Dudley, R., & Sahlin, M, (2010). 2009 Congregations Study for the North American Division. Berrien Springs, MI: Institute of Church Ministry.

- 13% actually attending several times a week
- 75% of young adults reported that they pray at least once a day,
- 30% read their Bible at least once a day

### The Challenge

- Seventh-day Adventist young people in public universities represent a highly talented and motivated sector of our membership. They are at a critical stage in their lives, making far-reaching decisions.
- The naturalistic assumptions underlying the majority of courses, the influence of non-believing professors, the loose lifestyle espoused by many on campus, political pressures, and academic activities or examinations on the Sabbath. Some of our youth enter this arena without adequate preparation, and some find these challenges too strong for their faith
