PRICE:

For the DAILY BULLETIN during General Conference session...50c
For the biennial term, including daily and quarterly issues75c

Subscriptions at the 75-cent rate, for the current volume, will include all issues during 1901 and 1902.

EDITOR

H. E. OSBORNE.

Entered at the Post Office in Battle Creek, Michigan.

A BRIEF GLANCE AT THE WORK OF RE- ORGANIZATION.

At the opening of the last General Conference a message came in clear, emphatic language, to officers, boards, and delegates, to "Reorganize." And we were told not to wait until the Conference was over before starting the work, but to begin at the beginning of the Conference. The following statements are taken from the instruction given:—

"There must be a renovation, a reorganization."
"There must be a decided change in the management of things at the heart of the work." "Greater strength must be brought into the managing force of the Conference." "Here are men standing at the head of our various institutions, of educational interests, and of the conferences in different localities and different States. All these are to stand as representative men, to have a voice in molding and fashioning the plans that shall be carried out." "What we want now is reorganization. We want to begin at the foundation and build upon a different principle."

These statements, with the convictions and ex-

periences of many in the Conference, led to changes in the manner of conducting Conference business, and, subsequently, to a number of important changes in the organizations throughout the field. Some of these changes are far-reaching in their influence upon our work. They are worthy of careful study, and should be more fully presented than it is possible in this number of the BULLETIN. Here we can refer but very briefly to the most important changes that have been made.

THE GENERAL CONFERENCE COMMITTEE.

In forming the General Conference Committee for 1901-02, the number of members was increased from thirteen to twenty-five, and care was taken to place on the Committee, ministers, physicians, teachers, printers, and business men. Reasons for this change are plain—that the affairs of the Conference might come before many minds, and that all the most important phases of our great work might be definitely represented in the Committee. The ultimate point to be gained is that every department of the cause shall receive the fairest and most efficient administration possible.

ORGANIZATION OF UNION CONFERENCES.

Before the Conference closed, arrangements had been made for organizing the six General Conference Districts into Union Conferences, each organization to be complete in itself, having an Executive Committee, with a President, Secretary, Treasurer, and Auditor, and each to take the entire oversight of the work in its territory. The Union Conference Committee will unite with each of the States in looking after their interests; work up, receive, and administer funds; advise with States in exchanging laborers; and practically carry forward the work in its territory as though no other Conference existed, except that it will cooperate with all other Union Conferences, and with the General Conference. This, it will plainly be seen,

will distribute the responsibilities of the General Conference, placing them more fully and definitely upon those who are on the ground where the work is to be done and the issues to be met. Thus more men and more talent will be brought into the management of the work. A thousand details will be transferred from the General Conference Committee to those whom the Lord has called to his work, and whom he has placed in the field where the details are to be worked out. If this plan is managed wisely by those first placed in charge of the different conferences, a large number of men and women will be brought to the front, with the experiences necessary to make them safe and valuable burden-bearers in the various departments of the cause.

THE SOUTHERN UNION CONFERENCE.

This was the first Union Conference to complete its organization, weigh anchor, and unfurl sails. Its territory embraces the nine Southern States, formerly known as District 2. The Conference membership is nearly three thousand; its staff of ministers and other Conference laborers about seventy. The annual tithes for 1900 were reported to be thirteen thousand dollars. It has a publishing house at Nashville, an academy at Graysville, and an industrial school for colored people at Huntsville. There are several small schools and missionary enterprises being operated in various parts of the Conference. During the past summer, five State Conferences have been organized in the Southern Union Conference. When we remember the difficulties that would naturally attend the beginning of the new organization, the lack of funds, and the nature of the field itself, we are filled with courage regarding the future of this new departure.

THE PACIFIC UNION CONFERENCE.

Perhaps no Conference in the States has done more thorough work in organizing than has the Pacific Union Conference. It has added to what was District 6, Arizona, Alaska, and Hawaii. The new administration began July 1, 1901. Without delay, laborers were sent to Arizona, Alaska, and Honolulu. Only those who have served on the General Conference Committee and Mission Board can fully appreciate the relief that comes from the transfer of all the details of the work on the Pacific Coast and the Hawaiian mission field to a strong and experienced committee, located on the coast, and consequently in personal touch with all that demands attention. And best of all, the work in that part of the vineyard will prosper so much better.

