#### A PERMANENT SUMMER SCHOOL

Believing there is need for a strong, permanent Summer School, centrally located, the Faculty of Union College has outlined a brief, general plan for such a school, to be under the joint management of Union College and the Educational Department of the Central Union Conference. This plan was submitted to the Central Union Conference, in session at Boulder, Colorado, in February 1908, and it brought from the Conference the following resolutions, which were unanimously and enthusiastically adopted:—

RESOLVED, (a) That we approve the plans presented to this conference by the Faculty of Union College for the establishment of a permanent Summer School under the joint management of the College and the Educational Department of the Union Conference, and we recommend the officers of the College and of the Conference to unite in speedily completing the details of the plan, that announcements may soon be issued for the next summer's session.

(b) That we recommend the State Conferences to send their teachers to this Summer School as far as practicable, and also to hold shorter Conference Institutes in the interests of their local work.

#### Board of Management

The plan referred to provides for a Board of Management consisting of the President of Union College, the Educational Secretary of the Central Union Conference, and the Director of the Normal Department of Union College. When this Board came to their first meeting in the discharge of their duties, they invited to their council the Educational Secretary of the Northern Union Conference, who chanced to be in the place at that time. He aided in forming the plans which follow, and expressed his desire to have the teachers of the Northern Union attend the Summer School. Accordingly the Faculty of Union College voted to invite the Northern Union Confer-

ence to appoint their Educational Secretary to a place on the Managing Board of the Summer School. The present Board, therefore, stands as follows:—

- C. C. Lewis, Chairman  
Miss Sarah E. Peck, Secretary  
B. E. Huffman, Educational Secretary Central Union Conference  
C. L. Benson, Educational Secretary Northern Union Conference
- #### Courses of Study

The courses of study have been selected with special reference to the needs of teachers, but they will prove equally helpful to other students, who desire to make up studies or to do work that will count on regular College courses. It is expected that each student will take only two regular studies and one drill, in order that he may in the six weeks perform in each subject the work of a full term of twelve weeks. Certificates of Credit will be issued by the Summer School for satisfactory work, which will be accepted by Union College on the regular courses of study. The recitation periods will be one hour. Three hours' study, if necessary, is expected for the preparation of each lesson. Each drill will require eight hours' work per week under the direction of the teacher. By arrangement with the Faculty teachers and others who may wish to review certain topics and do not care to obtain college credits may select the topics they desire from all classes without being confined to three subjects.

The Union College Management has generously offered to furnish board, room, laundry, and bath for only \$2.00 and seven hours' domestic work per week. Tuition is \$6.00 for the full term of six weeks. The entire cost therefore exclusive of books and personal expenses, would be eighteen dollars. Tuition will be remitted to accredited teachers from any conference.

#### What to Bring

Each student is expected to bring two sheets, two pillow-cases, a bed spread, a pillow, and a blanket or comfortables, also towels, napkins, dresser-scarf, commode cover, and cover for study table. Those desiring rugs, carpets, or lace curtains should bring them. All clothing should be plainly marked. It would be well to bring school books and our standard denominational books, especially the Testimonies. Do not forget your Bible, hymn book, and dictionary.

#### Instrumental Music

Good teachers may be secured to give instruction in instrumental music at the rate of fifty cents a lesson, and instruments for practice may be rented as follows: Piano, six weeks, one and one-half hours per day, \$1.50; three hours per day, \$2.50; Organ, six weeks, one and one-half hours per day, 75 cents; three hours per day, \$1.25. Music pupils may take one study in the Summer School for \$2.50 for the term. No remission to accredited teachers.

#### Concluding Remarks

This will doubtless be the largest and best equipped summer school ever held in the denomination. Union College places its library, its physical and chemical laboratories, its class rooms, its music rooms and instruments, its dormitories,—in short, its entire resources,—at the service of this summer school, and at a price to the students which would be a losing proposition to the College, if the Central Union Conference did not stand ready to make up the deficit which may be incurred. A glance at the Faculty page will show the value of the instruction which must of necessity be received. Many of our church school teachers have never studied the principles and methods of Christian education under teachers who have had long

and successful experience. To such the privilege will be greatly appreciated of studying with the editor of the True Education Reader Series and author of several numbers of the series, who was secretary to the author of the book "Education" at the time of the founding of the Avondale School, Australia, where the principles of that book are perhaps best illustrated. We hope that many will avail themselves of this opportunity and that much good may result from the school. Send for a *Bulletin* containing a more complete description of the work.

