# STATISTICAL REPORT

## of Seventh-day Adventist® Conferences, Missions, and Institutions Throughout the World for the Year Ending December 31, 2009

### A WORD ABOUT THIS REPORT

**Where We Stand Statistically.**—This year marked the seventh time in Seventh-day Adventist history when more than 1,000,000 individuals joined our communion of faith through baptism or profession of faith. The 1,055,312 accessions for 2009 meant that, on the average, every day in 2009, 2,889 believers accepted the gospel and joined the Seventh-day Adventist Church. The total membership as of December 31, 2009, was 16,307,880 and meant that within the total world population there was one baptized Seventh-day Adventist for every 418 people in the world. The growth rate of 2.43 percent reflected major church membership audits conducted primarily by the South American Division.

India, with a baptized membership of 1,468,865 is the country having the largest number of Seventh-day Adventists within the borders of one country. It has a ratio of members to population of one for every 797 persons. Brazil with a church membership of 1,229,879, is our second highest country and had a membership to population ratio of one to 156. The United States, in third standing, with a baptized membership of 1,043,716 improved its population per member ratio from 298 to one to 294 to one. The Philippines, with 674,816 baptized members, moved from one Adventist for every 146 persons to one for every 137.

**Statistics by the Day.**—An annual growth rate of 2.43 percent meant that Seventh-day Adventist membership increased an average of 1,058 each day during the past statistical year. Additionally, an average day in 2009 meant that six new churches were established and helped to accommodate the 2,889 daily baptized believers. Also, the Adventist community as a whole each day contributed \$7,419,627 to advance that gospel message. The total tithes and offerings for the year amounted to \$2,710,018,856.

**Statistical State of the Church.**—The report before you provides a detailed statistical summary of the Seventh-day Adventist Church at the end of 2009. It devotes 48 pages in its major section that give some 41 items of information about church membership, contributions, and church workers, for each conference, mission, union, and division. The remaining pages provide historical statistics, departmental statistics, and summary tables.

A Seventh-day Adventist statistical archives consisting of past statistical reports, tables, and documents is available on the web at [www.adventistarchives.org](http://www.adventistarchives.org).

## GLOBAL MISSION

## The Church's Presence, Outreach, and Mission

**Challenge of Global Mission.**—The Global Mission document voted at the 1989 Annual Council and endorsed at the 1990 General Conference Session seeks to create an awareness, in concrete measurable terms, of what the gospel commission means to the church today.

**Monitoring Global Advance.**—Table 1 below lists major unentered regions of the world according to conferences or missions rather than by countries. It is based on a challenge of Global Mission: to place a church among each one million of earth's population. To locate regions where the ratio of churches to population is less than 1:1,000,000, we have used the 2010 *Seventh-day Adventist Yearbook* to find those conferences or missions with low church-to-population ratios. For example, in the Sahel Union Mission of the West-Central Africa Division the Burkina Faso Mission has a population of 15.8 million and 11 churches. Therefore, on average, each church serves a population of 1.4 million people. Progress is indicated in the fact that in 1990 each church served an average of 3.0 million people.

This view of the global challenge shows in which conferences or missions the great challenges lie in relation to the Adventist "presence." (For a definition of "presence" see "Definitions" in the next column.)

A column is provided to show the "Population Estimate (Millions) Per Church 1990 or When Organized" for comparison. The basis for these entries is the 1991 *Seventh-day Adventist Yearbook* or the *Yearbook* representing the year of the field's organization after 1990. In some cases the 2009 ratio is larger than the earlier ratio. This may be due to a population that is growing more rapidly than the church or to official revisions in population estimates, rather than to a loss of churches. In some cases the fields that existed in 1990 no longer exist by the same name or territory so a direct comparison is impossible. In other cases growth of churches has lowered the ratio below 1.0. These are being eliminated year by year as church growth occurs.

The number of churches is taken from this edition of the *Annual Statistical Report*; population statistics are for mid-2009 and are provided by the Population Reference Bureau of Washington, DC.

Some countries with a population of one million or more yet with little or no Seventh-day Adventist organizational structure are shown in parentheses.

Table 2 lists all countries and areas of the world and shows church-planting activity and general growth, including the number of ordained ministers, churches, companies, and members, for each country.

Although isolated Sabbath keepers or Seventh-day Adventists from other countries are known to reside in some countries where there is no organized church, the data here corresponds to official reports from the divisions.

The "Ordained Ministers" column excludes those who serve in administrative positions at the union and division levels.

**Definitions.**—Officially, what is a "country or area of the world"? For the purposes of this report, it is a political entity recognized by the United Nations. Because the Seventh-day Adventist Church does not involve itself in political affairs, the reader should attach no special significance to the presence of certain names in the list or the absence of others. The countries and areas shown in the accompanying Global Mission tables are as listed in the United Nation's publication *Population and Vital Statistics Report* "Statistical Papers," Series A Vol. LXII, No. 1, Data available as of 1 January 2010, except for Taiwan which is not listed in the United Nations publication. Population figures are supplied by the Population Reference Bureau of Washington, DC.

"Presence" means the existence within the territory of an organized church.

"Established work" exists in a country or area of the world when one or more of the following criteria have been met: (1) when an organized church meets regularly; (2) when a mission station, healthcare facility, or school is functioning regularly; or (3) when a regular full-time denominational employee is based in the country or area carrying on outreach or soul-winning activities through such units as a Sabbath school, an organized company, or a language school. Seventh-day Adventist work is *not* considered to be established in a country or area when it is limited to a series of evangelistic meetings, literature-evangelist work not based there, scattered Sabbath keepers, employees traveling through, or temporary service by regular employees, student missionaries, or other volunteer employees. Countries or areas where the church does not have established work are listed in a half-page table on page 77.

The "number of countries and areas of the world" as listed by the United Nations as of 1 January 2010 is 236. Our count is 232 because we do not count Hong Kong SAR, Macao SAR (or Taiwan) since they are considered part of China according to the United Nation's listing. Also, we only count Saint Helena, not Ascension and Tristan da Cunha as they are dependencies of Saint Helena.

**Symbols Used in Table 2:**

- + Improvement, but percentage calculation is impossible because the beginning figure is zero.
- Decrease in growth.
- ( ) Negative number.