In addition to all that the other conferences have

done in making arrangements for carrying on the regular business, this Conference has established a Union Conference paper, called *The Pacific Recorder*. It is issued fortnightly, and is full of valuable instruction and interesting reports for the churches throughout the Conference.

As we see the grand work this Conference is doing, and experience the relief from perplexing burdens it has taken from the Committee at headquarters, we are more thankful than we can express for this change in plans.

THE LAKE UNION CONFERENCE.

This Conference is composed of Michigan, Wisconsin, Illinois, Indiana, Ohio, and Ontario. It has eighteen thousand members, and a staff of two hundred and fifty laborers employed. In its territory are located the oldest and largest institutions of the denomination. It began its administration the first of July. During that month the members of the Executive Committee held an important council at Berrien Springs, Mich., in connection with the teachers' institute. The value of this council was very much increased by the presence of a number of ministers of experience from the different States composing the Conference. At this time the organization, begun at the General Conference, was completed. A definite progressive policy was adopted for the advancement of the cause, both in this Conference and in distant fields.

Two lines of work that have received special attention in this Conference are education and canvassing. The auditor has examined the books of every State treasurer, and has worked untiringly to assist in placing the accounts of the conferences in good shape.

The first regular session of the Lake Union Conference is to be held in the city of Indianapolis, as early in 1902 as will be favorable for a camp-meeting. It is expected that this will be a large and representative gathering. The most of the laborers of the State conferences will undoubtedly attend. It is understood that a great effort will be made to stir the city with the message the Lord has given us.

OTHER CONFERENCES.

Three other union conferences have been organized in the United States, but they have not as yet fully developed their work. In Europe our brethren have done thorough work in the line of reorganization. As a full report of their work follows, we will not repeat what they have said.

Besides the organization of these large and important conferences, other important changes in plans of

work have been made. Some organizations have been discontinued, and their work has been made departmental of the General Conference. This is true of the International Sabbath-school Association, the Religious Liberty Association, and the International Tract Society. The Medical Missionary Board and the Foreign Mission Board have combined, and all the medical missions outside of America have been placed under the direction of the Mission Board. The *Sentinel of Liberty* has been transferred to the Pacific Press, and was removed to New York the first of November, 1901. The Chicago office will be closed, and the workers drafted into other lines of work. The International Tract Society has been discontinued, the office closed, and the work transferred to the Mission Board. The office of the Mission Board has been transferred to Battle Creek. This gives the officers opportunity to counsel with the General Conference Committeemen, especially the medical members.

Space will not allow of a full presentation of the benefits all these changes are designed to be to the cause. In some cases it means less machinery and easier work. In others it means the distribution of responsibilities, and decentralization of power. In still others it means economy of labor and funds. In all it is hoped that it means the rapid and earnest proclamation of this gospel of the kingdom to all the world in this generation.

A. G. DANIELLS.

DOINGS OF EUROPEAN GENERAL CONFERENCE.

THE first meeting of the European General Conference was held in connection with the German Union camp-meeting at Friedensau, July 23-28. Not only was this the largest meeting ever held by our people in Europe, but it was in every way the best. More found the Lord, and were baptized at this time, than at any other similar gathering in this field. We had baptism on each of the two Sabbaths during the meeting, and thirty-eight were baptized.

Not only was this a good meeting spiritually, but so much union and harmony prevailed that a large amount of business could be successfully transacted, and a number of new conferences were formed. The propositions which had been suggested by the late General Conference concerning the reorganization of the European field, had met with general approval among our leading brethren throughout Europe, and delegates had been appointed at all the annual meetings, so that the way seemed well prepared for effecting the proposed changes.

