GENERAL INFORMATION.

THIS statistical report for the third quarter goes to the press fully three weeks earlier than the preceding one, which is an encouraging forward move in our endeavours to improve our reporting system. We hope that the printed material may be in the hands of our various conference secretaries in time for comparison when preparing the reports for the fourth quarter and the whole year. Any adjustments that have been found necessary, especially in the matter of

membership, should be made in the report for the fourth quarter.

Our membership, it will be seen, is steadily increasing and has reached, for the whole Division, 57,465 at the end of September. This is an actual increase over the second quarter of 2,291. The additions by baptism and vote of 2,497 exceed those for the previous report by 112 members.

The rise in membership is due in part to an addition for Russia of 963 which,

THIRD QUARTER, 1921.

according to more accurate reports just received, totals 7,463 rather than our conservative estimate of 6,500 members as given thus far. The figures for the West and South Russian Unions represent the actual standing of these fields at the end of June, while the additions of 437 are understood to be for the first six months of this year. The data for the East Russian and Siberian Unions is that of December 31, 1920, and no information has been obtained as to any changes after this date. The East Russian Union naturally includes the figures for the Caucasian and North Russian Unions which have since been organized. 526 reported under columns 13 and 20 is the balance or surplus found in these revised figures when compared with the 6,500 of previous reports after deducting the additions of 437.

Brethren H. J. Löbsack and L. Woitkievycz, who have supplied this material, have promised to send in further detailed reports as soon as these have been com-

piled which, however, is not very easy under present circumstances. It is possible that Russia may be more fully represented in our annual report.

The following encouraging words occur in the letters we have received from these brethren: "In spite of all the tribulations and privations our workers are still of good courage," and "As touching our work here in Russia, it is onward in spite of prevailing conditions. Many a mountain had to be climbed with the help of God, but we are undismayed in the assurance that the Lord of hosts is our Captain in this great conflict of His people." THE SECRETARY.
Skodsborg, December 1, 1921.

The financial data follows the same plan outlined previously, viz., each conference and mission reporting in its own local currency, while the totals of the unions report in the money of the country in which their office is located with all the local currencies adjusted to it at the rate of exchange prevalent at the end of the respective quarter. The recapitulation is made in dollars at the current rate of exchange.
