for a term of twenty years to the Nebraska Sanitarium, be sold to the recently organized Nebraska Sanitarium Association, in affiliation with the Nebraska Conference. This plan carried into effect, would furnish means needed for improvements, and hence all efforts to raise the necessary funds by donations were stopped. The negotiations proceeded slowly but surely until finally they were consummated by the formal signing of the legal papers on the evening of November 1. In this transfer the property is deeded by the Central Union Conference to the Nebraska Sanitarium Association. Furthermore, the grove back of the Sanitarium building is leased by the Central Union Conference to the Sanitarium and the College jointly for an indefinite term of years, the managers of these institutions agreeing to unite in fitting up the grove for a park and an out-door gymnasium for the benefit of the patients of the Sanitarium and the students and teachers of the College.

As one result of this transfer the College is able to finish off rooms on the fourth floor of the main College building needed to accommodate students who have already arrived and others who are expected to come in the near future. As further result of this transfer, the debt of the College has been materially reduced; so that it is believed by the managers, the College will be able to work off the remaining portion of the debt without embarrassment in the next few years.

In all these negotiations, culminating in the happy result already described the utmost harmony and good feeling have been maintained, and the two institutions are now more closely united, if possible, than they ever have been in the past. Both institutions have before them large fields of usefulness, and by this transfer both institutions are better

able successfully to carry forward their work.

MISS SEGEBARRTT'S WEDDING

What the MESSENGER hinted at last summer in describing the departure of the Matron of Union College for South America has taken place. Miss Carrie Segebarrrt was married to Prof. C. D. Lude, at Diamante, Argentine, Sunday, September 10.

No marriage is legal in that country unless performed by the Catholic church or by a civil magistrate, hence the legal ceremony was transacted in Buenos Ayres, September 5. They took a boat for Diamante, September 7, which place was reached Sabbath morning, September 9. It was about two hours' drive from the landing to the school. Mrs. Lude writes that she was happily surprised to find the school so clean and home-like. It was the only place that they had passed which had trees around it. First of all there was a lovely young peach orchard in full bloom. The school building is perfectly white. It is all on one floor, and is built in the form of a square about an inner court, the court being open at the rear. The front part is for school work and the sides are for living rooms.

Of course the coming of the bride and groom was a great event at school. Every body was out early. Some climbed the windmill to catch the first view of the bridal party, and upon their arrival the whole school came to the wagon to greet them. The bride found everything arranged nicely, far beyond her expectations. The wedding took place Sunday evening in the dining room. There was no lack of effort on behalf of anyone to make it the grandest and nicest event that had ever been seen in that part of the country. They spent a whole day in gathering flowers for the occasion. There were easter lilies, flag lilies, pan-

sies, violets, orange blossoms, roses in various colors, and several other kinds of flowers peculiar to the country. A banquet followed the ceremony. The people from the surrounding country were invited in, as this was to be a model of what a Christian marriage ceremony should be. Among the guests were about a dozen of rough Spaniards, corresponding to the cowboys of the United States, they came in their usual appearance with their knives at their sides. Those in charge of the school wanted the people to see a model wedding. Everything was simple but neat. The bridal company marched into the dining room and were seated under a beautiful canopy of decorations. Elder Westphal gave a short talk and performed the ceremony. After this came the banquet, and following a musical program for about an hour. Professor and Mrs. Fulton were highly pleased at the success of the exercises. They believe that a good impression was made upon the people of the country for many miles around.

Teachers and students of Union College will be delighted to know that their former Matron is well pleased with her new home. She finds a large and important field of usefulness, and is encouraged to know that her efforts are much appreciated.

THERE IS A VALE

EUGENE ROWELL

There is a vale so bright and fair,
And oh, there comes no sorrow there.
There falls no shade, there drives no storm
No griefs dismay, no fears alarm.
That quiet vale is peaceful still,
And sheltered by the heavenly hill,
There weary souls find blessed rest,
And troubles cease within thy breast.

And oft that vale mine eyes have seen,
Across the desert drear between.
In darkest hours its mission bright
Has shone on my despairing sight.
Oh, hearts that mourn, oh weary feet,
Press on, thy rest is sure and sweet;
Tho' dark and wild life's storms may be,
That quiet vale shall shelter thee.