At the Central European Conference, German Switzerland had been organized into a separate conference, that it might become a part of the German Union Conference. About fifteen brethren from Scandinavia were on the ground by July 19, and had formed the Scandinavian Union Conference, with an organization suitable to their present circumstances, electing Elder P. A. Hansen as their chairman. Germany, which had become too large for a single local conference, had been divided into the East-German and the West-German Conferences and the South-German Mission. Besides this, the Holland and Hungarian, and the North and South-Russian Missions had been organized, and these, with German Switzerland, had been brought together as the component parts of the German Union Conference. This work had all gone forward with the greatest unanimity, and had been nicely completed by July 23. All the leading workers had also given considerable consideration to the proposed constitution for the European General Conference. And so at its first session, Elder Olsen being in the Chair, this constitution and by-laws, as found in the GENERAL CONFERENCE BULLETIN, April 22, 1901, was adopted, with the following changes:—

Art. 3, Sec. 3, was so amended as to provide for "an additional delegate for each three hundred of its membership;" Art. 4, Sec. 1, now calls for an Executive Committee of 13, instead of 9; between Arts. 5 and 6 is inserted a new article, specifying that "the funds of the European General Conference shall consist of a tenth of the tithe and offerings of the five union fields named in the Memorial, and such other funds as may be given the European General Conference direct;" and Art. 1, Sec. 4 of the by-laws was so amended as to read: "At each regular session the Conference shall elect, unless otherwise voted, a standing committee of six delegates, who shall, with the Executive Committee, constitute a committee for auditing and settling all accounts against the Conference."

The following delegates were seated: From the Scandinavian Union Conference, O. A. Olsen, Dr. J. C. Ottosen, N. Clausen, J. C. Raft, P. A. Hansen, J. P. Hansen, O. Johnson, E. Lind, E. J. Åhrén, O. J. Olsen, A. C. Christensen, D. Östlund; from the German Union Conference, R. G. Klingbeil, John de Heer, J. T. Boettcher, J. Erzenberger, W. Krumm, A. Dörner, C. Weber, H. F. Schubert, H. Hartkop, Dr. A. J. Hoenes, J. Pieper, E. Franchiger, J. F. Huenergardt, H. J. Löbsack, C. Reifschneider; from the Central European Conference, B. G. Wilkinson, J. Curdy; Oriental Mission, L. R. Conradi, Basle House,

J. Robert; British Conference, Dr. A. B. Olsen, W. W. Prescott, E. J. Waggoner, W. C. Sisley.

We quote herewith a number of the resolutions passed in the open sessions of this Conference:—

1. *Whereas*, The manifold blessings of God have so richly rested upon the work in Europe in the past that it has now been found advisable to organize a European General Conference; therefore,—

Resolved, That we unitedly express our deep gratitude to God for these blessings, and that we hereby reconsecrate ourselves to His service.

2. *Resolved*, That the accounts of all the laborers in the mission fields, including the Oriental field, be audited under the direction of the European General Conference Committee.

3. *Whereas*, Owing to the fact that the original Central European Conference had deposited with the Basle House (owned by the General Conference Association) a large amount of tithe, which the Central European and German-Swiss Conferences now need in order to undertake an aggressive work of evangelization in their respective fields, and which has been invested in the Chaux de Fonds and Pieterlen buildings; therefore,—

Resolved, That we request the Basle House to assume the responsibility of carrying the Chaux de Fonds and Pieterlen buildings, and to advance this tithe to these Conferences as fast as needed, and in case of loss, cover the same; also, in case of sale, to refund to the Chaux de Fonds church the money that church has placed in the Chaux de Fonds building.

4. *Whereas*, God has revealed to his chosen people the principles of right living, and shown them that "the fear of the Lord tendeth to life," physically as well as spiritually; and,—

Whereas, "In the preparation of a people for the Lord's second coming a great work is to be accomplished through the promulgation of health principles;" therefore,—

We recommend, (a) That suitable young men and women be selected for the different European countries, and encouraged to prepare themselves for medical missionary work by undergoing such training as will qualify them for medical practice, and that funds be secured for this purpose by soliciting help from our American brethren, and by raising means in these fields, as far as possible.

