STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions in the World Field
For the Year Ending December 31, 1981

A WORD ABOUT THIS REPORT

Territorial Changes.—The new Africa-Indian Ocean Division consists of territory formerly part of three other divisions—the Euro-Africa Division, the Northern Europe-West Africa Division and the Trans-Africa Division. The new division had 362,873 members at the close of its first year, 1981. The other three divisions show a marked drop in all statistics as a result of the realignment.

With the transfer of all its African territories to the Africa-Indian Ocean Division, the former Northern Europe-West Africa Division is now called the Northern European Division as it was until 1972.

Omission of Data.—As noted in a footnote of page 5, the workers' information reported for the Africa-Indian Ocean Division is not up-to-date. The division was not able to secure a breakdown of worker categories on a union-by-union basis as of December 31, 1981. We relied on 1980 data to complete the tables on page 5. The same is true for the Afro-Mideast Division except for its East Africa Union.

New Worker Categories.—In the main tables on pages 6 to 20 provision has been made for two new categories of workers authorized for the North American Division. Column 24b is for

credentialed commissioned ministers and column 26b for licensed commissioned ministers. To provide space for these added columns we have removed column 20, "Estimated Value of Primary School Buildings and Equipment." These assets will continue to be reported to the General Conference and published as a world total on page 4.

Membership Data from the Soviet Union.—Current membership data is now available from our leaders in the Soviet Union. The former membership figure of 40,000, as well as other data, was an estimate that has been used for many years. Changes due to baptisms, deaths, apostasies and missing have not been available. This year the figure reported under apostasies and missing is used to accommodate the change from the old estimate of 40,000 to the current figure of 30,604.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XXIV, no. 1, January 1, 1982.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soulwinning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-avangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (•) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.

REVISED CONTRIBUTIONS FIGURES
Inter-American Division, 1980-1983

During the four years 1980-1983 the Inter-American Division submitted statistical reports to the General Conference showing contributions at a considerably lower figure than the amounts given in the local churches. The reason was that the division was reporting only the amounts remitted to it through treasury channels.

The difference between remittances through treasury channels and contributions made at local churches occurred because several nations of the Inter-American Division area restricted the transfer of money out of the country.

Early in 1985 the division treasury redid the annual report forms (Forms S-4t) to show amounts actually contributed in the churches without regard for whether the funds could be forwarded to the next higher organization. Some revisions appear to have been made for other reasons.

A summary of the correct figures, including revised world totals, appears with the Inter-American Division tables in this Annual Statistical Report. A complete table of the revisions can be found in the binder of statistical report forms (Forms S-4t) housed in the General Conference Archives.