Home Improvement Courses

GENERAL CULTURE COURSE

John G. Paton, Missionary to the New Hebrides

NOTE—These preparatory years in the mission work in a great city are full of helpful suggestions to Christian workers, and reveal a great deal of the character of the man whose life we are studying. Read the chapters carefully, and review by use of the questions.

IN GLASGOW CITY MISSION

1. What does Mr. Paton say of the value to his future work, of the work he did after leaving Maryhill school?
2. What good qualities for a Christian worker did he show in saving the little mission from abandonment after the first year?
3. Explain the growth of the work, and how a permanent place was obtained for it.
4. What different lines of work were carried on by Mr. Paton and with what result?
5. Give his idea of temperance.
6. How did he train young people to work?
7. What opposition came from keepers of public places?
8. Note the experiences with infidels and Romanists.
9. What was Paton doing to further prepare himself for service all the while he was in the mission work?

FOREIGN MISSION CLAIMS

10. Relate the circumstances which led to the selection of Mr. Paton as a missionary to the New Hebrides.
11. What oppositions were met after the decision?
12. Under what financial burden did Mr. Paton labor up to the time of his leaving for the mission field?
13. What interest did many of the young men of Mr. Paton's classes show in the foreign mission work?

OLD TESTAMENT HISTORY

NOTE.—A topical outline to be used as a guide in study and review will be given for each lesson. This, with a few helpful suggestions, will be all that can be given, owing to the amount of reading to be done. Spare no pains to fix in memory the periods of Old Testament history given in the last issue. If the students will also fix in mind the outlines given, a good general knowledge of Old Testament history will be had when the work is completed. No better ground work can be formed for the thorough study of the doctrines of the Bible. All who can possibly do so should read, in connection with these lessons "Patriarchs and Prophets."

Antedeluvian Period. Creation of Man to the Deluge. P. and P., chaps 1-6.

1. Creation. Gen 1:1-2:3.
2. The Eden home. Gen. 5:4-25.
3. The temptation, fall, and plan of salvation. Gen. 3.

Note how the whole controversy between good and evil is summed up in verse 15. This is sometimes called the "Acorn promise," from which the Gospel tree has grown.

4. Cain and his descendants. Gen. 4. "Cain and Abel represent two classes that will exist in the world till the close of time."—*P. and P.*, p. 72.

5. Seth and his descendants. Gen. 5. Make a chart of the patriarchs from Adam to Noah showing the length of the life of each one and who were contemporaneous.

Concerning what great event did Enoch prophesy? Jude 14.

Post-deluvian Period. Deluge to Call of Abraham. P. and P., chaps. 7-10.

1. The deluge. Gen. 6:1-8:14.
2. The second beginning. Gen. 8:15-9:29.

Note the fulfilment of Noah's prophecy.

3. Confusion of tongues. Gen. 11:1-9.
4. Table of nations. Gen. 10.

Make a list of the sons and grandsons of Noah, and note the locality of the different races on the map of the distribution found in most Bibles.

Prof. Lewis' new book, "Addresses for Young People," is ready for delivery.

SPECIAL TRAINING COURSE FOR TEACHERS

THIRD YEAR—PART I

"The Place of the Bible in Education."

Chapter 7, pages 63-76.

The Bible's right to supreme place in Christian education.

The church's only safe position.

Why?

How Christian education may be maintained.

The Bible's claim for itself. Texts

The claim proven. [given.

The Supreme Teacher.

His method of teaching.

Disrespect shown him.

The Bible as an educational book.

Reading.

First impressions in any language and last thoughts.

Chapter 8, pages 77-82. (Supplementary reading, "Education," pages 54-56.)

The education of Daniel.

The Book of Daniel.

Its principles.

Nebuchadnezzar's requirements in selecting Hebrew youth.

Where Daniel and his companions were educated.

Schools of the Prophets.

Why so called?

Chapter 9, pages 83-90. (Supplementary reading, "Education," pages 45-50.)

What was taught in the Schools of the Prophets.

Why important that we know?

Curriculum and evidence for each subject.

Wisdom—Knowledge—Science—

Manual Labor—Music—Poetry—

—Temperance—Morals—Law—

History—Reading—Writing—

Numbers.

