# Pillars of Prosperity 

By L. H. CHRISTIAN

Certain fundamentals of organization ought to be ever in our minds. These basic things are spiritual and divine. To think of them merely as human and legal might create fatal misconceptions and be fruitful of evil results. The Advent movement is a holy cause. It wants nothing of parties, politics, or personal ambitions. It is built on spiritual factors and forces. We would mention a few of these first elements of prosperity.

A willingness to give up good men. It is natural that organizations and institutions desire to retain their strong labourers. No field has too many. But unless one field is willing to sacrifice for another, the stronger for the weaker, the Advent cause cannot prosper. When we give up efficient men God sends us others in their places. When we send men to the missions we should give the best we have.

A just division of tithes and offerings. While money in the world is French, German, Danish, English, etc., with us there is really only one treasury and one kind of money, and that belongs to the Lord. For this reason the wealthier fields must be willing to divide their money with those that are poorer. Money is an essential element of success. Some fields are older and have a larger income. This is true of America as well as some conferences in this Division. Now every field could well use its own money, and yet we must share and share alike. This applies, too, in the matter of wages. There has been a gradual reduction of our wages everywhere, not because they were too high, but because funds are low. In this reduction the stronger fields share with the weaker.

Successful experience is the true door to larger service. Natural
gifts are important, training in school is helpful, but after all it is experience that prepares for heavier responsibilities. A conference president who is to direct the work of evangelists should himself have been a fruitful soulwinner. A Bible-teacher in our schools who is to train ministers must, if he is a preacher himself, have learned the lesson of winning many to Christ. If he did not succeed himself, how can he teach others the way? Thus in every line of work success is the step-ping-stone to bigger things for God.

Confidence in leadership. Every man who leads must earnestly strive to do his best, but that alone will not insure results. The leaders need the hearty support of all the people. This applies not only to men in office, it applies to our conference papers and other literature. These should be read and followed. Every society in the world has an official organ to set forth the objectives, plans, and policies of the concern. The official paper of the Advent church throughout the world is the Review. It is filled with good things on organization, on methods of work, reports from mission fields, spiritual guidance, and personal instruction. The Review has served this cause many years. All members who understand English should have it. Next
to the spirit of prophecy the guidance of the Review has been the greatest means by which God has led and kept this people.

Each man faithful in his own place. There is a tendency with a few to survey the work of their brethren. They think some other man in the institution is not doing his work well or they think another church elder is not as he should be. While watching others they neglect their own work. It is a vital principle that God expects each one to care for that work to which he has been called and to give far less attention to the mistakes of the brethren than to our own shortcomings.

God's work must keep the youthful fervour of its first love. Long sermons preached never make up for few souls saved. Dry theories are not a substitute for zeal and enthusiasm. People get weary of lengthy admonitions, but are hungry for new facts, timely information, and fresh spiritual food. The flock of Christ thrives in green pastures, not in black, burnt-over. fields. Every worker in the cause of God should be "green and flourishing."

As we look over the past year and study the reports given in this paper, our hearts are filled with courage and gratitude, and the reports already in this year give us even greater joy.

## What Do the Figures Tell Us?

OUR first question will naturally be, "How many souls have been won to the message in this Division during the year 1931?" In the home fields 2,048 were received into the church through baptism and vote. In the mission fields the number added was 1,179 , making a total of 3,227. Oh that we could
report this number as being the addition to our membership at the close of the year! But the enemy beguiled 725 of these away from the fold in the home fields and 323 of those gained in the mission field. Death has claimed 288 from the home fields and 43 from the mission field. Others have emi-

grated from the Division and so our net gain is 1,880 , or 58.2 per cent of those won by baptism and vote. The year 1929 was a record one so far as the gain in membership was concerned, but 1931 has
beaten that record by seventy-two. In 1929 our net gain was 1,808 . Last year it was 1,880 . Our membership at the close of 1931 stood at 27,501 . Will it be 30,000 at the close of this year?
tithes and offerings
A first glance at the figures for tithes and offerings suggests that there has been a substantial decrease in both of these over the previous years. But we must ex-

plain that actually there has been no decrease but rather a decided increase. The apparent decrease is accounted for by the sudden drop in the value of the English and Scandinavian currencies. Had it not been for this we should have been able to report another $\$ 28$,000 in both tithes and offerings. Because of this loss on exchange we have this year given the figures
for the year for each conference in its own local currency as well as in dollars. We hope we have not given you too many figures.
Some time ago we mentioned in the Advent Survey that we had reached the Harvest Ingathering goal, the exact amount being $\$ 105,369.39$. The figure for the Big Week campaign was also given as $\$ 10,579.90$. You will notice that
the figures for these two items are not the same as those given in this issue. The reason for this is that the former figures were worked out at the par rate of exchange. Inasmuch as the goal was set when the money was at a high value it was necessary to use the same rate of exchange in order to determine whether or not we had reached our goals in these two campaigns.

