STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and

Institutions in World Field

For the Year Ending December 31, 1952

God is abundantly blessing the efforts of His people all over the world, and it gives us courage to look forward to the soon fulfillment of the promise that Jesus is coming. Then there will be an end to all the suffering, and pain, and anxiety so prevalent in the world today.

During 1952, there were 75,774 persons baptized and joined in fellowship with us; deducting the deaths and apostasies there is a net gain in membership of 52,743 which brings our world membership up to 856,463. These are all increases over the previous year, and at this rate it will be less than three years when we will have passed the one million mark in membership. This is wonderful and it inspires us, but frankly, what is one million members in a world of two billion four hundred million persons. There would still be 2,400 persons for every Seventh-day Adventist. What tremendous responsibility rests upon us all—but what tremendous grace and power is offered to us if we will but ask the Source of all power.

We confidently expect to see three overseas divisions pass the one hundred thousand mark in membership during 1953. On September 6, 1952, a special baptismal Sabbath in the Southern African Division, 5,063 persons were baptized. During the year they reported 17,381 baptisms; Inter-America reported 10,305 baptisms. The Southern Asia Division with all the various oriental philosophies is showing the greatest interest ever and many are joining with us.

In overseas divisions the administrative responsibilities are being shifted more and more to national workers; however, there were 206 workers sent to these fields during 1952.

There are 14,785 workers reported for North America in institutional and evangelistic work, and 23,374 overseas. This is an increase of more than 1,000 workers over the previous year.

The total church contributions throughout the world amounted to \$56,097,969.43, or a per capita of \$77.19. This amount includes tithe, foreign mission offerings, and offerings for home work. This is an increase of 7.38% over the previous year. Comparative tables of giving during previous years are listed in this report and warrant the careful study of every worker. All monies are shown in U.S. currency.

There is definitely no surplus of church buildings. 6,250 buildings are reported with a seating capacity of 975,278. With the expected influx of new members there must be a continual church building program in progress.

A general increase and improvement is shown in all institutions and departments which is as it should be. The Publishing Department reports book and periodical sales of 16,371,888.24 for the year.

We have tried to make this report as helpful as possible and will appreciate any suggestions or helpful criticisms.

* No report. Membership not counted in per capita giving.

NOTE: While church contributions throughout the world during 1952 increased by \$3,856,989.15 over 1951, as expressed in U.S. currency, it is to be remembered that in most, if not all, overseas divisions contributions in local currencies have increased to a considerably greater extent than this report would seem to indicate, as adjustments in international monetary exchange rates have affected adversely such exchange calculations. In most instances where this report would appear to indicate a decrease in the tithe and/or offerings of a particular field as expressed in U.S.

currency, there was in fact an increase in local currency actually received.

In harmony with the provision of the General Conference Constitution, and commencing with the 1950 statistical report, the calculations of per capita tithe and offerings are based on the average church membership of the four quarters ended September 30, 1951. In future years the basis of such computations will continue to be "the average of the membership of the four consecutive quarters ending on September 30 of the preceding year," as provided for in the General Conference Constitution.

FOOTNOTES—TABLE 2, SECTION 1, EDUCATIONAL INSTRUCTIONS

(a) The system of educational work outlined by the Department of Education of the General Conference in 1906, comprising sixteen grades or years of study, is arranged as follows: Elementary church schools (information concerning which will be found listed under columns 26 to 29 in Table 1), grades 1-8; intermediate schools, grades 7-10; academies or secondary schools, grades 9-12; colleges, grades 13-16. In schools outside of North America this classification of grades cannot be fully followed owing to differences in educational systems and because training standards are not uniform in all localities.

The College of Medical Evangelists gives a four-year course based on a minimum of three years of college work; and the Seventh-day Adventist Theological Seminary offers three years of graduate class study above the regular college degree courses.

Part 3 of Section 1—Intermediate Schools—includes some schools doing eleven grades of work and even a few carrying classes in the twelfth grade, but which are not organized as regular academies. Schools with less than ten pupils above the eighth grade are not generally listed, but the number of secondary students in intermediate schools not shown in the detailed report is given in the total designated, "Pupils above eighth grade in Elementary Schools." Only pupils above the eighth grade are considered secondary students.

(b) The "capacity" of schools is the number of students that may be accommodated in classes, and does not refer to dormitory or boarding space provided. Buildings and student capacity of academies connected with colleges are included in the college figures.

(c) The number of pupils in Grades 1-8 in elementary schools connected with colleges, academies and intermediate schools is included in Column 27 of Table 1, and is shown here only for information, and not to be counted again.