His influence.

His manner of working.

The real head of the school.

Chapter 10, pages 91-94.

The study of wisdom.

What is wisdom? Give texts.

- Where found and how obtained.
Give texts.
Required study of Scriptures.
Place this study occupied. Why?
What is included in the study of wisdom?
- Chapter 11, pages 95-99.
The study of knowledge.
Knowledge—what is it?
How acquired.
Relation to wisdom.
The great teacher of. Give texts.
How he teaches.
His method in contrast with the world's method.
- Chapter 12, pages 100-108. (Supplementary reading, "Education," pages 128-134, and 99-101).
The study of science.
The divine order in education.
Science—what is it?
Science in the Bible.
Solomon a teacher of science.
His method as student and as teacher.
The Jews as scientists.
Evidence of their knowledge.
Relation between science and religion.
Mistake of the church.
Results—Infallibility of the Bishop of Rome.
Mistake of the world.
Protestantism led astray.
Warning against false science.
II Tim. 6:20; Col. 2:8.
The Holy Spirit the teacher and Bible the interpreter of true science.
- Chapter 13, pages 109-125. (Supplementary reading, "Education," pages 123-127.)
The study of mental science.
The foundation of all science. Why?
Relation between human and divine science.
The true root of sciences.
Mental science—defined.
Its importance.
How study the mind.

- Adam's mind.
Relation to God's mind before the fall.
How tested.
How an evil mind came into man.
Its effect upon man.
A study of human philosophy of the mind.
A study of the divine philosophy of the human and the divine mind.
The field of mental science.
The transcendent thought.
Result of placing human mental science above divine mental science.

PUBLISHER'S NOTES

Manuscript.—All manuscript should be addressed to C. C. Lewis, College View, Neb, and should reach the office by the eighth or twenty-third of each month.

Business Correspondence.—Letters relating to subscriptions, advertising or any other business, should be addressed to M. E. Ellis, College View, Neb. Money orders should be made payable to him.

Change of Address.—Always give both your old and your new address.

Discontinuances.—Notice of expiration will be given by a blue X on the wrapper. When you see this, please renew your subscription or request us to stop the paper.

Premiums.—Anyone sending us \$2.50 for five subscriptions, new or old, will receive the Messenger free for one year. Write for liberal terms to agents.

To Contributors.—We want the news from our church schools, intermediate schools, sanitariums, etc. Personal doings and experiences are always welcome. We want a correspondent in every school and institution. Send us striking quotations, gems of thought, etc. Write us short articles upon any phase of education, not theory so much as practical experience. Three hundred words will make a column. Keep within this limit if possible.

The Educational Messenger

Representing the Educational Department of the Central Union Conference of Seventh-day Adventists, which embraces its Training College, Intermediate Schools, Church Schools, Sabbath Schools, Sanitariums, Nurses' Training Schools, and Young People's Societies

Issued the 1st and 15th of each Month by

YOUNG PEOPLE, ATTENTION!

One of the greatest needs of the young people's work is that of suitable leaders. There will be, as a part of the Union College Special Course this year, to begin soon, a class for the training of leaders. Will not each church where there are young people, select and send one of their number to take this course? It is a rare opportunity.

M. E. K.

REQUEST FOR FLOWERS

For the beautifying of the Union College campus, the Floriculture Department would be glad to receive donations of hardy ornamental shrubbery, ever-blooming roses, peonies of all colors, perennial pinks, perennial larkspur, perennial phlox, and seeds of annuals such as larkspur, four o'clock, phlox, coreopsis, or any other roots or seeds of beautiful plants. Please address M. E. Kern, College View, Neb.

C. A. Anderson is teaching school in Danhoof, N. D.

News and Notes

Lawrence Anderson, of the class of '04, is teaching church school at Tekamah, Neb.

Elder H. Shultz stopped off to see friends in College View for a short time recently.

Union College has installed improved apparatus for the furnishing of drinking water sterilized and cooled.

A half-block of land east of the College campus has been dedicated to the increasing poultry industry of Union College.

The physical and chemical laboratories of Union College are in need of additional apparatus and a movement is on foot among the teachers and students to see that it is supplied.