Therefore this apparent discrepancy.
We are sorry not to be able to report in detail for the Nigerian Union but the statistical year began before the reorganization of that field and we do not therefore have the figures for the local mission fields. Then again you will notice that we are still reporting the Scandinavian Union, althongh in actual fact that Union was
divided some months ago. For the sake of comparisons it was decided not to change the statistics until the end of the year but from the first of January this year the Scandinavian Union will cease to exist and we shall report in future the East Nordic Union and the West Nordic Union.
As to what our institutions have been doing during the past year we will leave you to discover from
these pages of figures. Some institutions are included which have not appeared before. For progress made we offer our humble gratitude to the Lord, together with a petition that He will still further bless the efforts of His workers that at the close of another year we shall be able to report larger gains and a bigger advance in every branch of this important work.
E.M.E.

＊Report for five quarters．

## Our China Missionaries Willing to Sacrifice

Dr．H．W．Miller，the presi－ dent of the China Division，has sent us a splendid report concern－ ing their Division Council．It demonstrates the willingness of our missionaries to make every possible personal sacrifice to carry on the Lord＇s work in spite of the short－ age in the treasury．Dr．Miller writes：
＂Our brethren have faced these
cuts with a spirit of determination to do a larger work even in spite of the lessened appropriation，though I can assure you that our superin－ tendents and treasurers have never had a problem more difficult than that of planning how to finance the work．All through the meeting the pressure for additional workers was very keen．We considered very carefully the matter of whether we should release these calls in order to be assured of a balanced budget or whether we
should balance our budget by call－ ing upon our workers for a still greater sacrifice in the field．The feeling was very unanimous that we must have the new calls that were finally agreed upon，filled at the earliest possible date．
＂In regard to furloughs，we in－ vited a large number of our work－ ers to wait over another year in order to effect a saving on our fur－ lough transportation．Several responded to this invitation and are willingly waiting over．＂

Only one who knows from ex－ perience what a furlough means to a missionary who has been far away from home，can appreciate the greatness of the sacrifice thus made by our faithful men and wo－ men．

E．Kotz．

## The Door to Wider Achievement

Trmes are hard and money is scarce，but there is always room
at the top．Those who now use their spare hours in definite pre－ paration for more efficient work in their own particular field of labour，will presently be glad they spent their time and money in this way．Education，of the practical kind that leads to definite service， is always worth the sacrifice of time and convenience and the small amount of money that it costs． The Home Study Institute is receiv－ ing test papers from students rang－ ing all the way from the eighth
grade through the high school grades and through a large part of the college course．We also give many mothers instruction that enables them to take their children through the first three grades of the church school．We are glad to hear from men and women and boys and girls who desire to make something of themselves．Let us help you in your forward－looking plans．M．E．Olsen， President Home Study Institute， Takoma Park，Washington，D．C．

# New Men in the Division 

By L. H. Christian

Two years ago Pastor J. H. Schilling, our field secretary, had to leave. It was a real loss to us that he could not remain. In this Division, where so many new members and younger workers join us each year, there is great need of the educational and spiritual work that belongs to a field secretary. In counsel with the General Conference the Division has now secured the service of Pastor W. T. Bartlett as our field secretary. Brother Bartlett's long experience as editor, teacher, counsellor, and mission leader both in Great Britain and Africa will make his labours in this Division most helpful. We extend to him a cordial welcome. He begins his work as field secretary on May 1st.

By this time nearly all will have heard of the change that has come in the Division secretaryship. Pastor W. E. Read, who served so
faithfully for many years, has been elected president of the British Union. When Brother Read came to us ten years ago our missions in Africa were very small; now they are large and prospering. This growth is to a great extent due to his thoughtful and energetic work. While we deeply regret that he leaves, we wish him every blessing in his new important duties.
When we understood that the Division must give up Pastor Read, we asked counsel of the General Conference as to his successor. We needed another strong man as secretary, one right in his prime. We also needed a man who was well trained and who had experience both in the home field and in Africa. The General Conference has recommended to us Professor E. D. Dick, the educational and general field secretary of the Southern African Division. We are
grateful to our sister Division in the South for having released Brother Dick to this field and also to him because he has accepted the call. Brother Dick was for six years principal of our large training school in Western Canada. After that he has laboured eight or nine years in Africa, carrying heavy responsibilities with much success. We extend to him a hearty welcome to the secretarial work of this Division. Beginning July 1st all mail belonging to the secretary should be sent to him at Division head-quarters.
"In Ezekiel's vision, God had His hand beneath the wings of the cherubim. This is to teach His servants that it is divine power that gives them success. He will work with them if they will put away iniquity, and become pure in heart and life."
