STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions throughout the World For the Year Ending December 31, 1986

A WORD ABOUT THIS REPORT

Harvest 90 Accessions Carry Membership Above 5 Million.—During 1986, 426,678 persons joined the church through baptism or profession of faith. This amount, which exceeds the total membership of the church in 1935, constitutes 18.5% of the Harvest 90 objectives chosen by the world divisions and attached unions. As a result our world membership passed 5 million by the end of the year.

The Harvest 90 table on this page also shows that during the first six quarters of this evangelistic program, 607,500 new members have joined the church. This is 26.4% of the detailed goals and 30.4% of the basic goal of 2 million accessions for the current five-year period.

It took about 3.5 years for world membership to grow from 4 million to 5 million, in contrast to about 5.2 years for the previous increase of 1 million.

Territorial Changes Affect Three Divisions.—At the beginning of 1986 the Trans-European Division assumed the territory of the former Northern European Division, adding Yugoslavia, Hungary, Greece and Israel (of the Euro-Africa Division) and Pakistan (of the Southern Asia Division). In addition, the Southern Asia Division became smaller as it transferred three unions to the Far Eastern Division—Bangladesh, Burma and Sri Lanka. These territorial changes occurred because of both administrative considerations and world economic and political situations.

New Table for Church Ministries Department.—With the establishment of the General Conference Church Ministries Department came the blending of several

former statistical tables. The new table appears across the top of pages 4 and 5 and contains 19 columns representing the following lines of endeavor: senior and junior youth, personal ministries (lay activities), Ingathering and Sabbath School. This table replaces three tables in previous editions.

Incomplete or Missing Data.—Despite attempts to present accurate and complete information, some tables show blanks and other tables give totals based on incomplete reports. When current information is not available, previous-year data is substituted. We particularly regret incomplete or noncurrent information regarding health-care institutions in several world divisions.

Among the North American Division hospitals some adaptation was necessary because the division collected different categories of information than those used in previous years and by other divisions.

Corrections.—The "Tithe and Offerings, 1863-1986" table on page 3 gives revised figures for 1984 and 1985. A number of adjustments also appear in the summary tables on pages 40 to 43 for the years 1983 to 1985.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XXXIX, No. 1, January, 1987.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (●) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.
