The Statistical Report for 1926

A REPORT SHOWING SIXTY-FOUR YEARS OF PROGRESS

THE following pages present the sixty-fourth annual statistical report of the Seventh-day Adventist denomination, covering the year 1926. In certain cases, as indicated in the tables, the figures for the preceding year have been continued because of failure to receive revised returns.

member has been increased 78.09 per cent. In other words, for every \$100 given by each member in 1914, each member now gives \$178.09.

Extent of Work

This work is now conducted in 126 countries, by eight Division conferences, 65 Union organizations, comprising 143 local conferences and 198 mission fields, operating among a population aggregating 1,800,000,000, and employing 17,946 evangelistic and institutional laborers, who are using in their work 256 languages (publications being issued in 131), and connected with the movement are 255 institutions, representing, together with conference organizations and 2,361 church buildings, a total investment (for 1925) of \$45,648,299.24, a per capita of \$181.87, and an aggregate annual income for both evangelistic and institutional work of \$36,865,275.14, a per capita income (for 1925) of \$146.88.

Membership

The membership of the 5,862 organized churches, December 31, 1926, was 261,834, a net increase during that year of 10,846, or 4.32 per cent. The net increase for 1925 was 12,331; for 1924, 16,783; for 1923, 13,103, thus making a total increase for the past four years of 53,063, or 25.42 per cent gain since 1922.

In 1912, the church membership of the denomination was 98,044; in 1916, 141,488; in 1920, 185,450; in 1924, 238,657; in 1926, 261,834, a net gain, since 1912, of 163,790, or 167.06 per cent; in other words, for every 100 members in 1912, there are now 267.06 members.

As indicated above, the net increase in membership during the past four years was 53,063; for the preceding four years, 46,104; for the four years prior to that, 36,323; a total gain since 1914, of 135,990. The membership at the close of 1914 was 125,844. The gain in membership since 1914 has, therefore, been greater than the entire membership as it stood twelve years ago, the per cent of increase being 108.06. In other words, for every 100 members in 1914, there are now 208.06 members. Stated in another way, the gain during the past 12 years has been greater than during the preceding 52 years.

And the efficiency of these members in making contributions for the extension of this work has been increased from \$24.56 per capita for total funds in 1914, to \$43.74 in 1926, a gain of \$19.18 per member; so that, notwithstanding the doubling of the membership during this twelve-year term, the efficiency of each

From the accompanying table which makes a comparison of funds during the past twelve years, it will be seen that the total amount received during the first 52 years after this work was organized, aggregated \$31,675,894.76, while the total receipts during the past twelve years were \$98,719,374.05. In other words, for every \$100 received on an average during each of the 52 years, there was received during each of the 12 years \$1,351.00.

Now compare these figures with this increase in membership during the same periods. The membership as it stood at the close of the first 52 years was 125,844; during the past 12 years the increase was 135,990; or for every 100 members gained on an average during each of the 52 years, the increase during each of the 12 years was 468 members.

This shows clearly that for the periods under consideration the funds received for the prosecution of this work have increased at a more rapid rate than the increase in members. This fact is also shown by a comparison of the per capita amounts of total contributions, which for 1914 was \$24.56, and for 1926, \$43.74.

\$25,664,447.90

The accompanying statement, Summary 1, indicates the amount of tithe, as well as offerings for foreign missions and home missions received during 1925 and 1926, with the amount of increase or decrease for each Division. The increase in tithe over the receipts for the preceding year was \$54,834.84, or .93 per cent; the increase in foreign mission offerings was \$237,231.11, or 6.74 per cent; and the increase in home mission offerings was \$64,703.93, or 3.88 per cent. This indicates the total net increase of all funds received during 1926 over the amount received for the preceding year was \$356,769.88, or a per cent of 3.22.

For 1925, the per cent of increase in funds was 7.29; for 1924, 12.45; for 1923, 10.53. It will therefore be seen that the per cent of gain in total funds received during the past year is less than for any of the past four years. In this connection it may be observed that the per cent of increase in membership was 4.32 per cent; so the members increased at a greater ratio than was true in the case of funds.

