# STATISTICAL REPORT

## of Seventh-day Adventist Conferences, Missions, and Institutions throughout the World For the Year Ending December 31, 1983

### A WORD ABOUT THIS REPORT

**1000 Days of Reaping.**—Because 1983 was the first full year of the 1000 Days of Reaping, which has called for a strong worldwide emphasis on evangelism, we have introduced the 1000 Days logo on our cover. A new table appears on page 2, column 1, to show what has been accomplished so far in the 1000 Days, that is, the first five complete quarters of the 1000 Days of Reaping.

**Membership.**—About midyear, 1983, church membership topped the 4 million membership mark. The increase from 3 million to 4 million required about 5.1 years; the previous net increase of a million required about 7.7 years. Worldwide membership will probably pass the 5 million mark late in 1987, or in about 4.5 years. Strong evangelistic thrusts connected with the 1000 Days of Reaping and similar efforts may well shorten the next 1-million-gain period.

**New Features.**—(1) The back cover provides a new table giving the same data for the North American Division that is shown on page 39 for the entire world. (2) The "Tithes and Offerings, 1863-1983" table on page 3 now gives each category's percentage of the total. These percentages show the shift in giving from world concerns to local concerns that has occurred over the past 40 years. (3) On page 4, net worth figures have been added to the "Assets" table.

**Offering Decrease.**—The table "Tithes and Offerings, 1983" on page 4 shows a \$4.8 million decrease between 1982 and 1983. An undetermined portion of this reported decrease is due to changing international rates of exchange due to the strengthening of the US dollar. Funds coming to the General Conference from outside the United States do not convert to as many dollars as during the previous year.

**Incomplete Reports.**—Various factors inhibit the submitting of complete reports to the General Conference. The Africa-Indian Ocean Division report of honorary workers has been estimated by this office. The Inter-American Division has not reported Intradivision Funds nor Local Church Funds. Other fields have given only partial reports, sometimes because of political constraints. Users of this "Report" should keep these limitations in mind.

**Health-Care Statistics.**—Some health-care facilities have been reported in previous years although they have not qualified as fully recognized denominational institutions. This year an attempt has been made to bring the data into harmony with the SDA Yearbook.

**Correction.**—Last year's "Annual Statistical Report" showed, on page 39, the world membership as 3,892,814. The correct figure is 3,897,814, as given in the first table on page 2 and in the summary on page 22. The number of workers in health-care institutions reported in 1982 by the Southern and Southwestern unions in the North American Division (page 5) was extremely small. Correct figures have been supplied for 1983.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XXXVI no. 2, April, 1984.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soulwinning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (•) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.
