GENERAL INFORMATION.

It certainly affords us great pleasure to be able to present these two reports for the year and the fourth quarter of 1920 respectively. The data given will, I am sure, be studied by all with satisfaction since this is the first comprehensive report of its kind since 1914, when the conditions brought about by the World War rendered it impossible to collect the material from the different fields.

In comparing the figures with those of pre-war times we are impressed with the evidences of the kind watchcare of our heavenly Father over His work in Europe during the unparalleled troubles this continent has had to pass through. Cast as it were, upon its own resources, and left apparently to itself, Europe has experienced the signal blessing of God when we consider the fact that some 20,000 new believers have been added to our ranks during these times of most adverse conditions. This certainly fills our hearts with profound gratitude, of which we should be mindful when looking over these figures. We are reminded of the seventy disciples who returned unto the Lord with joy, reporting the tokens of His help in their work. As a matter of fact, our conferences and missions in Europe have already surpassed this number representing so many strong units to proclaim the good tidings throughout this large field.

Considering the conditions under which this report has been compiled, it is obvious that some gaps could not possibly be filled at this first attempt. The situation in Russia accounts for the complete lack

of statistics from this west region. After the border states of Estland and Lettland, with some 1,700 members, have been attached to the Scandinavian Union, a conservative estimate places the membership for Russia at some 6,500, in which we are quite safe from what we can glean from reports which come through to us. We understand that the brethren there are endeavouring to compile material for 1920. Careful estimates of the British missions and of Poland bring our total membership for the European Division up to 52,712, truly a most gratifying number.

Generally, the columns in the reports correspond to those of the General Conference blanks, Nos. 13, 14 and 26 (Contributions for Home Mission and Local Church Work and Value of Church School Buildings respectively) have been omitted, because no data is available as yet, while Nos. 24-26 of the quarterly blank have been inserted into the annual and the figures given, so far as they were at hand.

Pre-war rates were applied in transposing the different moneys, viz., 4.20 German marks, 5.10 Finnish marks, 5 Polish marks, 5.25 Austrian kroner; 3.70 Danish, Swedish and Norwegian kroner, 5.15 francs etc. to the dollar. While this will not do justice to the fields in any particular comparative study, and does not represent the actual financial worth of a large portion of the money received in view of its great depreciation and loss in purchasing value, yet it appeared the best method to adopt for the past. Beginning

with 1921, the fields will report in their own currency, transposing only the sum totals into dollars at the current rates of exchange.

The following remarks may serve as explanation of some of the items: Column 4 includes members received by vote, viz.: East German Union 112, Scandinavian Union 149, and Czecho-Slovakia 27. These figures were given on the quarterly blanks used by them. It is not known whether the other unions have incorporated these under those baptized. Column 9 includes *other workers* not enumerated under 5-8.

Scandinavian Union.—No annual report had been received and the figures are therefore compiled from the quarterly reports. The actual data for the Young People's work is probably better than estimated here. The Sabbath-schools and members for Estland and Lettland are estimated according to the churches. The report of these two conferences covers the first three quarters of 1920.

Column 12 includes \$3,396.11 on the Harvest Ingathering, and Column 17, \$5,864.87 Thirteenth Sabbath Offerings for the last two quarters.

Column 17, book sales, for Rumania, the Levant, and a few other smaller items are estimated. For the fourth quarter no figures were available.

Column 19 was generally not given in the reports, hence as a rule a tenth of the tithe has been inserted here. Most secretaries were not clear as to what was understood under this item. From the Central European Union I understand that a second tithe has been given, making the sum total \$76,862.35. The amount for Scandinavia is probably larger than

given here, but no particulars have been received.

Column 33. On completing the report, it was found that the total did not agree with Nos. 30-32. This was due to No. 32, under the East German Union, having been omitted to be added to No. 33 in the report received. The total contribution under this union should add \$2,335.85. The difference between this figure and the one given under 32; could not be traced.

West German Union.—The sum total under column 12, includes also \$2,435.96 which should have been reported under 30; they are not included, however, in the figures given under 24 to 26 just preceding. This could not be corrected.

Jugo-Slavia.—The quarterly report was lost and the figures given were based on the annual report. On account of a mistake in the exchange, the financial part should be reduced by about one half, to agree with the general rate applied.

It is hoped that the report for the first quarter of 1921 can be compiled at an early date and that all secretaries will do their best in co-operating to make the statistical material absolutely correct and reliable. According to the resolution of the Council held at Berne, the reports should be at our office within one month after the close of each quarter. As the compilation cannot be unduly delayed every secretary should make sure to have his report reach us in time so as to avoid any possible gaps that must otherwise appear.

It is indeed gratifying to have made such a start which promises well for the future.