#### LETTER FROM RACHEL JOHNSON

(Concluded)

"The first day I went canvassing I did not do very well, but I told the Lord that we were working for him and asked him to bless us. He certainly did bless me, for I went out the next day and sold five dollars' worth of books and papers in one hour. It is wonderful what the Lord will do for us. The day I did so well I went to one of the large hotels in the city and was going to canvass the manager, an Englishman, when one of the natives stepped up to me and asked if he could subscribe for my paper. He paid me the cash for a year's subscription. It did me a great deal of good to think the people in this land are interested enough to come for the truth instead of waiting for us to go to them. His friend, a Mohammedan, who spoke English well, then gave me a letter of introduction to a lady who he said was a millionaire, a high cast native lady. I called to see her and she bought nearly everything I had. The Lord surely gives to them that ask him. I believe more than ever that prayer is the secret of success. The natives seem very anxious for something to read. We carry with us some of Brother Burgess' little books printed in Urdu and Hindi languages, and we sell them to the poor for about half a cent apiece in your money.

"As we were waiting to take the train in a little town we had canvassed, I saw a number of natives standing about so I asked them if they would like a book, and you ought to have seen them flock

around me. They bought several copies and came for an hour afterward asking for a book. India's millions certainly are wanting the truth. It seems as if the message is going very fast, for they spread the news among themselves. If one man cannot read he will walk a long distance to get some one that can read the paper for him. This work is certainly very interesting. I met a woman to-day who is interested in the truth, and said she did not know which day was the right one to keep and was so worried that she kept both. I gave her texts in the Bible to show that the seventh day is the Sabbath and also to show that the soul does not go immediately to heaven at death. She thanked me for calling and bought a book and paper. It is encouraging to meet such people. I am particularly glad that I have the privilege of working in this closing message. I trust that many from Union College will prepare for this great work in India. Remember me kindly to all students, teachers, and friends. We will soon be through with our canvassing work for this season, but I trust you all will remember India in your prayers.

"Yours in the Master's service,

A MOTHERS' NUMBER OF LIFE AND HEALTH

The April number of *Life and Health* is principally a Mothers' Number. The articles contained in the Household, Mothers', and Home Treatment Departments pertain entirely to the home. These articles discuss the privileges and responsibilities of parents, and deal with many practical questions in the relation of the mother to her child.

In this number of *Life and Health* appears the first article of a series by Dr. Lauretta Kress on the care of children. This article is entitled, "Baby's First Six Months of Trouble." "The Mother's Sacred Charge" is an inspiring article by Mrs. E. G. White.

A very interesting and practical lesson is "Woman's Place in the Home," by Nannie Beauchamp Jones.

The training of a child for a life of usefulness is considered by Mrs. D. A. Fitch under the subject, "The Mother's Privilege."

The eyes of many will be opened by reading the article by Dr. G.H.

THE LATIN TRAINING SCHOOL FUND

The envelopes are slowly but surely bringing in the dollars to swell the Latin School Fund. We have just received three envelopes well filled from Eugene Weeks, and two friends, Petersburg, Nebr., also a letter from Ada J. Madison, of the class of '07. Miss Madison expresses her appreciation of the privilege of contributing to this fund as follows: "Enclosed you will find one dollar which you may add to your offering for the Latin Union Conference School. I am glad that one of your students was so thoughtful as to send me an envelope. I pray God that you may soon raise the fund to the five hundred dollar mark and thus help the cause of Christ along."

We still invite Union College students and other interested friends to send for the envelopes. Show the envelopes to your friends, tell them of the good cause we are trying to help, and invite them to join you in their contributions.

We are pleased to note the establishment of a new school for colored students near Nashville, Tenn. Prof. Floyd Bralliar, formerly principal of Stuart Academy, is principal of the new school, which will be known as the Hillcrest School Farm. Brother O. R. Plugrad, and F. R. Rogers. In writing to the MESSENGER of their work Brother Staines says: "In this connection we are glad to say that the Lord is blessing us in getting our work started here, and that we are of the best of courage. Everything indicates that whatever we are to do in the South we must do very quickly. This is particularly true of our work for the colored people. You doubtless know that arrangements have been completed for Professor Bralliar, of Stuart, Iowa, to join us at the close of his school year there. We are hoping to get up sufficient buildings so as to begin school work in at least a small way by this fall." The MESSENGER wishes God-speed to this new and important educational effort.