The proportion of funds received during the past two years for various purposes is in the following order of percentages:

	Tithe	Foreign Missions	Home Missions
1925	53.26	31.73	15.01
1926	52.08	32.81	15.11

Thus it will be seen that the greatest increase in funds was in contributions for foreign missions, followed by a less amount for home missions, with a still less amount in the case of tithe. The above showing is substantiated by the per cent of increase in these funds, as follows:

Foreign Missions	6.74
Home Missions	3.88
Tithe	.93

The greatest increase for any one of these general lines of giving will be noted in the case of North America, where the increase of foreign mission offerings was \$224,193.11. The next highest amount was in the case of Europe, where the increase in home mission offerings was \$58,707.92. The same division also increased in the next highest amount, pertaining to tithe, or \$35,898.77. The per capita of total funds for the world field has been reduced from \$44.21 for 1925 to \$43.74 for 1926, a decrease of .47 cents per member throughout the world.

EVANGELISTIC AND INSTITUTIONAL

What has been previously stated regarding contributions relates solely to contributions for evangelistic work. In addition to such contributions, there are amounts received for institutional work, a brief reference to which at this point will be in place as showing the progress this work is making. In using these figures, however, a clear distinction should be made between funds for evangelistic work and additional amounts received for the operation of institutions.

The total amount received for evangelistic work and the income of all denominational institutions in 1916 was \$8,744,362.24, a per capita of \$61.80; in 1925 the income for both evangelistic and institutional work was \$36,865,275.14, a per capita of \$146.88. In other words, for every \$100 received in 1916, there was received in 1926, \$237.67.

In 1916 the denominational investment in institutions, churches, etc., was \$15,284,215.27; at the close of 1925 (the latest figures available) the investment was \$45,648,299.25, an increase during nine years of 198.66 per cent. That is, for every \$100 invested by the denomination in 1915, at the close of 1925 the investment was \$298.66.

The preceding figures relate to the income, investment, and per capita for the world membership. For North America alone these figures are:

North America

	Amount	Per Capita
Total tithe receipts	\$4,120,459.41	\$37.32
Total contributions to foreign missions	2,773,243.55	25.11
Total contributions to home missions	1,318,042.08	11.94
Total for evangelistic work, 1926	\$8,211,745.02	\$74.37
Income for all lines of institutional work in addition to above (for 1925)	\$10,592,569.48	\$95.93
Total for evangelistic and institutional work for the 110,422 members in North America	\$18,804,314.50	\$170.30

The figures relating to institutional income, as well as investment, will now be dropped, and, unless clearly indicated otherwise, all figures used in this report relate only to funds for evangelistic purposes—that is, tithe (for the support of the ministry) and offerings—home and foreign evangelistic work.

FOOTNOTES — TABLE 2, SECTION 4

(a) The system of educational work outlined by the Educational Department of the General Conference in 1906, comprising sixteen grades, or years of study, is arranged as follows: Church-schools (information concerning which will be found listed under columns 22 to 28 in Table 1), grades 1-3; intermediate schools, grades 7-10; academies, grades 9-12; colleges, grades 13-16.

(b) In compiling the returns, fractions of acres were not included.

(c) The "capacity" of schools is the number of students that may be accommodated in classes, and does not refer to dormitory or boarding accommodations provided.

(d) The grades taught by each should indicate

the kind of work undertaken, as outlined in note (a).

(f) In the column indicating laboratory facilities the word "No" occurs where the schools have none; the word "Yes" is used in connection with schools having such facilities. These facilities cover lines of work in various schools as follows: Astronomy, chemistry, physics, histology, zoology.

Schools having facilities for manual training are indicated by "Yes" in corresponding column; those not having such facilities are listed with "No" opposite. These facilities range as follows: Carpentry, cooking, farming, dairying, nursing, printing, plumbing, horticulture, dressmaking, tent-making, broom-making, brick-making, etc.

(g) Column 14 shows the total number of graduates from all grades; cols. 15, 16, and 17, the

number graduated from grades 12, 14, and 16, respectively.

(h) Column 13 shows the number of students (not graduates alone) entering some department of denominational work during the year.

* No report received for 1926.

From the lists of schools contained in the preceding as well as the following group, there have been eliminated the names of 27 schools that are doing some advanced work, but principally primary work, and hence would be considered as coming under the general table where primary schools are listed. It has therefore been thought best to discontinue such schools from these lists. This will account for the apparent decrease in the number of advanced schools, as well as other items usually reported in this section of Table 2.

For a number of years the figures in Summary 7 have included information regarding certain sanita- riums and treatment rooms, and of those connected therewith which were listed in Table 2 as being under private management, but are now omitted from this report. This omission will account for the apparent decrease in the above figures.
