GENERAL INFORMATION.

It gives us great pleasure to be able to pass on this report for the second quarter to the printer two months earlier than was possible with the preceding one which could be compiled only some four and one-half months after the close of the quarter. Thus our hopes have been realized. Our secretaries have most willingly responded to the calls for more promptness and we certainly appreciate their co-operation. In this connection it may be interesting to note the chronological order in which the various reports have been received:—

Central European Union	July 26th
East German Union	August 2nd
Levant, Roumanian and Jougoslavian fields	" 10th
Latin, Czechoslovakian and Hungarian fields	" 12th
British Union	" 18th
West German Union	" 26th
Polish Union Mission	Sept. 11th
Scandinavian Union	" 15th

Two fields, it will be seen, have succeeded in sending in their reports within the time limit of one month after the quarter ended.

Some very encouraging features will be revealed by a careful study of the figures here presented. There have been 2,180 additions by baptism and 205 by vote, or a total of 2,385 against the 1,559 of the first quarter, the figures for which are given at the bottom of the general recapitulation. This brings the membership of the European Division from 53,571 up to 55,174, making an actual increase of 1,603 compared with 859 of the first three months, or a total for the half year of 2,462, so

that, under the blessings of God, we shall probably not be very far from reaching our goal of 60,000 members by the time the year closes.

A marked progress has been made in the matter of accuracy in reporting membership, six units or just one-half giving correct figures when compared with the last statement. This naturally calls for close co-operation of all secretaries down to the church officers. There is every prospect of reaching perfection with continued improvement on the scale evident in this quarter.

The financial data follows the same plan outlined previously, viz., each conference and mission reporting in its own local currency, while the totals of the unions report in the money of the country in which their office is located with all the local currencies adjusted to it at the rate of exchange prevalent at the end of the respective quarter. The recapitulation, it should again be stated, is made in dollars and would make a better showing if it were transposed at the rates used in our wage standard.

The following notes may serve as explanation for some of the financial items not apparent from the report:—

British Union: While this time the British missions are included in the membership, yet they do not enter into the financial statement. £903. 3s. 9d., under column 23, gives the Sabbath offerings outside those for the 13th Sabbath. The figures below specify the fields for the whole offerings. Column 25 should be

Harvest Ingathering and Midsummer offerings.

In the case of the West German Union, the Sabbath offerings, under column 23, follow the same plan indicated under the British Union. A uniform way of reporting these items would be helpful in compiling the general report. The 13th Sabbath offerings and the Harvest Ingathering should be kept separate from the other figures and must not be included in them. If they cannot be specified for the various local fields, they should be stated for the union as a whole.

Latin Union, column 25 reports Harvest Ingathering which, for the

Scandinavian are included with Kr. 27282.04 under column 26.

It is very encouraging to study the growing percentage of the 13th Sabbath offerings. None appear for Jugoslavia which are included under column 23.

No figures for Russia appear outside those of the membership, as no report has been received thus far.

In Abyssinia a new member has been added to our reporting family and with our missionaries in the very heart of the country, it is hoped that the figures now given will soon be increased.

THE SECRETARY.

Skodsborg, September 22, 1921.
