STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions in the World Field
For the Year Ending December 31, 1979

A WORD ABOUT THIS REPORT

New Feature.—Food Factories are listed this year for the first time along with their sister institutions—educational, health-care and publishing. The table on page 25 lists the factories by world divisions, the number of employees and a count of their products. Total world sales for 1979 approached the \$280 million mark.

Mission Offerings.—From time to time the reports of Sabbath School offerings reaching the field do not agree. Unavoidable differences in reporting schedules and practices cause such discrepancies. In some fields where communication with the next higher organization is slow or difficult, contribution figures for this report may not coincide exactly with treasury remittance figures and with Sabbath School Department information.

Per Capita Figures.—Per capita figures throughout this report are calculated by a formula established by the General Conference and published in its *Working Policy* (By-Laws, Article XX, Section 5). For this year's statistics, for example, we have used a membership average based on the fourth quarter of 1977 and the first three quarters of 1978. A person using 1979's beginning or ending membership in figuring per capita contributions will derive a slightly smaller figure except in territories where membership is declining.

New Terminology.—As another step in recognizing the global extent of the Seventh-day Adventist Church, we have chosen a term for elementary schools that is widely used on most continents although not so common in North America: primary schools. The full sequence of terms could very well be "primary," "secondary" and "tertiary," but we have retained "colleges and universities" for the third category.

Correction.—In the 1978 "Annual Statistical Report" the Sabbath School membership of the New York Conference was given as 52,912. It should have been 4,432. With this correction the Atlantic Union total would have been 41,826, the North American Division total 454,989 and the world total 3,769,879. The net increase over 1977 should read 76,699.

The financial information contained in this report should be considered **CONFIDENTIAL** and is not for publication or public distribution.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XXXII, no. 1, January 1, 1960.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or subwinning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

An asterisk (*) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.

SUMMARY

Number of countries and areas as recognized by United Nations	218
Estimated population of the world (as of January 1, 1980)	4,336,000,000
Number of countries in which work is carried on by Seventh-day Adventists	190
Number of countries where work is not established	28

NOTE.—The United Nations list no longer contains British Antarctic Territory nor French Southern and Antarctic Territories, where only a few scientists reside. An addition to the list is the Canton and Enderbury Islands; however, this area has no population so we are not counting it in the "Summary" above.
