STATISTICAL REPORT

of Seventh-day Adventist Conferences, Missions, and Institutions Throughout the World for the Year Ending December 31, 1995

A WORD ABOUT THIS REPORT

Evangelism Brings Growth.—The Seventh-day Adventist Church continued to grow during 1995, culminating with a membership total of nearly 9 million. The number of organized churches surpassed 40,000 as more than 1,400 new congregations were organized. Other signs of growth may be seen in these pages.

A New Look.—For the first time in many years, the "Annual Statistical Report" has a new appearance. The new size (8 1/2 x 11 inches), which makes it easier to file or transport, was achieved without reducing type size. Another new feature this year is the Table of Contents also appearing on this page. We hope you find this report easier to use. The logo used on the cover this year commemorates the 1995 General Conference Session.

Another change which is not as obvious is the change made in the reference authority for the languages reported in the "Annual Statistical Report." Beginning in 1995, the languages listed are based on *Ethnologue*, which is updated every four years, replacing *Peoplesfile Index*, whose last publication in 1986 was the final edition.

The reorganization and transfer of the Middle East Union from an attached status into the Euro-Africa and Trans-European Divisions, approved by the General Conference Session in Utrecht, Netherlands, is reflected in this report. Other changes which were effective as of January 1, 1996 will be reflected in the 1996 report.

A clarification in the status of the Union of Churches was made in 1995, with the result that they are included with the Local Conferences and Missions rather than with the Union Conferences and Missions when categorized for the General Survey of Organizations (page 4) and Summary of Seventh-day Adventist World Statistics (page 52). These tables have been corrected historically in order to be consistent with this change.

The Product of Many.—A report of this magnitude is the product of a vast team effort. We pay tribute to the thousands of local church clerks and treasurers whose work is the basis for these statistics. Their reports are compiled and augmented at the local field and again at the union and division levels. The efforts of the secretariat and treasury staffs in

hundreds of these offices is crucial and deeply appreciated. We give a heartfelt "Thank You" to each of you who contributed to this report of the Lord's work.

A Standard List of Countries.—At the end of World War II the Church's leaders recognized the need of a standard list of geographical and political divisions of the world for the purposes of reporting growth statistically. The 1946 General Conference Session approved the list appearing in the *World Almanac* and *The Statemen's Yearbook*. Then on August 31, 1955, the General Conference Committee voted to use the United Nations list of countries and areas of the world with the understanding that because the SDA Church does not involve itself in political affairs, the reader would attach no special significance to the presence of certain names in the list or the absence of others. The United Nations list has been used ever since.

Special Situations.—Each year special circumstances cause irregularities in church statistics. Examples are:

- Severe devaluations in Mexico, Venezuela, and several other countries reduced the value of financial statistics when expressed in US dollars.
- A change in the manner in which certain funds (i.e., Ingathering or Retirement Fund Contributions) are reported by various fields results in significant increases or decreases from the report of the previous year.
- Historically several unions and local fields in the Trans-European Division have not reported offerings to Other General Conference Funds (pages 28-31, column 11); the funds reported in this category by these organizations in 1995 were received as "Hands Across the World" offering only.
- The transfer of the Middle East Union from an attached union status to inclusion within the Euro-Africa and Trans-European Divisions accounts for some of the growth seen in these divisions.

GLOBAL MISSION

The Church's Presence, Outreach, and Mission

Challenge of Global Mission.—The Global Mission document voted at the 1989 Annual Council and endorsed at the 1990 General Conference Session seeks to create an awareness, in concrete measurable terms, of what the gospel commission means to the church today.

Monitoring Global Advance.—This year Table 1 below lists major unentered regions of the world in a new way—according to conferences or missions rather than by countries. It is based on a challenge of Global Mission: to place a church among each one million of earth's population. To locate regions where the ratio of churches to population is less than 1:1,000,000, we have used the 1996 SDA Yearbook to find those conferences or missions with low church-to-population ratios. For example, in the Bangladesh Union Mission of the Asia-Pacific Division the East Bangladesh Region has a population of 38.5 million but only three churches. Therefore, on average, each church serves a population of 12.8 million people!

This view of the global challenge shows in which conferences or missions the greatest challenges lie in relation to "population segments" where there is no Adventist church. (For a definition of "population segments" see "Definitions" below.)

The number of churches is taken from this edition of the "Annual Statistical Report"; population statistics are for mid-1995 and are provided by the Population Reference Bureau of Washington, DC.

Some countries with a population of one million or more yet with little or no Adventist presence are not clearly represented by a conference or mission organization. These countries are shown in parentheses.

Table 2 lists all countries and areas of the world and shows the general growth and "church planting" activity of the church, including the number of churches, members, and ordained ministers for each country.

Under the "Global Mission Activity Since 1990" heading, Table 2 shows the number of counties, municipalities, tribal and language groups, or socioeconomic groups in metropolitan areas, which have been chosen since 1990 by congregations, conferences or missions, or unions to reach out to the "unreached" in their respective territories. It also shows their success since 1990.

Table 2 also replaces a table in earlier editions of the "Annual Statistical Report" entitled "Countries and Areas of the World Showing Where Seventh-day Adventist Work Is Currently Established," where all countries and areas of the world were listed.

This year some reports from places where a conference or mission included more than one country were lacking or incomplete. The proportion of membership among the various countries in this field, as reported in 1994, was replicated in estimating the membership for 1995. This occurred primarily in the Caribbean Union Conference.

Although isolated Sabbathkeepers or Adventists from other countries are known to reside in some countries where there is no organized church, the data here corresponds to official reports from the divisions or attached union. An exception

is the 13 members in Mongolia, who are not shown in the main table (pages 8-31).

The ordained ministers column excludes those who serve in administrative positions at the union and division levels.

Definitions.—Officially, what is a "country or area of the world"? For the purposes of this report, it is a political entity recognized by the United Nations. Because the SDA Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in the list or the absence of others. The countries shown in the accompanying Global Mission tables are as listed in the United Nations publication "Statistical Papers," Series A, Vol. XLVIII, No. 1, January 1, 1996. An exception is Taiwan, which is considered by the United Nations to be a part of China. Population figures are supplied by the Population Reference Bureau of Washington, DC.

"Population segments" are nonoverlapping geopolitical territories of the world, each occupied by between half a million and a million and a half persons as of mid-1989.

"Target" is any unentered territory smaller than a population segment that may be selected as a target for the establishment of church work. This area may be a state, province, municipality, city, county, district, borough, parish, as well as any ethnic or linguistic group in such a territory.

"Entering" a population segment or smaller target area is accomplished with the establishment of an officially organized company or church.

"Presence" means the existence within the territory of an organized church.

"Established work" exists in a country or area of the world when one or more of the following criteria have been met: (1) when an organized church meets regularly; (2) when a mission station, health-care facility, or school is functioning regularly; or (3) when a regular full-time denominational worker is based in the country carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company, or a language school. Seventh-day Adventist work is not considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbathkeepers, workers traveling through, or temporary service by regular workers, student missionaries, or other volunteer workers. The countries where the church does not have established work are listed in a half-page table on page 46.

"Number of Countries." The United Nations count of countries and areas of the world as of December 31, 1995 is 233. The decrease from 236 (in 1994) to 233 is due to the deletion of three small island groups in the Pacific: Johnston Island, Midway Islands, and Wake Island.
