COUNTRIES, ISLANDS, AND ISLAND GROUPS IN WHICH SEVENTH-DAY ADVENTIST WORK HAS BEEN ESTABLISHED

The work of Seventh-day Adventists is being carried on in nearly all of the principal countries of the world, and in many of the smaller geographical and political divisions. It is generally considered that a country or political division has been entered by Seventh-day Adventist interests when regular medical, educational, or other mission activities are being conducted among the people of that particular area or where there is in the territory one or more groups of persons connected in an organized way with the denomination, such as in Sabbath school or in church fellowship. A new field is not considered as entered when only itinerant preaching or colporteur work has been done, or when there are only a few scattered believers.

Recognizing the need of a reliable list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is being carried forward, by General Conference Committee action we are using the list of countries as published by the United Nations. The following report is based on information given in Statistical Papers Series A, Vol. XXIII,

No. 1, January 1, 1971.

As changes are made from time to time in the administrative bodies or political boundaries of countries, and as such changes are recognized and published by the United Nations, we shall endeavor to change our list accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of Seventh-day Adventists from any indicated area so changed.

Certain countries are preceded by an asterisk (*) which denotes a country not as yet entered by work of Seventh-day Adventists. This part of the list is also subject to change, and anyone intimately acquainted with conditions, knowing of a correction that should be made, will kindly advise the Statistical Secretary, especially as new mission territories are entered.

* SUMMARY OF ALL LANGUAGES AND DIALECTS IN WHICH SEVENTH-DAY ADVENTIST WORK HAS BEEN OR IS BEING CONDUCTED	
Total Number of Languages with Publications	266
Total Number of Languages used in Oral Work Only	672
Grand Total Number of All Languages	938

* In 1969 the number of written languages was reported as 273 while this year the report is 266. The decrease is due to the fact that in former years slight differences in certain languages were counted as individual languages. The practice now is to regard these as one language and to do the publishing in that one basic language. The Chinese has been listed and also Cantonese, Hakkian, Mandarin, Taiwanese, Shanghai (Wu). All of these are written as one language, namely Chinese, but pronounced and spoken differently. Thus the reduction in number of written languages seems appropriate.
