STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions in World Field

For the Year Ending December 31, 1949

The record of another year is presented in this summary of Seventh-day Adventist activities throughout the world, under the guiding hand of our Heavenly Father. The church membership in North America and overseas divisions was 716,538 at the close of 1949, an increase of 43,880 members over 1948. This represents 65 new members for every 1,000 appearing on the church rolls at the beginning of 1949, compared with an average increase of 70 per 1,000 in 1948. In overseas territories the average increase of new adherents was 83 per 1,000 members. The overseas membership increased 36,147 during 1949; in North America the increase was 7,733, a total of 43,880 for the denomination as a whole.

All church contributions throughout the world field, including titho, mission offerings and donations for home and local work, were \$44,450,803.21 in 1949 (not including additional relief offerings of \$294,767.43), representing a total increase of \$2,416,266.43 over 1948. Each member contributed \$62.03, on the average, during 1949; in North America the average was \$137.07 per capita, compared with \$135.70 in 1948, an increase of \$1.37.

The tabulations in this report make comparisons over a period of years of church memberships, titho and other contributions, as well as departmental and institutional activities. Detailed information is presented in tables regarding Seventh-day Adventist conferences and missions around the world; the progress of educational, medical and publishing institutions; the countries where Seventh-day Adventist missions are conducted, and the languages in which publications of the church are issued. Summaries indicate the growth of major activities of the denomination since the organization of the General Conference in 1863.

† These numbers of teachers in schools outside of North America include teachers in the elementary grades as well as those above that level.

FOOTNOTES—TABLE 2, SECTION 1, EDUCATIONAL INSTITUTIONS

(a) The system of educational work outlined by the Educational Department of the General Conference in 1906, comprising sixteen grades or years of study, is arranged as follows: Elementary church schools (information concerning which will be found listed under columns 24 to 28 in Table 1), grades 1-8; intermediate schools, grades 7-10; academies or secondary schools, grades 9-12; colleges, grades 13-16. In schools outside of North America this classification of grades cannot be fully followed owing to differences in educational systems and because training standards are not uniform in all localities.

The College of Medical Evangelists gives a four-year medical course based on a minimum of three years of college work; and the Seventh-day Adventist Theological Seminary offers three years of graduate class study above the regular college degree courses.

Part 2 of Section 1—Intermediate Schools—includes some schools doing eleven grades of work and even a few carrying classes in the twelfth grade, but which are not organized as regular academies. Schools with less than ten pupils above the eighth grade are not generally listed, but the number of secondary students in intermediate schools not shown in the detailed report is given in the total designated, "Pupils above eighth grade in Elementary Schools." Only pupils above the eighth grade are considered secondary students.

(b) The "capacity" of schools is the number of students that may be accommodated in classes, and does not refer to dormitory or boarding space provided. Buildings and student capacity of academies connected with colleges are included in the college figures.

(c) The number of pupils in Grades 1-8 in elementary schools connected with colleges, academies and intermediate schools is included in Column 26 of Table 1, and is shown here only for information, and not to be counted again.

The number of teachers in elementary schools connected with colleges and secondary schools is included with other church school teachers in Table 1, column 26, and is not counted in the totals of teachers in Section 3 except where the teacher groups cannot be divided in schools outside of North America, and for these the estimated number of elementary teachers is subtracted from the total.

(d) The grades taught in each school indicate the kind of work undertaken, as outlined in note (a). In North America intermediate schools generally are noted as teaching grades 1-10 or 1-11.

(e) In the column indicating laboratory facilities the word "No" occurs where the schools have none; the word "Yes" is used in connection with schools having such facilities. These facilities cover one or more lines of work in various schools as follows: Astronomy, chemistry, physics, histology, zoology.

Schools having facilities for manual training are indicated by "Yes" in corresponding column; those not having such facilities are listed with "No" opposite. These facilities include one or more of the following: Carpentry, cooking, farming, dairying, nursing, printing, plumbing, horticulture, dress-making, tent-making, broom-making, brick-making, etc.

(f) Column 16 shows the total number of graduates in finishing courses in the academies and colleges. In schools other than some training schools for workers outside of North America no graduates are counted below the twelfth grade. Graduates are for the school year ending in May or June, 1949.

(g) Column 19 gives the number of students (not graduates alone) reported as entering some regular line of denominational work. Student colporteurs selling literature during the vacation period, and persons continuing training in nurses' or medical courses are not considered as definitely entering denominational service at that time.

(h) In 1949 the College of Medical Evangelists graduated 74 students from the medical course, six from the dietetics course, and 27 from technicians course. The Seventh-day Adventist Theological Seminary conferred 32 master's degrees.

(i) A number of students taking classes with the Home Study Institute are also enrolled in regular colleges and academies, and the most of the students studying with the Home Study Institute are carrying only one or two classes each. The Home Study Institute reports 17 instructors doing some teaching for them in 1949 who are connected with other educational institutions, besides the listed faculty members and office staff.

(j) For the first time, this year the number of nurses in training in sanitarium Schools of Nursing have been included, also the number of nurses graduating.

COUNTRIES, ISLANDS, AND ISLAND GROUPS IN WHICH SEVENTH-DAY ADVENTIST WORK HAS BEEN ESTABLISHED

The work of Seventh-day Adventists is being carried on in nearly all of the principal countries of the world, and in many of the smaller geographical divisions. It is generally considered that a country or political section has been entered by Seventh-day Adventist interests when regular medical, educational, or other mission activities are being conducted among the people of that particular area, or when there is in the territory one or more groups of persons connected in an organized way with the denomination, such as in Sabbath school or church fellowship. A new field is not considered as entered when only itinerant preaching or colporteur work has been done, or when there are only a few scattered believers.

Recognizing the need of a reliable list of political and geographical divisions which could be used as a basis for checking the different areas in which Seventh-day Adventist work is being carried forward, the following action was taken at the 1946 General Conference session:

"Voted, That the designations of the several sections of the world field in which Seventh-day Adventists are conducting their work be based on the list of countries, islands, and island groups in such authoritative works as the *World Almanac* and the *Statesman's Yearbook*."

Following this procedure, the list shown below comprises the political and geographical divisions given in the *World Almanac* and the *Statesman's Yearbook* with the exception of the individual states of the United States of America, and the several continental provinces of Canada, Australia, the Union of South Africa, former British India, and Germany. The list also includes principal island groups of the Pacific Ocean.

With world conditions as unsettled as at this time, it is not unlikely that political changes may render difficult the maintaining of stable lists of countries for checking purposes. Furthermore, there may be other standard catalogs of countries which should be consulted in addition to those mentioned above. The editors of the STATISTICAL REPORT will welcome any corrections or additions to the lists here presented, substantiated by authoritative sources of information.

Paralleling the standard list of political and geographical areas shown below, there are given the names of the countries, islands, and island groups in which Seventh-day Adventist work is being conducted at the present time, as far as they have been recorded in the General Conference office. This list also is subject to correction by those who are intimately acquainted with conditions in the various sections of the world field; and the list will be extended as new mission territories are entered.

Political and geographic sections of the world as given in the *WORLD ALMANAC* and the *STATESMAN'S YEARBOOK*. Countries and geographic areas in which Seventh-day Adventist work is being done.