(b) And, recognizing the value and importance of health journals and literature as a means of educating the people, and giving them the principles of healthful living, we urge that such journals and our health books be given as wide a circulation as possible, and

that our health journals be started as rapidly as the work demands. We further recommend that the European General Conference Committee be requested to arrange for the giving of suitable instruction in health principles in connection with general meetings.

(c) That such fields and Conferences as have the proper facilities be encouraged to start health institutions as soon as consistent.

5. *Whereas*, The mission property at Basle is located in a German city, and by the recent division of the Central European Conference, the French Sanitarium and Medical Training School, conducted in that House, remain in the German-Swiss field, and this leaves the French field without a health institution in which to educate medical workers; therefore,—

Resolved, That we request the Executive Committee to do all it can to aid in starting a health institution in the French-speaking field as soon as the way opens. Further, that we request the General Conference and Medical Missionary and Benevolent Association to provide us a man to lead out in the medical missionary work in the French language, and that they give him the necessary financial support while he is gaining a preparation for and getting started in the work.

6. *Whereas*, The starting or enlarging of any institution, causing a greater outlay of means, concerns the general financial interests of the entire field; and,—

Whereas, We are plainly instructed to counsel together; therefore,—

Resolved, That ere such steps are taken by any field, the counsel and consent of the European General Conference Committee be sought.

7. *Whereas*, At the time of the erection of the Union School at Friedensau only temporary buildings were put up, and these are not sufficient for the needs of the school; therefore,—

We request, That the European General Conference Committee consider whether the time has not come when a suitable building should be provided.

8. *Resolved*, That we request the General Conference and Mission Board to place a good Bible worker in Paris, one in Rome, and another in Iceland; and that these workers, for the present, be supported by the Mission Board through the General Conference of Europe.

9. *Whereas*, On account of the constant development of the European field, the number of annual camp meetings will increase, and there are calls for local meetings during the winter; therefore,—

Resolved, That, where advisable, these camp-meetings may be shortened to about six days.

10. *Whereas*, The "Testimonies" plainly advise us to do our business as far as possible outside of camp-meetings; therefore,—

We advise, That the Conferences and Missions of Europe, as far as practicable, close their fiscal year at December 31, and also do their auditing as soon thereafter as possible.

The Committee on Credentials and Licenses offered the following report, which was adopted:—

Ministerial Credentials: Z. G. Baharian, J. H. Krum, John Hoffman, David Östlund, and all the ministers who may be in the employ of the European General Conference, and receive their wages from it.

Missionary Licenses: Louis Passebois, Ida Schlegel, F. and S. Hörner, K. Sandelin, and A. Boettcher.

Next was the report of the Nominating Committee, unanimously adopted as herewith given:—

European General Conference Committee: O. A. Olsen, E. J. Waggoner, W. C. Sisley, B. G. Wilkinson, L. R. Conradi, Dr. P. A. De Forest, R. G. Klingbeil, Dr. J. C. Ottosen, E. Lind, P. A. Hansen, O. A. Johnson, Dr. A. J. Hoenes, H. F. Schuberth.

After the election of this Committee, it met and organized itself, W. W. Prescott being chosen temporary Chairman, and E. J. Waggoner temporary Secretary. A committee of four, including the chairman, was appointed to make recommendations for the permanent organization. It was agreed that this Committee take upon itself the same class of work as was done by the General Conference Committee in America. P. A. Hansen, J. C. Ottosen, B. G. Wilkinson, and W. C. Sisley were chosen to act as this Committee on Organization. They reported as follows:—

Chairman, L. R. Conradi; *Secretary*, O. A. Olsen; *Treasurer*, W. C. Sisley; *Auditor*, E. Lind.

That the headquarters be in London.

Medical Department: J. C. Ottosen, Dr. A. J. Hoenes, P. A. De Forest, L. R. Conradi, W. C. Sisley.

Sabbath-school and Educational Department: O. A. Olsen, B. G. Wilkinson, O. A. Johnson, E. J. Waggoner, H. F. Schuberth.

Publishing Department: L. R. Conradi, J. C. Ottosen, E. J. Waggoner, W. C. Sisley, O. A. Olsen.

