## PHILOSOPHY

The Seventh-day Adventlst Church has accepted the commission glven by Jesus Chrlst to HIs disclples to proclalm the gospel to all the world. The church employs many agencles to accompllsh its splritual task, but all of its several organlzatlons (conferences, schools, medical Institutions, food factories, publishing houses, radlo and television ministrles, Adventlst book centers, etc.) have one central objective-the salvatlon of man. Because of this, every denominatlonal employee has a responsibility to particlpate in the mission of the church.

To provide a basls for the remuneration of varlous classes of workers, a denominatlonal remuneration scale has been adopted. The phllosophy of this remuneration scale is predicated upon the fact that a spirit of sacrifice and dedlcatlon should mark God's workers irrespective of the position they hold or the department they represent. The work of the church, Including every denominational organization, is a mission to which lives are dedicated rather than a business or conmerclal venture. The church remuneration scale does not always compensate its dedicated workers In monetary unlts commensurate with thelr talents, accompl ishments, and contributlons, but does provide workers with a modest Ilving income, which gives recognition of responsiblitites borne, preparation undertaken, professional attainment, previlous experience, and years of service.

The church belleves that modesty and good taste with reasonable comfort w111 govern the lives of Christlan workers. It recognizes that some areas of its work are more directly affected by economic factors outside of the church organization than are others, and by local economic conditlons prevalling In different geographlcal areas.

The spirit of sacrifice on the part of Adventist employees wIII be manifested not only by the level of their financlal remuneration but also by the dedication of time, talents, and energy to the cause of God and humanity. Men and wonen called to labor In the cause of the Adventlst Church are to be workers of single purpose and allegiance. With Paul, the great missionary of the early Christlan church, they say, "This one thing I do."

The church phllosophy of remuneration was developed on the scriptural and spiritual Imperative, "give us this day our dally bread." it is a plan which provides Income for the needs of Individuals who bel leve that God blesses the spirit of selfless service and who bel leve that the Seventh-day Adventist Church has a worldwide mission. The philosophy, from Its Inceptlon, has antlclpated that, in addition to the contribution of time and talent, a Seventh-day Adventist worker wIII also, from his modest Income, make voluntary gifts to accelerate the proclamation of the gospel, and thus exhiblt a further demonstration of falth and cormitment. Because of this philosophy, all denominational employees in the Seventh-day Adventist Church are regarded as church workers placed In one of two harmonlous categorles and designated elther as ministers or missionarles. Both categorles call for commitment and sacrifice but allow for different functions.

The church has a basic remuneration scale for all employees in each. Job classificatlon without discrimination on the basls of race, rel Iglon, sex, age, natlonal orlgin or color.

If considered In the IIght of these princlples, the remuneration pol icy of the Seventh-day Adventist Church wIII be seen to be In harmony with the prevalling equal practices and the spirit of nondiscrimination and at the same time conform to the teachIngs and bellefs of the church.

## THE BASIC REMUNERATION SCALE

1. A remuneration scale for the North American Division based on such considerations as education, experlence, and responsibility, provides minimums and maximums expressed in percentages of the remuneration factor (rounded to the nearest dollar). It incorporates basic Income rates for various categorles of services, with recognition of the responsibility inherent in each position or category.
2. A spread between minimum and maximum rates in the varlous categories of from fifteen to thirty percent has been incorporated in the remuneration scale. In setting rates within this spread, employing organizations should take into consideration the following factors with respect to each worker:
a. Preparation, education and dedication
b. Prevlous experlence and achlevement
c. Years of service
3. The remuneration scale should be strictly adhered to and no spectal allowances of any kind should be made except as may be provided for In the North American Division Working Pollcy.

## REMUNERATION SCALE PROVISIONS

## REMUNERATION INCRENEITS

The arrangement of the remuneratlon scale provides separate IIstings for the varlous types of organizatlon. The advisablility of a regular plan of increments Is reoognized. In order to provide a reasonable degree of unlformity in the area of remuneration increments, it is recommended that the employee's remuneration may ordinarily be at the maximum for his category after the completion of five or slx years of regular full-tlme service.

