STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions Throughout the World For the Year Ending December 31, 1994

A WORD ABOUT THIS REPORT

Advances Toward the Kingdom.—Early in 1994 church membership passed the 8-million-member milestone, reaching nearly 8.4 million by year's end; congregations increased nearly 1,900 to 38,816; and total tithe and offerings were \$100 million greater than during 1993. Other signs of growth may be seen in these pages.

New Historical Table—Contributions.—A complete historical record of all tithe and contributions appears in "Total Tithes and Offerings From Date of Organization to the Present Time" on pages 50 and 51. All tithe figures were verified against contemporary reports except for 1863-1866, which are taken from a 1913 report.

The offerings columns were verified against contemporary records from 1903 to the present. However, for the years before 1903, we depended on summary reports published later.

Small errors were found in some years. However, a major error was found in 1979 summary figures for World Missions and Other GC Funds. That year's table on page 3, "Tithe and Offerings, 1863-1979," gave a 116-year total of \$1,028,697,227. The correct figure (\$925,285,682) appeared on page 35. However, succeeding issues of this "Report" perpetuated the \$103.5 million mistake. That error has now been corrected.

New Contemporary Table—ADRA.—For the first time the Adventist Development and Relief Agency appears in these pages. A country-by-country table on pages 39 and 40 enumerates employees, projects funded, beneficiaries, and value of aid given. ADRA's 4,529 employees, working in the 133 reporting countries, handled nearly \$233 million in aid to those in need, donor and recipient.

Improvements and Additions.—A change in institutional workers' categories is seen in the table on page 5 in which workers are classified by type of employment. The two columns for health-care workers are different than previously shown, so comparisons with 1993 cannot be calculated.

The East Asia Association appears this year for the first time. Based in Hong Kong, its staff coordinates the church's mission in China and Mongolia. Statistics about this staff appear on pages 5 and 27. Statistics regarding our believers in China are found on pages 2, 26, and 27.

Method of Calculating Per Capita Figures.—Formerly a four-quarter membership average, set back a year and a quarter, was the basis for per capita calculations. Beginning with 1993, the membership at the end of the second quarter of the previous year is the basis for these calculations.

Special Situations.—Each year special circumstances cause irregularities in church statistics. Examples are:

+ Currency stabilization in Brazil led to much larger tithe and offerings figures when expressed in US dollars.

+ Transfer of the Baltic Union from the Euro-Asia Division to the Trans-European Division called for an adjustment in 1993 year-end membership figures as they appear in column 3 this year.

STATISTICAL REPORT FOR 1994

GLOBAL MISSION

The Church's Presence, Outreach, and Mission

Challenge of Global Mission.—The Global Mission document voted at the 1989 Annual Council and endorsed at the 1990 General Conference Session seeks to create an awareness, in concrete measurable terms, of what the gospel commission means to the church today.

Monitoring Global Advance.—Table 1 below lists "the land that yet remaineth" (Joshua 13:1-6) in today's unentered countries and in unentered areas within countries. These major territories constitute the Global Mission objective for which the world headquarters and its division committees assume a certain responsibility.

In 1990, as a means for planning and evaluating, Global Mission specialists divided the entire world population into 5,257 "population segments" averaging one million persons each. In the majority of these the church already had a presence. Since then the church's goal has been to establish a presence—an organized church—in each previously unentered population segment. Table 1 portrays the status of these efforts.

Table 2 lists all countries and areas of the world and shows the general growth and "church planting" activity of the church. For the first time, churches, members, and ordained ministers are enumerated by country.

Under the "Global Mission Activity" heading Table 2 shows the number of counties, municipalities, tribal and language groups, or socioeconomic groups in metropolitan areas, which have been chosen by congregations, conferences or missions, or unions to reach out to the "unreached" in their respective territories. It also shows their success.

Table 2 also serves to replace a table in earlier editions of the "Annual Statistical Report" entitled "Countries and Areas of the World Showing Where Seventh-day Adventist Work Is Currently Established," where all countries and areas of the world were listed.

This year some reports from places where a conference or mission included more than one country were lacking or incomplete. An example is the five countries within the Guam-Micronesia Mission of the Far Eastern Division; in this instance the church's presence in all five countries appears on the Guam line and the other four lines show "No report."

Although isolated Sabbathkeepers or Adventists from other countries are known to reside in some countries where there is no organized church, the data here corresponds to official reports from the divisions or attached unions. An exception is the 13 members in Mongolia, who are not shown in the main table (pages 6 - 27).

The ordained ministers column excludes those who serve a multicountry field.

Definitions.—Officially, what is a "country or area of the world"? For the purposes of this report, it is a political entity recognized by the United Nations. Because the SDA Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in the list or the absence of others. The countries shown in the accompanying Global Mission tables are as listed in the United Nations publication "Statistical Papers," Series A, vol. XLVII, no. 1, January 1, 1995. An exception is Taiwan, which is considered by the United Nations to be a part of China. Population figures are supplied by the Population Reference Bureau of Washington, DC.

"Population segments" are nonoverlapping geopolitical territories of the world, each occupied by between half a million and a million and a half persons as of mid-1969.

"Entering" a population segment or smaller target area is accomplished with the establishment of an officially organized company or church.

"Presence" means the existence within the territory of an organized church.

"Established work" exists in a country or area of the world when one or more of the following criteria have been met: (1) when an organized church meets regularly; (2) when a mission station, health-care facility, or school is functioning regularly; or (3) when a regular full-time denominational worker is based in the country carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company, or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries, or other volunteer workers. In Table 1 the countries where the church does not have established work are identified with a bullet (•). These countries are also listed in a half-page table on page 42.

"Number of Countries." The United Nations count of countries and areas of the world as of December 31, 1994 is 236. The increase from 234 (in 1992) to 236 is due to the addition of Eritrea in Africa and of The former Yugoslav Republic of Macedonia in Europe. In previous "Annual Statistical Reports" Palestine has not been included, although listed by the United Nations, because it lacked territory, it is now included as one of the 236.

Symbols Used in These Tables:

- Countries and areas of the world in which the Church does not have established work.
- + Improvement, but percentage calculation is impossible because the beginning figure is zero.
- Decline, but percentage calculation is impossible because the ending figure is zero.
- () Negative number.
- Y "Yes" for countries of less than one population segment, to show an affirmative entry in a column.
- NR No report.

Notes—Ingathering figures appear for 1984-1994 only. Figures for 1908-1983 are on record but are being reverified before publication. At that time a grand total for Ingathering from 1908 to the present will be given.

Slight differences may occur between the figures in this table and those in past historical tables due to the rounding of the dollar in each statistic.

*For 1905 - 1944 this column contains a combination of intradivision (home mission) and local church funds. From 1945 to the present the two funds are shown separately. A cumulative total of both funds (1863-1994) is shown in the intradivision funds column above. Further research is expected to provide separate data prior to 1945.