The newly elected chairman introduced the question of selecting a Finance Committee to study the financial situation in each of the fields, and in the various institutions and conferences in European General Conference territory. The following were chosen as members of this—

Finance Department: L. R. Conradi, O. A. Olsen, W. C. Sisley, E. Lind, P. A. Hansen.

The European General Conference Committee had in all, nine meetings, and the following important matters were considered during these sessions:—

1. The transfer of the Frederikshavn High School property to the Scandinavian Philanthropic Society. A full and satisfactory agreement was reached in this matter by all the parties concerned, and presented to the General Conference Committee of America.

2. Brother David Östlund, of Iceland, who was present, spoke of the work in that far northern field, and gave the Committee a better understanding of its needs. As he must do his work chiefly on Sundays, on account of the scattered population, it was agreed that he partially employ his time in printing, and that the money he would thus be able to save from his wages, go toward supporting a colporteur in that island.

3. The situation at Christiania was carefully considered. It seemed evident to every one that, under the present circumstances, we would be obliged to hold that property for some time in the future, even if we should desire to eventually dispose of it, and it was thought advisable to make the best possible use of this place for the time being. If all should turn out well, and the house could become self-supporting, that would help in determining what would be best in the future. The way had opened to rent this property to good advantage, and still carry on the business we are doing at the present time. A brother who was doing our binding and folding in rented down-town quarters, was glad to come in and rent from us. Then, our medical mission in Christiania, which had thus far been renting a house several blocks distant, and in a more unfavorable location, at 1,800 kroner a year, proposed to fit up the old building for this use. By this arrangement, there will be an income of about \$1,500 a year from the rental of the plant, and this amount will be received from brethren who are actually paying that sum to the world now. In carrying out this plan, it is necessary to make some improvements, especially in the heating apparatus connected with the house; but if these improvements were not made, we could not utilize the house in the future. So it was voted:—

(a) That, as the old heating apparatus in the main building is worn out, a new apparatus be placed there.

(b) That the Christiania Medical Mission be allowed to enter and fit up the old building as they propose, it being understood that the total expense of all improvements shall not exceed 9,000 kroner (the amount of rent to be paid for the first eighteen months).

(c) That, until this rent be available to meet this

expense, they be allowed to use the money secured from the sale of the unused property (excepting the two large presses), and the collections on bad accounts, the brethren agreeing to remain in the house at least three years (preferably five), subject to sale on six months' notice.

4. The recommendations offered by the Medical Department, and adopted by the Committee as a whole, may be of interest:—

(a) That S. Jespersson, of Basle, take charge of the medical mission in Jerusalem, provided his place at Basle be filled by another; yet we would urge that this be done as soon as possible.

(b) That a lady nurse go to Jerusalem to help in the work there.

(c) That the British health work be put upon the same basis as it is in America and on the Continent.

(d) That the supplying of suitable medical missionary help for the annual meetings be left to the Medical Department, after conferring with such conferences as desire such help, the traveling expenses of such help to be reported to the European General Conference.

(e) That all the physicians of the European General Conference, as far as consistent, meet with the next session of the European General Conference.

(f) That we encourage the British Conference to further develop the medical missionary work by opening bath-rooms, with electric-light baths, in one or more different places in their field.

(g) That the health work be opened in Russia by sending one or two nurses to that field as soon as they can be found, and that the work be placed, as far as possible, upon a self-supporting basis.

(h) That we establish a monthly circular letter between the different institutions and medical fields, giving statistics of the treatments, and an account of such institutions, and the spiritual interests therein.

(i) That the Battle Creek Sanitarium be requested to send a schedule of their laboratory work to every one of our medical institutions, with such additions as may appear from time to time.

It might be well to refer to the situation in Jerusalem: Brother J. H. Krum, who opened the work there, is an ordained minister, and it is proposed that he go to Constantinople to take the place of Brother Baharian, who is trying to secure government permission to go to Egypt. Brother Krum would then be free to take up evangelical work, visiting among our Turkish Sabbath-keepers, who are greatly in need of help, but whom Brother Baharian cannot visit because of government interference.