Three princlples are applicable with respect to Increments:

1. Departures from the strlct application of the tIme schedule for Increments may be made In recognition of speclal skill and/or exceptional productivity, or the normal perlod of achleving the maximum rate may be extended if lesser ability and rate of growth so Indlcate.
2. The rates for administrative and executive personnel may be set without regard to the established increments schedule,
3. Professional certification may be a requirement to reach the maximum of certaln categorles.

## REMUNERATION

The remuneration rate assigned to each worker is designed to meet his requirements for all Ilving allowances, Including salary, housing, utilitles, auto deprectation and insurance, telephone and professlonal allowance.

In addition to the remuneratlon rate, the worker or h/s/her dependent children may, under conditlons described in the respectlve pollcy, recelve the following:
a. Health care assistance
b. Tultion asslsance on behalf of dependent chlldren
c. Additlonal auto Insurance

If both spouses are denominatlonally employed, the cost of these allowances may be shared by the employing organlzatlons.

## MAXIMUM REMUNERATION AND COHUNITY RATES

The present remuneration scale provides for maximum rates to certaln categorles of employees which may be In excess of the remuneration rates pald in the community for a simllar type of service. It is recognlzed that because of the area, the type employment, and community patterns of remuneration, the responsible committees and controlifing boards concerned shall set remuneration rates for certain categorles of employees which do not exceed the modest average community rate for such categorles, even though these rates are less than the maximums stated in the remuneration scale for these specifle classifications, This applles to non-exempt workers or employees who are pald on an hour-time basls.

## REMUNERATION RATES

Categories: it is recognized that in certain localities it may be necessary to adjust the remuneration rate to compensate for the higher cost-of-living area. This additional remuneration shall be based on data provided by a reputable company with expertise, and shall use as the major components of the study the cost of housing, transportation and taxes. The amount for quallfying areas shall be established by NADCOM in counsel with the fleld.

The categorles shall be defined by dividing the cost-of-living areas in six sections. The lowest category shall not qualify for additional remuneration, while the others will be authorized to recelve up to the maximum stipulated for the category.

The cost-of-I lving study will be done under the leadership of NADCOM and the assigning of areas to the varlous categorles wIII be approved at the Annual Spring Meeting of NADCOM.

## hOSPITAL REMUMERATION SCALE

In an effort to unlfy the remuneration for adminlstrative personnel in Seventh-day Adventist hospitals and unton health care corporations in the North American Division so that all benefits except tuition assistance, health care assistance and retirement benefits can be expressed in one total remuneration figure, a formula has been voted by the Annual Councll for the North American Division.

1. Nine benchmark hospitals shall be selected by Adventist Health Systems/US, There shall be two of the larger hospitals from each regional health system, with one from each union, and the Loma Linda Medical Center. (It is suggested that the White Memorial Hospital or Glendale Adventist Medical Center not be used due to thelr high historic salary increases.)
2. The last two pay perlods in March of each year shall be used as a comparison from year to year. For these pay perlods the dollars and hours shall be adjusted so that premium tlime, Incentlive tlme, all extra tlme and the hours and pay of major administrative personnel is deducted.
3. An average hourly rate shall be computed for each of the nine benchmark hospitals for the two pay periods In March of the current year which are compared WIth the two pay perlods of the prevlous year. The average hourly rates for the hospltals are I isted, added, and then divided by nine to produce the composite average hourly rate. The difference in this rate for the two years is converted to a percentage of change.
4. The hospltal administrative salary rate shall be updated annually by multiplying the prevlous year's rate by a flgure equivalent to 100 plus the percentage of change (1.e. $8.25 \%=108.25 \%$ ).
5. An affidavit signed by the chlef personnel offlcer, the chlef financlal officer, and the chlef executive officer, shall be completed by each hospital verifying their computation. The nine hospitals are to submit a copy of their computation and affidavit to thelr corporate offloe no later than May 15 of each year. That computation is to be forwarded to the offloe of the chairman of the board and the president of Adventlst Health System/US.
6. The salarles of major adminlstrative personnel of the Glendale Adventist Medical Center and the White Memorlal Hospital may be up to $10 \%$ high than the maximum salarles provided by the regular formula and shall be approved
by the Board of AdventIst Health System/US.
The remuneration scale for other personnel in the employ of health care Institutions wIII be determined by the respective governing boards, and rates WIII be set in a proper relationshlp to the adminlstrator's rate and to the prevaliling rates in the community.