Ten church schools in the Missouri conference have already commenced their work. We hope others may open soon. When the roll is called, we are pleased to have all schools respond and sorry when we have to drop any names from our list.

Prof. M. W. Newton has purchased a forty-acre poultry and dairy farm two miles northwest of Battle Creek. The place is crossed by a nice stream and is a very pleasant situation. The family enjoys the new home much and the work in which the professor is engaged in connection with the sanitarium is progressing.

Because of the crowded conditions, the Board of Management of Union College has decided to fit up rooms for twenty-six young men on the fourth floor of the College hall. They will be furnished with steam heat and electric lights and made very comfortable. This space has been used heretofore as a store-room for trunks but is much more than is needed for that purpose.

D. Earnest Welch, of the *Christian Record*, is taking a short vacation in Colorado.

Miss Gertrude Thompson, of the class of '04 of Union College, is at Mauston, Wisconsin.

Miss Olive LeFave, of the South Dakota Conference, is engaged in Bible work in her home state.

Word has just been received announcing the safe arrival of Elder L. A. Hoopes and family in Australia.

Mrs. Leona Burman, of Aberdeen, S. D., has been spending a few weeks with her mother in College View.

Five schools have opened in the Wyoming Mission Field. Miss Iva Leech has charge of the work there.

Sam Mathiesen and Walter Schmaltz have been investing in land near Harvey N. Dak. At present they are visiting in College View.

Brother I. C. Sultz, Superintendent of the church schools of Kansas, reports his schools as opening in the most encouraging manner. Full attendance and good feeling prevails in each of them.

Because of the difficulty and great expense in crossing the mountains, the school work in Colorado has been divided. Elder Wilcox, of Boulder, has charge of the work east of the range, and Prof. B. A. Wolcott, Principal of the Intermediate School, of Palisades, has charge west. We understand there are eight church schools in the east district.

The Thayer (Kansas) Intermediate School opened September 11, with Brother H. E. Reeder as principal, but was obliged to close about five weeks later because of an epidemic of diphtheria in town, though none of the school were afflicted. There was an enrolment of twenty-three with the promise of several more as soon the school shall be reopened. We are promised further interesting items concerning their work in the future.

W. K. Kellogg, of Battle Creek, Mich., recently visited the sanitariums at Boulder, Colo., and College View, Neb.

Carl Svenson and Miss Hulda Carlson were recently married in Omaha, and are making their home in that city.

Miss Maude Stevenson and Miss Viola Tillotson, of Battle Creek, Mich. have recently come to the Nebraska Sanitarium.

Miss Stella Fuller, who recently graduated from the nurses' course at the Nebraska Sanitarium, has returned to Taopi, S. D.

B. L. Anderson, of the class of '04 of Union College, has been asked by the Wis. Conf. to join his brother in China as a missionary, under pay of the home conference.

Daniel and Mary Wall and David Voth, of Hitchcock, Okla., have gone to Bowdle, S. Dak., to teach church school. They called on old friends in College View on their way.

The Nebraska Sanitarium property has been recently sold by the Central Union Conference to the Nebraska Medical Missionary and Benevolent Association. This property was formerly a part of the Union College plant, but not being needed by the school was leased for use in medical missionary lines. This line of work has steadily increased in prosperity until the property has been bought and secured for the medical work for the future.

The teachers and students of Union College have started a movement on foot to raise one thousand dollars for the improvement of the laboratory. All who are acquainted with the condition will appreciate the effort, as there is much need of additional apparatus. The fund was started by an interesting and instructive chemical demonstration lecture given at the College by Dr. W. A. George. The proceeds of the same were over twenty-five dollars.

Retta King has entered upon the business of a church school teacher at Nebraska City.

Prof. H. A. Morrison has purchased a new high-grade field glass to use in connection with the science work in Union College.

The Union College printing office has sold its old paper cutter and installed a new thirty-inch cutter of the latest improved style.

Miss Adella M. Baker, of the class of '01, was recently married at Hygiene, Colorado, to C. F. Innis, of Cincinnati, Ohio. They will make their home in Cincinnati.

