STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions in World Field

For the Year Ending December 31, 1954

"Who is she that looketh forth as the morning, fair as the moon, clear as the sun, and terrible as an army with banners?" Song of Solomon 6:10. Throughout the earth in every division and in every line of work there are not only reports that show advancement, but indications of a mighty advance movement and the capturing of thousands of souls for Christ.

As of December 31, 1954 the church membership stood at 972,071 with 11,447 church organizations. During the past year 82,288 persons were taken into church fellowship and at the present time we feel confident that we have well passed the million mark.

Seventh-day Adventists are preaching the gospel in 726 languages and dialects, and literature on doctrinal subjects is printed in 200 of these various languages. The retail value of the literature sold during 1954 amounted to \$17,271,860.76.

The Southern African Division and the Inter-American Division have passed the 100,000 mark in church membership. Southern Europe will no doubt reach this mark during 1955 and we are hoping the Far East and South America will reach that figure in 1956. The Seventh-day Adventist denomination has with the blessings of God grown to a large organization with an income from tithes and offerings of over 5 million dollars each month.

The total tithe from the world field amounted to \$37,552,283.11, offerings to foreign missions were \$12,314,407.93, and offerings for home and local expenses amounted to \$12,741,303.33, making a total of \$62,607,994.37 during 1954. The per capita giving for the North American Division amounted to \$183.54. The per capita giving in other divisions was considerably less, but it is not because our people are less faithful, but rather because of exchange rates, as well as a lower standard of living in the less developed areas of earth.

Another interesting observation is the increase of laborers. There was an increase of 490 evangelistic workers and 1,998 institutional workers during 1954. The increase in institutional workers was mostly in our medical institutions. Encouraging comments could be made about the various departments and agencies used for the advancement of the church, but for the growth of each department, I would refer you to the various tables and exhibits in this annual report. Surely God is good to His people and the workers have been faithfully trying to follow His guiding hand. Our prayers especially go out to those who are living in restricted areas that they may remain faithful, and that the honest in heart may soon be brought to a full knowledge of the saving gospel truth.

NOTE: While church contributions throughout the world during 1954 increased by \$2,195,798.53 over 1953, as expressed in U.S. currency, it is to be remembered that in most overseas divisions contributions in local currencies have increased to a considerably greater extent than this report would seem to indicate, as adjustments in international monetary exchange rates have affected adversely such exchange calculations.

In harmony with the provision of the General Conference Constitution, the calculations of per capita tithe and offerings are based on "the average of the membership of the four consecutive quarters ending on September 30 of the preceding year."

FOOTNOTES—TABLE 2, SECTION 1, EDUCATIONAL INSTITUTIONS

(a) The system of educational work outlined by the Department of Education of the General Conference in 1906, comprising sixteen grades or years of study, is arranged as follows: Elementary church schools (information concerning which will be found listed under columns 26 to 29 in Table 1), grades 1-8; intermediate schools, grades 7-10; academies or secondary schools, grades 9-12; colleges, grades 13-16. In schools outside of North America this classification of grades cannot be fully followed owing to differences in educational systems and because training standards are not uniform in all localities.

The College of Medical Evangelists gives a four-year course based on a minimum of three years of college work; and the Seventh-day Adventist Theological Seminary offers three years of graduate class study above the regular college degree courses.

Part 3 of Section 1—Intermediate Schools—includes some schools doing eleven grades of work and even a few carrying classes in the twelfth grade, but which are not organized as regular academies. Schools with less than ten pupils above the eighth grade are not generally listed, but the number of secondary students in intermediate schools not shown in the detailed report is given in the total designated, "Pupils above eighth grade in Elementary Schools." Only pupils above the eighth grade are considered secondary students.

(b) The "capacity" of schools is the number of students that may be accommodated in classes, and does not refer to dormitory or boarding space provided. Buildings and student capacity of academies connected with colleges are included in the college figures.

(c) The number of pupils in Grades 1-8 in elementary schools connected with colleges, academies and intermediate schools is included in Column 27 of Table 1, and is shown here only for information, and not to be counted again.

The number of teachers in elementary schools connected with colleges and secondary schools is included with other church school teachers in Table 1, column 12, and is not counted in the totals of teachers in Section 1, except where the teacher groups cannot be divided in schools outside of North America, and for these the estimated number of elementary teachers is subtracted from the total.

(d) The grades taught in each school indicate the kind of work undertaken, as outlined in note (a). In North America intermediate schools generally are noted as teaching grades 1-10 or 1-11.

(e) In the column indicating laboratory facilities the word "No" occurs where the schools have none; the word "Yes" is used in connection with schools having such facilities. These facilities cover one or more lines of work in various schools as follows: Astronomy, chemistry, histology, physics, zoology.

Schools having facilities for manual training are indicated by "Yes" in corresponding column; those not having such facilities are listed with "No" opposite. These facilities include one or more of the following: Carpentry, cooking, farming, dairying, nursing, printing, plumbing, horticulture, dress-making, tent-making, broom-making, brick-making, etc.

(f) Column 15 shows the total number of graduates in finishing courses in the academies and colleges. In schools other than some training schools for workers outside of North America no graduates are counted below the twelfth grade. Graduates are for the school year ending in May or June, 1954.

(g) Column 19 gives the number of students (not graduates alone) reported as entering some regular line of denominational work. Student corps members selling literature during the vacation period, and persons continuing training in nurses' or medical courses are not considered as definitely entering denominational service at that time.

(h) In 1954 the College of Medical Evangelists graduated 92 students from the medical course, 45 from the nurse's training, 9 Medical Technicians, 6 X-Ray Technicians, 21 Physical Therapists, and 7 Dietitians. The Seventh-day Adventist Theological Seminary conferred 27 Masters, and 4 Bachelor of Divinity degrees.

(i) A number of students taking classes with the Home Study Institute are also enrolled in regular colleges and academies, and most of the students studying with the Home Study Institute are carrying only one or two classes each. The Home Study Institute reports 15 instructors doing some teaching for them in 1954 who are connected with other educational institutions, besides the listed faculty members and office staff.

(j) For the past four years the number of nurses in training in sanitarium Schools of Nursing have been included, also the number of nurses graduating.

COUNTRIES, ISLANDS, AND ISLAND GROUPS IN WHICH SEVENTH-DAY ADVENTIST WORK HAS BEEN ESTABLISHED

The work of Seventh-day Adventists is being carried on in nearly all of the principal countries of the world, and in many of the smaller geographical and political divisions. It is generally considered that a country or political division has been entered by Seventh-day Adventist interests when regular medical, educational, or other mission activities are being conducted among the people of that particular area, or when there is in the territory one or more groups of persons connected in an organized way with the denomination, such as in Sabbath school or in church fellowship. A new field is not considered as entered when only itinerant preaching or colporteur work has been done, or when there are only a few scattered believers.

Recognizing the need of a reliable list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is being carried forward, by General Conference Committee action we are using the list of countries published in Statistical Papers Series A, Volume VII, No. 3 "Population and Vital Statistics Reports," issued by the United Nations, New York, July, 1955.

As changes are made from time to time in the administrative bodies or political boundaries of countries, and as such changes are recognized and published by the United Nations, we shall endeavor to change our list accordingly.

Certain countries are preceded by an asterisk (*) which denotes a country not as yet entered by work of Seventh-day Adventists. This part of the list is also subject to change, and anyone intimately acquainted with conditions, knowing of a correction that should be made, will kindly advise the Statistical Secretary, especially as new mission territories are entered.