5. Concerning the relationship existing between the Central European Conference, with its large unorganized mission field territory, and the European General Conference, it was stated that there would be in operation the same principles as obtain in the relationship of the Union Conferences to the General Conference.

6. The doings of the Finance Department, which were acted upon favorably by the entire Committee, may be summarized thus:—

(a) Every Conference and institution in the European General Conference shall have its accounts audited by a thoroughly competent person at least once a year.

(b) The time and expenses of the Chairman of the European General Conference are to be paid from the European General Conference funds, as well as such other expenses as may be incurred necessarily, in the doing of its work.

(c) In case of a deficit, the Finance Department will be expected to call upon the different Union fields to supply the lack, not otherwise provided for, in proportion to their membership and financial strength, that the legitimate expenses of the European General Conference may be met.

7. Some time was given to the consideration of the preparation that ought to be made for the observance of the week of prayer. After quite a thorough canvass of the subject, it was voted, —

That we recommend that the week of prayer be observed at such time as may best suit the circumstances in each of the conferences and mission fields, and that each of the Union Conference Committees make provision for such readings or general plan of the meetings as may seem best.

8. It was voted that Brother A. Boettcher and wife, of Hamburg, and Brother Hamar, of Sweden, connect with the depository in Helsingfors, Finland. There was also an earnest call made for more ministerial help in Sweden.

While the shortness of time allowed the brethren to only partially solve all the questions that needed attention, yet we felt that this had indeed been a profitable meeting. The Lord came nigh, and his Spirit of unity was present in our councils. Every one was fully convinced that the work in this large European field, and in the adjoining Asiatic and African territory, was only begun, and that even now, we ought to have more time to consider its needs. All felt grateful for having enjoyed the privilege of attending this meeting, and many have written us that the time spent there was of great help and encouragement to

them. Friedensau has indeed been, not only to the people of Germany, but to delegates from all parts of Europe, what its name signifies—a "Pasture of Peace," where the Chief Shepherd led them into green pastures, fed them with spiritual food, enlarged their minds as to the needs of his work, and prepared them to better surmount the obstacles which lay in their pathway.

L. R. CONRADI.

EUROPEAN GENERAL CONFERENCE.

FOR the convenience of BULLETIN readers, our friends in Europe have prepared a statistical report, presenting at a glance the more important facts relating to any conference or mission field within the territory of the European General Conference.

It is both interesting and instructive to reflect upon the fact that the present development of our work in Europe is the result of scarcely thirty years of missionary effort. Twenty-seven years ago, Elder J. N. Andrews was en route to Switzerland as our first director of the infant mission in central Europe. The believers were then a handful. Recalling the obstacles encountered in prosecuting the work in this difficult field, may we not exclaim, from hearts filled

with gratitude and devotion, "What hath God wrought!" Let us thank God and take courage.

Duly appreciating the fact that under the guiding hand of God the work in Europe has been thus prospered, may we not profitably inquire if our great Leader's design has been fully realized in that which has been accomplished. To this there can be but one answer. His power to perform wonders in evangelizing the peoples of the earth is only limited by the unbelief and indifference of his chosen human agents. Without useless waste of time in bemoaning our past unfaithfulness and inactivity, let us renew our devotion and diligence. Thus shall we know that He who is "excellent in working" even the "Lord of hosts," worketh in us mightily for the accomplishment of his own blessed purpose.

DIRECTORY OF THE SEVENTH-DAY ADVENTIST DENOMINATION.

GENERAL CONFERENCE.

Organized 1861.

Office: 267 West Main St., Battle Creek, Mich., U. S. A.

OFFICERS.

President: A. G. Daniells, 267 West Main St., Battle Creek, Mich.

Secretary: H. E. Osborne, 267 West Main St., Battle Creek, Mich.

Treasurer: H. M. Mitchell, 267 West Main St., Battle Creek, Mich.

EXECUTIVE COMMITTEE.

