STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions throughout the World For the Year Ending December 31, 1990

A WORD ABOUT THIS REPORT

A New Look at the World.—(See cover.) Global Mission is the challenge of every Seventh-day Adventist: a world of diverse peoples, speaking hundreds of languages, to whom the Church must take the gospel.

Five years have passed since Neal C. Wilson, then president of the General Conference, issued the ringing challenge to reach the unreached. Since then most of the divisions, the attached unions, and the General Conference have gathered extensive information about the challenge of unentered territories and unreached people groups. From that information and from current reports we have prepared the second annual table "Global Mission: The Church's Presence, Outreach, and Mission." (See pages 43-46.)

For specialists in Global Mission and for others who are especially interested, the Office of Archives and Statistics will make available an expanded table showing data for both 1989 and 1990 with comparisons.

Contributions Made to the General Conference.—Until 1982 all contributions made directly to the General Conference were included in North American Division statistics. Those who are studying North American Division trends should request newly calculated pre-1982 figures that eliminate the General Conference amounts.

Final Harvest 90 Report.—Six months of intensive soulwinning climaxed the five-year-long Harvest 90 evangelistic thrust, adding 332,449 persons to the church January through June, 1990. During the same period of 1988 the number of accessions was 280,832.

Total accessions for the entire Harvest 90 period—July 1, 1988 to June 30, 1990—amounted to 2,490,105 or 108.1% of the division-by-division objectives, 2,303,000. Details appear in the table below.

The final quarter brought the largest one-quarter influx of members in history—197,179, or an average of 2,167 a day. The previous high occurred during the second quarter of 1989 when an average of 1,887 was reported. The average over the entire five years was 1,368 accessions a day.

Sabbath School Membership.—The North American Division has adopted a statistical procedure that substitutes Sabbath School attendance for Sabbath School membership (column 16 of the main table). Therefore, the world total for column 16 on page 27 combines attendance in NAD with membership elsewhere.

Data From the Soviet Union.—Since 1981 the General Conference has received annual statistical reports from church leaders in the Union of Soviet Socialist Republics. Church organization there was reflected in the listing of "districts" until 1989, when conferences and union conferences were organized. At the 1980 General Conference Session these fields were organized as the Union of Soviet Socialist Republics Division. As a result, this year for the first time in decades the "Annual Statistical Report" contains Sabbath School and workers statistics from the Soviet Union.

Adjustment and Enrollment Figures.—Please see the footnote regarding Andrews University enrollment data found on page 34.

Publishing House Sales.—Since 1987 the Church's publishing houses have reported their sales as wholesale values; prior to 1987 they reported them as retail sales. Comparisons of recent data with data prior to 1987 should take this major difference into account. The publishing houses' report appears on page 40.

*Although no church organization exists in China, Seven-day Adventist believers there now number about 75,860. The last report, in 1961, listed 21,168 baptized members. The increase of 53,832 in the number of adherents is accounted for as additions by baptism.

**Danaminstiane workers' figures are for 1969.

COUNTRIES AND AREAS OF THE WORLD SHOWING WHERE SEVENTH-DAY ADVENTIST WORK IS CURRENTLY ESTABLISHED

Recognizing the need of a standard list of geographical and political divisions of the world which can be used as a basis for checking the different areas in which Seventh-day Adventist work is established, the General Conference Committee voted to use the list of countries and areas published by the United Nations. The following report is based on information given in "Statistical Papers," Series A, vol XLIII, No. 1, January, 1991.

As changes occur in political administration or boundaries of countries or areas, and such changes are recognized and published by the United Nations, this list will be revised accordingly. These changes obviously make comparisons with previous years difficult. Further, such changes do not necessarily indicate the withdrawal of established Seventh-day Adventist work from the territory affected by the change. Recognizing that the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in this list or the absence of others.

The work of Seventh-day Adventists is being carried on in nearly all countries and areas of the world. Seventh-day Adventist work is considered to be established in a country or area of the world when one or more of the following criteria have been met: when an organized church meets regularly; when a mission station, health-care facility or school is functioning regularly; or when a regular full-time denominational worker is based in the country carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries or other volunteer workers.

A dot (•) denotes a country or area where Seventh-day Adventist work is not currently established. Anyone intimately acquainted with local situations, knowing of a correction that should be made, is invited to write the Director of Archives and Statistics, especially as new work is established.

SUMMARY

| | |
|---|---------------|
| Number of countries and areas as recognized by United Nations* | 218 |
| Number of countries in which work is carried on by Seventh-day Adventists | 182 |
| Number of countries where work is not established | 28 |
| Estimated population of the world (as of January, 1991) | 5,322,587,659 |
| Estimated population of countries in which work is carried on by Seventh-day Adventists | 5,221,279,659 |
| Estimated population of countries where work is not established | 94,318,088 |

*Note.—The United Nations count of countries and areas of the world is 216, four fewer than a year ago. The decrease has occurred as the two Germanys and two Yemens combined and because the UN now lists the United Kingdom as one nation instead of three. The difference between the UN total of 216 and the 218 used in the above list of countries occurs because two of them—Canton and Enderbury Islands (Oceania) and Svalbard and Jan Mayen islands (Europe)—have no permanent population; because "Palestine" is occupied by Israel; and because the United Nations lists the USSR as three countries.

STATISTICAL REPORT FOR 1990

GLOBAL MISSION

The Church's Presence, Outreach, and Mission

Challenge of Global Mission.—Church administrators of the 1990's are turning their attention from the usual view of Adventists' world mission and focusing more specifically on reaching unreached people groups. A major document on this global mission and the appropriate methods to achieve success was voted at the 1989 Annual Council (available on request).

Monitoring Global Advance.—As a means for planning and evaluating, Global Mission specialists divided the entire world population into 5,257 population segments averaging one million persons each and are asking what the Adventist presence is, if any, in each of these segments. Information about these population segments reveals the Church's status on a world scale; beyond that, the Church's divisions and unions are responsible for the evangelization of people groups and population concentrations within these segments of one million persons.

The accompanying table presents data that monitor the Church's progress toward the preliminary goal of establishing a presence—an organized congregation—in each segment and of fostering growth where organized churches already exist.

World Data.—The first section of this table (column 1) lists the number of population segments in each union or, where appropriate, in each country within a union. The basis is the estimated world population as of mid-1989.

SDA Church Presence.—Columns 2-4 measure both the concentration of Adventists within a union (or country) and the degree to which there is an Adventist presence (a church) in each segment.

Church's Outreach.—One readily available statistic for measuring outreach is the existence of companies (new groups of believers not yet officially organized as a church). Columns 5-7 show both the growth of membership within a union (or country) and the existence of companies, which are potential new churches.

Church's Mission.—This section (column 8) reveals the task ahead: to see that all 5,257 population segments in the world have a company or a church.

Measuring Change.—Each section of the table compares the current year with the previous year.

Completeness and Accuracy.—The completeness and accuracy of this table depend upon reports received from the field. Around the world, field leaders are now identifying the boundaries of their population segments and designing evangelistic approaches for "reaching the unreached" by 2000.

In 1951 the China Division reported 21,166 church members and that number has been published each year through 1989. Recent estimates give an estimated 75,808 believers. This table compares members of the past with believers today, and it shows 67 believers per 1,000,000 population.

No organized churches exist, as such, but there were about 278 regular groups and companies meeting in 1989. No additional information has become available for 1998.

*Population Segments are nonoverlapping geopolitical territories of the world, each occupied by about 1 million persons as of mid-1988.
**Population information used to define segments of about 1 million for the Global Mission Database produced 23 additional segments making a total of 5,257 instead of the former 5,234.