The number of teachers in elementary schools connected with colleges and secondary schools is included with other church school teachers in Table 1, column 12, and is not counted in the totals of teachers in Section 1, except where the teacher groups cannot be divided in schools outside of North America, and for these the estimated number of elementary teachers is subtracted from the total.

(d) The grades taught in each school indicate the kind of work undertaken, as outlined in note (a). In North America intermediate schools generally are noted as teaching grades 1-10 or 1-11.

(e) In the column indicating laboratory facilities the word "No" occurs where the schools have none; the word "Yes" is used in connection with schools having such facilities. These facilities cover one or more lines of work in various schools as follows: Astronomy, chemistry, histology, physics, zoology.

Schools having facilities for manual training are indicated by "Yes" in corresponding column; those not having such facilities are listed with "No" opposite. These facilities include one or more of the following: Carpentry, cooking, farming, dairying, nursing, printing, plumbing, horticulture, dress-making, tent-making, broom-making, brick-making, etc.

(f) Column 15 shows the total number of graduates in finishing courses in the academies and colleges. In schools other than some training schools for workers outside of North America no graduates are counted below the twelfth grade. Graduates are for the school year ending in May or June, 1952.

(g) Column 19 gives the number of students (not graduates alone) reported as entering some regular line of denominational work. Student colporteurs selling literature during the vacation period, and persons continuing training in nurses' or medical courses are not considered as definitely entering denominational service at that time.

(h) In 1952 the College of Medical Evangelists graduated 102 students from the medical course, 7 from the dietetics course, and 35 from technicians courses. The Seventh-day Adventist Theological Seminary conferred 45 Masters, and 2 Bachelor of Divinity degrees.

(i) A number of students taking classes with the Home Study Institute are also enrolled in regular colleges and academies, and the most of the students studying with the Home Study Institute are carrying only one or two classes each. The Home Study Institute reports 21 instructors doing some teaching for them in 1952 who are connected with other educational institutions, besides the listed faculty members and office staff.

(j) For the past four years the number of nurses in training in sanitarium Schools of Nursing have been included, also the number of nurses graduating.

COUNTRIES, ISLANDS, AND ISLAND GROUPS IN WHICH SEVENTH-DAY ADVENTIST WORK HAS BEEN ESTABLISHED

The work of Seventh-day Adventists is being carried on in nearly all of the principal countries of the world, and in many of the smaller geographical and political divisions. It is generally considered that a country or political division has been entered by Seventh-day Adventist interests when regular medical, educational, or other mission activities are being conducted among the people of that particular area, or when there is in the territory one or more groups of persons connected in an organized way with the denomination, such as in Sabbath school or in church fellowship. A new field is not considered as entered when only itinerant preaching or colporteur work has been done, or when there are only a few scattered believers.

Recognizing the need of a reliable list of geographical and political divisions which could be used as a basis for checking the different areas in which Seventh-day Adventist work is being carried forward, the following action was taken at the 1946 General Conference session:

"Voted, That the designations of the several sections of the world field in which Seventh-day Adventists are conducting their work be based on the list of countries, islands, and island groups in such authoritative works as the *World Almanac* and the *Statesman's Yearbook*."

Following this procedure, the list shown below comprises the geographical and political divisions given in the *World Almanac* and the *Statesman's Yearbook*.

With world conditions as unsettled as they are at this time, it is not unlikely that political changes may render difficult the maintaining of stable lists of countries for checking purposes. Furthermore, there may be other standard catalogs of countries which should be consulted in addition to those mentioned above. The editor of the STATISTICAL REPORT will welcome any corrections or additions to the lists here presented, substantiated by authoritative sources of information.

Paralleling the standard list of geographical and political areas shown below, there are given the names of the countries, island groups, and islands in which Seventh-day Adventist work is being conducted at the present time, as far as they have been recorded in the General Conference office. This list also is subject to correction by those who are intimately acquainted with conditions in the various sections of the world field; and the list will be extended as new mission territories are entered.

Geographical and political divisions of the world as given in the *WORLD ALMANAC* and the *STATESMAN'S YEARBOOK*.

N.B. Recent political developments in different parts of the world, resulting in the absorption of and combining together of certain areas hitherto considered to be separate political entities, have necessitated a considerable curtailment in the number of countries listed. The totals as given above are therefore somewhat reduced as compared with previous years. In no case, however, does this indicate the withdrawal of our denominational activities from any previously listed country or island.
