STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions

Year Ending December 31, 1936. The Seventy-fourth Annual Report

Issued by the General Conference of Seventh-day Adventists, Takoma Park, Washington, D. C.

Compiled by H. E. Rogers, Statistical Secretary

At the close of 1936, this work was conducted in 378 countries, islands, and island groups, by 26,553 evangelistic and institutional laborers, who are using in their work 649 languages and dialects. This is an increase of 71 languages during 1936, or practically one new language added every five days during the year. The increase since 1929 has been 255 languages, or one new language added on an average of every ten days during the past seven years.

The membership of the 8,243 churches of the denomination throughout the world at the close of 1936 was 438,139. This is a gain of 138,584 since 1929, and is equivalent to a gain greater than the entire membership of the denomination as it stood in 1915, 72 years after this movement began.

This gain is shown by Divisions as follows:

There are now 70 Union Conferences, 143 local conferences, 328 missions, and 489 institutions, with which are connected a total of 26,553 evangelistic and institutional laborers. In 1920 the number of laborers in North America and outside stood about equal, with 6,553 in North America, and 6,528 outside, a total of 13,081. But now the number outside greatly exceeds those laboring in North America. The total laborers now stand thus: North America, 9,650; outside, 16,903. The percentages are, for North America, 36.34; outside, 63.66. It will be noticed that the number of laborers engaged in service has more than doubled during the past sixteen years. The number of laborers for 1936 constitutes one active laborer for every 16.5 members.

FOOTNOTES—TABLE 2, SECTIONS 4-6

(a) The system of educational work outlined by the Educational Department of the General Conference in 1906, comprising sixteen grades, or years of study, is arranged as follows: Church-schools (information concerning which will be found listed under columns 23 to 27 in Table 1), grades 1-3; intermediate schools, grades 7-10; academies, grades 9-12; colleges, grades 13-15.

(b) In compiling the returns, fractions of acres were not included.

(c) The "capacity" of schools is the number of students that may be accommodated in classes, and

does not refer to dormitory or boarding accommodations provided.

(d) The grades taught by each should indicate the kind of work undertaken, as outlined in note (a).

(f) In the column indicating laboratory facilities the word "No" occurs where the schools have none; the word "Yes" is used in connection with schools having such facilities. These facilities cover lines of work in various schools as follows: Astronomy, chemistry, physics, histology, zoology.

Schools having facilities for manual training are indicated by "Yes" in corresponding column:

those not having such facilities are listed with "No" opposite. These facilities range as follows: Carpentry, cooking, farming, dairying, nursing, printing, plumbing, horticulture, dressmaking, tent-making, broom-making, brick-making, etc.

(g) Column 15 shows the total number of graduates from all grades; cols. 16, 17, and 18, the number graduated from grades 12, 14, and 16, respectively.

(h) Column 19 shows the number of students (not graduates alone) entering some department of denominational work during the year.

Countries and Languages

The attention of the reader may be called to the rapidity with which this work has spread to other nations and tongues. This will call to your mind the words of our Saviour when he said, as recorded in Matthew 24:14:

"And this gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come." This statement is being fulfilled, the nations are having the gospel preached to them, and we may look for the end to come at His appointed time.

Now let us note from the summary on page 4, the rapid movements in reaching other peoples with this message. Just fifteen years ago, in 1921, the printed and oral languages in which this work was carried, numbered only 179, while the number of countries in which operations were carried on were 108. Ten years later, in 1931, the total languages were 455, and we were then operating in 141 countries. At the close of 1936, five years later, the total languages were 649, and we were then operating in 378 countries, islands, and island groups.

Literature Prepared

It may be well to study briefly Table 3, page 25, regarding literature that has been prepared to reach these peoples with this message. In 1921, we were printing 148 periodicals; in 1931, 237; in 1936, 282. The number of books issued in 1921 was 768; in 1931, 1,567; in 1936, 1,955. The pamphlets and tracts in 1921 were 2,591; in 1931, 4,583; in 1936, 5,725. Total literature of all kinds was issued in 100 languages in 1921, constituting 3,507 different forms, containing 278,805 pages, one copy of each costing \$1,000.80. In 1931, we were issuing literature of all kinds in 152 languages, constituting 6,387 different forms, containing 480,802 pages, one copy of each costing \$1,885.80.

At the close of 1936, we were issuing literature of all kinds in 194 languages, constituting 7,962 different forms, containing 572,128 pages, one copy of each costing \$2,283.29.

This shows great activity in going to the various nations, in some cases first reducing their languages to writing, preparing the matter, and printing and distributing it to these peoples.

The different forms of literature published has therefore increased in fifteen years, from 3,507 in 1921 to 7,962 in 1936, or 127.03 per cent. The total pages have been increased from 278,805 pages in 1921 to 572,128 in 1936, or 105.21 per cent. The value of one copy of each form in which this literature is prepared has increased from \$1,000.80 in 1921 to \$2,283.29 in 1936, or 128.15 per cent.

This shows a great reaching out for souls who do not know this truth. An effort has been made to list the languages in which this work is being conducted; but this list is not at all complete. There are great sections of Africa occupied by thousands of heathen people in which we have as yet no workers, and yet the truth has penetrated there, and there are today companies of Sabbath keepers there who are doing the best they can to live this truth. How was the truth carried to them? The Lord only knows. Only such languages are listed as are known. There are many others not as yet definitely known.

Literature Sales

During 1936 book and periodical sales throughout the world field amounted to a total of \$3,622,299.38. This literature is prepared in the form of 282 periodicals, 1,955 books, 1,068 pamphlets, and 4,657 tracts, a total of 7,962 publications, containing 572,128 pages, one copy of each costing \$2,283.29. The number of persons employed by the 73 publishing houses in the production of this literature is 1,154, while 3,383 persons are engaged in its circulation in the 194 languages. The total sales for the year averaged \$1,070.74 for each of the colporteurs engaged. The total book and periodical sales since 1863 have aggregated \$109,948,167.20.

Sanitariums and Treatment Rooms

Summary 4, on page 5, shows a total of 95 sanitariums, 68 treatment rooms, employing 1,070 physicians, while the total persons engaged in this line of work is 5,995, the largest number engaged in any line of work. The investment in this line is more than \$9,000,000.

Primary and Advanced Schools

Summary 7, page 5, indicates a total of 2,514 primary schools, with 3,283 teachers, and an enrolment of 83,605. Advanced schools number 221, with 2,432 teachers, and an enrolment of 29,227. Thus there is a total of 2,735 schools carrying all grades, with 5,715 teachers, and an enrolment of 112,832 students, or practically one student in denominational schools for every four church members. The total investment in this line exceeds \$10,000,000.

Table 2

Pages 20 to 24 lists the various institutions connected with the denomination, and shows a total of 489 institutions throughout the world, with which are connected 13,964 persons as employees. The total investment in all these institutions is approximately \$26,000,000.
