STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions

Year Ending December 31, 1937. The Seventy-fifth Annual Report

Issued by the General Conference of Seventh-day Adventists, Takoma Park, Washington, D. C.

Compiled by H. E. Rogers, Statistical Secretary

At the close of 1937, this work was conducted in 385 countries, islands, and island groups, by 28,029 evangelistic and institutional laborers, who are using in their work 714 languages and dialects. This is an increase of 65 languages during 1937, or practically one language added every five days during the year. The increase since 1929 has been 320 languages, or one new language added on an average of every nine days during the past eight years. In addition, our missionaries reporting on languages for this report, gave information concerning about 250 other language areas which they could enter if they had the facilities with which to carry on the work. These languages were in use in the countries where they were already working.

The membership of the 8,388 churches throughout the world at the close of 1937 was 452,758, a net increase during the year of 14,619. The increase in membership since 1929 has been 153,203, and is equivalent to the entire membership of the denomination as it stood in 1917, 74 years after this movement began.