During the summer, a Young People's Society was organized at the Colorado Sanitarium. The meetings have kept up with good interest on the part of both helpers and patients. Two weeks ago, after an earnest talk by Elder Shaw regarding the work in India, the sum of \$515.00 was raised for the purpose of supporting for one year a native missionary in that dark land. All seemed anxious to have a part in this work.

The Colorado State Nurse's Association recently held its annual session in the parlors of the Colorado Sanitarium. A number of trained nurses from various hospitals throughout the state were present, and many important subjects were discussed. At the close of the session, the delegates visited the different departments of the institution, were given sample hydrotherapy and electrical treatments, and were served a dainty and healthful luncheon. All expressed themselves as greatly pleased with the methods employed, and as a result of their visit there has been extended to our medical superintendent, Dr. H. F. Rand, invitations to address the Nurses' Association of Denver, Pueblo, and Colorado Springs. Thus opportunities are being given to acquaint the world with the work of the "right arm of the Third Angels's Message."

M. E. Ellis recently made a short business trip to Dodge Center, Minn.

Miss Cora Carr has gone to North Platte, Neb., where she is engaged to teach church school.

Miss Elsie Baer is teaching at Sheridan Wyo. Her brother, Roscoe, is teaching at Hemingford, Neb.

Harold A., the four year old child of Mr. and Mrs. H. L. Stenborg, died November 3 of heart failure.

Theodore Nelson and Ellenora Nelson, both of College View, were married November 2, at the home of the bride. They will make their future home in College View.

Mrs. Mollie Dominic, of the Nebraska Sanitarium, has recently returned from a trip to Blue Rapids, Kansas, where she was called by the sickness and death of her brother.

Chas. W. Lee is teaching church school at Red Cloud, Neb., with an enrolment of twelve and prospects of about twenty. About half of the children are from homes not of our faith.

A. G. Bodwell, formerly a laborer in old Mexico, now the Colorado state canvassing agent, recently spent a few days at the Sanitarium in the interest of the Signs work. The Sanitarium family are taking hold of the work heartily, thinking it will be an excellent preparation for them in the sale of "Ministry of Healing," in which they expect to engage during the winter.

This has been the most prosperous year in the history of the Colorado Sanitarium. The summer patronage was excellent, and although it has fallen off some at the present time, we still have double the number of guests that this season of the year usually brings. Besides meeting all our current expenses, we have, from our earnings this year been able to send to the General Conference \$6,000 on their investment, thus helping out in the general work.

The week of Prayer is December 9-16.

Mr. Asa Smith made College View a call not long since.

Henry Willers has left for Milltown, S. D., where he is to teach school.

"We enjoy the MESSENGER'S visits very much, that letter from Sister Baharian was worth one year's subscription price."—*F. H. Westphal.*

The Colorado Sanitarium recently enjoyed a visit from Dr. Maria Loughborough Edwards of the Sanitarium at Moline Ill. Dr. Edwards was returning from a visit to Japan, and gave a very encouraging report of the medical missionary work which is being done there, both for the Europeans and the native Japanese.

The Sunday School Times, published weekly at Philadelphia, (\$1.00 per year) would furnish many suggestions to our Sabbath school workers. Besides helpful articles to Sunday school officers and on various departments of Sunday school work, such as the Home Department work, it contains general articles of interest, many of which throw light on Oriental history and customs.

Among the workers of the Colorado Sanitarium are a number of former Union College students. The class of '01 has four representative; viz., Misses Anna and Edith Peterson, Effie Northrup, and Ruby Wright. The first three mentioned are working in the offices of the Sanitarium, while Miss Wright is in the Freshman Nurses' Class. Miss Susie Shively, of the class of '02, is a member of the Junior Nurses' Class; also Miss Clara Nelson. Misses Florence and Daisie McPhee and Mr. John Herboltzheim are members of the Senior Nurses' Class, which graduates in December. Mr. Alfred Toppenburg is employed in general work at the institution, spending his spare moments in gaining a splendid experience canvassing for the *Signs*.

N. B. Emerson recently made a short business trip to Kansas.

Maude Bailey is teaching church school at Deadwood, S. D. She writes "I do not know what I would do without the MESSENGER; for I look forward to its coming almost as much as I do a personal letter."

