STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions throughout the World
For the Year Ending December 31, 1988

A WORD ABOUT THIS REPORT

Harvest 90.—With 14 quarters past, our statistical reports reveal a total of 1,580,551 accessions since the launching of Harvest 90 at the 1985 General Conference Session. As shown in the table below, this is 68.63% of the cumulative world objective of 2,303,000 or 79.03% of the basic objective of 2,000,000. Since July, 1986 the average quarterly accessions have been 112,897. During the remaining six quarters the average will need to be 69,908 a quarter to reach the basic objective of 2,000,000.

When Harvest 90 began world membership was 4,598,037. It is now 5,749,735, an increase of 1,151,698.

During the 1000 Days of Reaping that climaxed at the 1985 General Conference Session, one objective was to average 1,000 accessions a day. During the final twelve months, ending June 30, 1985, the average was 1,222. During the twelve months of 1988, using "standard quarters" of 91 days, the average was 1,371 accessions a day.

The Adventist Presence.—As church leaders have been developing a global strategy to carry the Adventist message to areas not now reached, they have calculated the density of Adventist membership in relationship to the general population. A special feature in this issue is the map on the back cover showing the average number of Adventists for each 1,000 of the population in each of our world territories. Worldwide there are 1.1 Adventists for each 1,000 of the population.

Tithe and Offerings.—During 1988 tithe increased 5.7% from \$546.7 million to \$577.6 million, a gain of almost \$31 million. The total of all contributions, including tithe, increased 5.9% from \$845.8 million to \$895.5 million. See page 3.

Largest Divisions.—During 1988 the church's world membership grew to within a few hundred of 5.75 million. Differences in growth in various sections of the world have changed the ranking of the six larger divisions as seen here:

Rank	1984	1986	1988
1	Inter-American	Inter-American	Inter-American
2	North American	South American	South American
3	South American	North American	Eastern Africa
4	Far Eastern	Far Eastern	Far Eastern
5	Eastern Africa	Eastern Africa	North American
6	Africa-Ind. Ocean	Africa-Ind. Ocean	Africa-Ind. Ocean

See table "Church Membership by World Divisions" on this page.

Publishing Institutions.—Beginning with 1987 the General Conference Publishing Department introduced a revised reporting system that called for wholesale rather than retail sales figures. Because some publishing houses reported under the previous system and some did not report at all, that year's figures were imprecise and cannot be used for year-to-year comparisons. This year's report contains revised 1987 totals based on further data received by the department as well as the details for 1988. See page 35.

Correction.—In the General Survey of Organizations table on this page, the number of Total Organizations for 1987 has been corrected to read 33,742.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol. XLI, No. 1, January, 1989.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (•) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.

*This does not include the Honorary Workers. **Using 1975 figures for the Southern Asia Division. Per Capita after 1921 decreased because of inflated European currency values transposed to gold basis.

+Beginning with 1987, publishing houses were asked to report wholesale rather than retail sales. In the 1987 report, however, are some retail figures.
