A Word About the Figures

THIS Statistical Number of the ADVENT SURVEY includes the Publishing Houses also, and so is more complete than it was a year ago, requiring more space than then. We regret that the statistics are not entirely made up, on account of the non-arrival of some reports. Among the Missions, the Gold Coast Union failed to send in their statistical report for the fourth quarter of 1933, and the Nigerian Union has not sent its report of African and European tithe; the Sierra Leone Union has sent in this report, but too late for inclusion. Among the institutions, the Advent Press and the Kendu Hospital in the East African Union, and the south-west Nigerian Depository in the Nigerian Union, failed to report, and the report

from the Agona School in the Gold Coast came too late.

There is a net gain in membership in the whole Division of 463. It would have been 924 more, but for the transfer of the Tanganyika Missions, which were

included at that figure in 1932.

The year's operating shows an apostasy loss of 1,321, which is 220 more than we reported under this head in 1932. Of the 1,321, exactly one thousand occur in the European fields.

In the General Report, columns 41, 42, and 43 show the totals in dollars at the old normal rate of exchange, and because the fluctuation in exchange has destroyed any basis of comparison, no attempt is made to compare the figures with former years. The Publishing Houses, Sanitariums, and Treatment Rooms are also reckoned at the old standard rate of exchange. In their case comparison is made with previous years, but the fluctuation in value must be borne in mind.
