STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions in the World Field For the Year Ending December 31, 1982

A WORD ABOUT THIS REPORT

Adventists in the U.S.S.R.—Recent reports from leading pastors in the U.S.S.R. have made it possible to include some information in this report concerning congregations and members in the Union of Soviet Socialist Republics. The decrease in membership is not to be interpreted as anything other than an adjustment required after several decades when no information reached the General Conference.

This year we have discontinued the information about Sabbath Schools, Youth Societies and Workers in the U.S.S.R., which dates from 1953. New information will be supplied for these columns when it becomes available.

Territorial Change.—With the class of 1981 came the end of the Afro-Mideast Division and the creation of the Eastern Africa Division. This report places the Middle East Union, one of four unions formerly in the Afro-Mideast Division, after the world divisions as an attached field (attached to the General Conference). The other three unions now make up the Eastern Africa Division.

Correction.—Last year's report gave the estimated value of church properties (column 34) for the Japan Union as \$996,671,545. The figure is correct but the currency conversion from yen to dollars was not made. The correct amount in US dollars should have been \$4,333,355. The Far Eastern Division total should have been \$26,514,506, and the world total, \$963,795,555.

Estimated Data.—Insufficient information has come in this year for the workers of the Sahel Union in the Africa-Indian Ocean Division. The figures given are estimates made in the Office of Archives and Statistics.

*Not including children or workers returning from furlough.
Beginning 1970 Intradivision workers included.

Recognizing the General Conference.—Beginning this year, statistical information for the General Conference itself will appear before the world divisions, and its data will not be combined with the North American Division.

Placement of China Data.—For more than 30 years Adventists in China have had little or no organization. During this period both the *SDA Yearbook* and the "Annual Statistical Report" have carried forward the last known membership figures and other statistics and have treated that territory as though it were still a world division. This year we are continuing to give the "latest available figures," but we are moving the listing to a position following the regularly organized world divisions.

World Membership.—As of December 31, 1982, the reported world membership of the church was 3,899,814. By about the middle of July, 1983, membership will have reached 4,000,000. If the church's rate of growth continues at 5% to 5.5%, membership will reach 5,000,000 in late 1987.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XXXV no. 1, January 1, 1983.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soulwinning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (•) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.

REVISED CONTRIBUTIONS FIGURES
Inter-American Division, 1980-1983

During the four years 1980-1983 the Inter-American Division submitted statistical reports to the General Conference showing contributions at a considerably lower figure than the amounts given in the local churches. The reason was that the division was reporting only the amounts remitted to it through treasury channels.

The difference between remittances through treasury channels and contributions made at local churches occurred because several nations of the Inter-American Division area restricted the transfer of money out of the country.

Early in 1985 the division treasury redid the annual report forms (Forms S-4t) to show amounts actually contributed in the churches without regard for whether the funds could be forwarded to the next higher organization. Some revisions appear to have been made for other reasons.

A summary of the correct figures, including revised world totals, appears with the Inter-American Division tables in this Annual Statistical Report. A complete table of the revisions can be found in the binder of statistical report forms (Forms S-4t) housed in the General Conference Archives.