The northeastern corner of Union College campus, which includes a pleasant grove, has been leased by the Central Union Conference for a period of fifty years to the Nebraska Sanitarium and Union College jointly for park purposes.

Prof. and Mrs. J. L. Shaw, who have been laboring for the past years in India, are at present spending a few weeks at the Colorado Sanitarium, recuperating their health. The Sanitarium family enjoys frequent talks from them regarding the needy field in which they have spent so much earnest effort.

The Lord has truly blessed in the upholding of the light of present truth at the Colorado Sanitarium during the past year. Mr. and Mrs. Davy, who formerly were earnest and efficient Salvation Army workers, came to the institution as patients, and while recovering their health they accepted the Third Angel's Message in its entirety and are now ready to enter the work. A young lady, not of our faith, who entered the Nurses' Training Class a few months ago, has decided to walk in the light, and was recently baptized. Three others, patients, accepted the message, one becoming a member of our family of helpers, while the other two are trying to spread the gospel among their friends and neighbors at their home. Others are deeply interested. Lately, lectures have been given in the parlor every Sabbath evening, on the distinctive points of truth which we hold dear, and these have been very well attended. Some of the patients are asking for literature. It is ours to sow seed.

Miss Merle Scott has connected with the Nebraska Sanitarium as stenographer.

The attendance at the Elk Point (S. Dak.) Industrial School is better than last year.

Jessica Bacus, of Oswego, Kansas, has taken up the nurses' course in the Nebraska Sanitarium.

Eld. and Mrs. F. H. Westphal, of Pua Provinca, Malleco, Chili, have a little daughter, Grace Hazel.

The Thayer (Kansas) Intermediate school has been closed for about two weeks on account of the prevalence of diphtheria in the town.

Mrs. A. T. Robinson has been employed as Bible teacher in the Nebraska Sanitarium to take the place made vacant by the removal of Elder Nettleton to Oregon.

Mrs. W. M. Tolbert, of Fairfield, Neb., wishes a home among some good family of Seventh-day Adventists, where she can meet her expenses by sewing and light house work for the family. Those interested please address her as above.

The young men of South Hall have instituted a literary society and are in good running order. They meet every Saturday evening at 8:00 o'clock, and have had some interesting programs. J. W. Peabody is president; Wm. Eden, vice-president; E. C. Eden, secretary and treasurer; and E. C. Rowel, sargent. The society is planning to give a public program sometime in the near future.

Mr. H. C. Pitton, of the class of 1904, not being able to make satisfactory arrangements for study at Ann Harbor, as he anticipated, has gone to the Agricultural College at Lansing, Michigan, and is specializing in horticulture. Although this is hardly in line with ministerial work, as he says, it will not be detrimental to it. He reports that he has enjoyed his work in the ministry this summer very much.

The Nebraska Sanitarium has fitted up its surgical ward with new beds.

Nathan Aalborg has sold his treatment rooms in Alerdeen, S. Dak., to S. H. Logan, who was a student of Union College in 1897. Mr. Aalborg has taken up work in the College.

UNION COLLEGE STUDENTS OF DES MOINES

Miss Bernice McComas is enjoying a vacation with her parents of Clinton, Mo.

Mr. Ancil VanSyoc, of Sandyville, has connected with the Iowa Sanitarium.

Carlos Roselle, of this city returned to Battle Creek, Oct. 1, where he is taking the medical course.

Miss Edith Roselle is in school in Des Moines, being a senior in the East Des Moines high school.

Miss Joelle Long has been nursing her father of Signorney and enjoying a few weeks' vacation with friends at home.

Miss Elva Green, who has been book-keeper for the Iowa Tract Society, left Friday for California where she expects to locate.

Miss Cora Shaw has been compelled to give up teaching in the Orphans' Home at Battle Creek and has returned to her home in Des Moines for a much needed rest.

Wesley Beard is conducting a short-hand and bookkeeping school. He is advertising manager for the Sanhom Drug House here and teaches night school. He has a nice class and bids fare to make it a success.

Miss Dora Rasmussen has resigned her position as matron of the Iowa Sanitarium and is spending a few weeks with her parents at Jacksonville, after which she expects to take a post graduate course at the Battle Creek Sanitarium.