A. G. Daniells, 267 West Main St., Battle Creek, Mich.

H. W. Cottrell, South Lancaster, Mass.

I. H. Evans, care Review and Herald, Battle Creek, Mich.

C. W. Flaiz, Box 989, Minneapolis, Minn.

Frederick Griggs, South Lancaster, Mass.

S. N. Haskell, 400 West Fifty-seventh St., New York, N. Y.

MINISTERIAL DIRECTORY.

Only the names of ordained and licensed ministers appear in this list. To determine the nature of any person's appointment, reference should be made to the directory of the Conference operating in the field where the worker is located. This applies to the workers named above, as well as all other classes.

THE GENERAL CONFERENCE BULLETIN.

BATTLE CREEK, MICH., THIRD QUARTER, 1901.

EXTRA COPIES.

COPIES of this directory number of the BULLETIN will be mailed, postpaid, on receipt of five cents for each copy requested. Stamps will be received on small orders. Address, GENERAL CONFERENCE BULLETIN, 267 West Main St., Battle Creek, Mich.

THE DAILY BULLETIN.

THE complete record of our recent General Conference proceedings ought to be in the possession of every Seventh-day Adventist, in order that all may be intelligent concerning the plans for the prosecution of the work. This is necessary to effective individual co-operation. Complete sets of the *Daily Bulletin* will be sent, postpaid, to any address on receipt of fifty cents. Address, GENERAL CONFERENCE BULLETIN, 267 West Main St., Battle Creek, Mich.

OUR FALLEN WORKERS.

THE past few weeks have been made sadly conspicuous by the death of four of our general laborers, whose loyal devotion to the Master's service has won for them individually a large place in the affections of our people. Elders F. L. Mead and L. M. Crowthers fell suddenly while serving faithfully at their post of duty in distant lands. Elders H. P. Holser and D. T. Jones had each returned to native land, where they bore their final witness to the all-sufficiency of God's grace by calmly and patiently awaiting the final summons of the death messenger, the sound of whose distant footsteps had long since fallen upon their ears.

For the first time in years the names of these brethren do not appear in our workers' directory. Yet, thank God, the absence of their names does not mean that their influence has ceased. Of all such it is touchingly and beautifully declared that they "rest from their labors; and their works do follow them."

May the spirit of consecration and devotion which distinguished the service of these laborers, rest in double portion upon brave and trusting souls, who

will cheerfully and heartily respond to the call of God, and gird on the armor to "fight the good fight of faith" until the victory shall have been happily and gloriously consummated.

EXPLANATORY.

GENERAL CONFERENCE BULLETIN No. 2 of the present year was mailed very early. This number has been delayed in order to secure data for the directory. Because of these facts, the interval of time between these two numbers has been unusual. The last number for 1901 will be published early, in order to place the week of prayer readings before our readers in due time. The issue for the first quarter in 1902 may be somewhat delayed, awaiting the arrival of statistical reports covering the year 1901.

We regret that the nature of the matter to be published in the BULLETIN renders promptness and regularity of publication somewhat difficult of realization. Yet we trust this word of explanation will prepare our subscribers to cheerfully exercise the required degree of patience.

Promptness on the part of secretaries on whom we must depend will greatly facilitate the work of publishing without delay. Therefore be prompt, fellow secretaries; first, because promptness is right, and also because it is due those whom we serve.

THE WEEK OF PRAYER.

It was a memorable day in the experience of Christ's disciples, when, after listening to a thrilling prayer from the lips of the Son of Man, they came to him with the request, "Lord, teach us how to pray." No more, as in the days of His flesh, do the inspiring petitions of the Master fall like sweet music upon listening human ears. But now, as then, the blessed truth of Christ's intercession for men, constrains hungering hearts everywhere to seek entrance to the banqueting house of His love through the open gateway of prayer.

In 1888 occurred our first general week of prayer services. Since then these yearly exercises have been a source of new life and hope to thousands of our people. These special services of prayer for 1901 are appointed to be held December 21 to 28 inclusive. The readings will appear in the next number of the GENERAL CONFERENCE BULLETIN. May all in whose hearts God has inspired love for present truth, most earnestly plead, "Lord, teach us how to pray."
